E. R. GOODMAN EXPLAINS HOW BOARD OF EDUCATION SPENDS THE MONEY.

At the Chamber of Commerce Get-Together Banquet last week Chairman John B. Edwards called E. R. Goodman, member of the Board of Educa tion. Regarding the schools and their needs, Mr. Goodman said in part:

"It is fitting that the people understand what is done with the money raised by taxation. More than fifty per cent of the taxes paid in North Schools. The exact levy this year is \$6 mills. In order that we may know amount expended for school purposes this year in five cities is as follows:

do I accept? My fellow citizens have called me to this service and this duty with the view that I may aid in making North Platte a better town in which to live. In this spirit, I accept the nomination, and if elected, I shall serve in the same spirit.

Whether I become Mayor or remain a private citizen, I shall strive to make North Platte a more modern, beautiful and healthy city, a cleaner, more wholesome and less dangerous place, in which to live.

A paving program has been adopted of the North Platte young folks so that 40 blocks, while there are many cities but not yet executed. It only includes about our size, that have that many miles of paving. North Platte now has several hundred men out of employment with consequent means of support, now lost to their families. looks as the a paving contract might now be let, much cheaper than a few months ago. At any rate it would cost but little to advertise for bids again, on the specifications already prepared, with such changes as may be necessary, and if prices are at all reasonable, I think the work should be done as soon as possible and whoever does it, be required to give preference know. to local labor.

The voice of a majority of the property owners (who are the ones that must pay for the paying) must, however be considered. I believe, however, that those of as who are fortunate enough to own property on the streets to be paved ought to be willing to pay even a little more for the paving now, than we might have to pay at some uncertain time in the future, to the end that labor may be employed. Besides we would get the immediate use of the paving and would have 10 years in which to pay

North Platte has many needs in the them being the extension of our street lighting system. All these things oney, and taxes are already If Mayor, I should strive to make progress in public improvemets and still have regard to the question of expense, so that we may not accumulate bond issues unduly and make tax levies so great that our city would not be attractive to an investor or homemaker.

Among other progressive measures, I would urge upon the council that an ordinance be passed defining the quality of gas that can be furnished and sold in the city, by the number of tain and also the extent of its purity. to the end that we might get a reasonable fuel value out of the gas we burn and not be annoyed by bad odors this power, because the contract with

"The gas to be furnished shall be of ing and illuminating purpose.'

Another step in progress, which I Horton Munger, Mrs. Ray Cummings would favor would be to require all and Mrs. Fred Rincker. The hostess policemen, when on duty, except one served a nice lunch before the guests

regular policeman uniforms. This would add dignity to their positions. The Mayor, before assuming his duties, takes an oath to support the laws of the city, state and nation and perform the duties of the office to the best of his ability and it is customary for him to call upon his Maker to witness this row. Would anyone say STATEMENT OF WM. E. SHUMAN, that they desired him or her to break it? I, at least, would strive to keep this promise to the best of my ability I would persecute no one and he who abides by the law need not be afraid. If there be law violators, and there always will be, they should be prose-

cuted. I have been asked, whom I would appoint Chief of Police. Frankly, I do not have the least idea, neither do I know who I would appoint to the other offices.

I shall not borrow any trouble now .. about who will be appointed to any office, because forsooth, I may not do the appointing. But if I am the one who is to have this responsibility. I am sure that as least as far as the police and street commissioner are concerned, I shall talk the matter over with members of the Council and others whose advice I believe to be valuable, to the end that I may secure the very best men for the places to be filled.

In fact I shall wish to work with the Council in all matters pertaining to the city's affairs. I realize that several heads are better than one, and I know of no man on the Council, nor anyone who is a candidate for such office, with wham I could not sit down and talk matters over. think every member of the Council and every candidate for that office, as well as all other officers of the city. desire to do the best they can for the welfare of our city, and if Mayor I should not hesitate to ask them for their opinion and advice. I appreciate that many of them have been in service for some time and they have learned things that those of us who have not been in such service do not
