What Does the Party Circle Mean on Our City Election Ballot?

How the party circle got on our ballot, in this city election, after we had gotten along without it for several years, nearly everyone who takes an interest in public affairs, now knows. Thinking that the matter of who should be the next Mayor was settled by the Republican and Democratic Caucuses held that Wednesday night in the Court House, at the same hour, those who were so elated at the result of the caucus bragged on the street how they had put it across, how some put several ballots in the hat and how other hurried from one caucus to the other, so that they could vote in both.

Nevertheless the party circle is on the ballot and a vote either in the Republican or Democratic party circle, will be a vote for the same man for Mayor, though, of course, he is not both a Republican and a Democrat, and cannot be. Anyone who puts a vote in either party circle is only voting for this same man for Mayor and for the candidate for City Clerk, who has no opposition. They are not voting for any of the other officers whatever. Therefore, one who votes the party circle and quits has not voted for City Treasurer Water Commissioner, Councilman or members of the Board of Education.

Only the most indifferent voter will be deceived by this party circle. Those who want to exercise their own choice for candidates, for the different offices will examine the ballot for the names of the ones for whom they wish to vote and put a cross in the square, in front of the names of such persons and thus make their own individual choice.

Helpfulness.

While our business is primarily that of a banking house our activities are not necessarily limited to routine banking.

When we can consistently do so, we are always glad to extend help to patrons who come to us for advice, even on matters not strictly within a banker's province.

First and last, our attitude towards patrons is one of helpfulness.
