EDITORIAL

Anyone who is out of work and wants a job can have a notice to that effect put in our Want-Ad column for two issues, free of charge by writing us, or calling at the office.

Another visit to North Platte by Bishop Stuntz will be welcomed by those who heard his lecture a few weeks ago on the Far Eastern Question. We do not know what he is going to talk about but we are certain it will be interesting and enlightening.

The American Legion boys are certainly lucky in having such an auxiliary as the Local American War Mothers. The way these mothers worked for the success of the banquet and the way the boys enjoyed the results of their efforts showed that each appreciated the other.

The week beginning April 4, has been designated by the Chamber of Commerce as Clean-Up week in North Platte. The Chamber of Commerce is back of this movement here and it should have the support of every good citizen. We all remember the 100% cards which were distributed last year by the Boy Scouts. They were much coveted and some homes still cherish them. They are to be used again this year and we predict that practically no family which owns its own home and very few renters will be without one of these cards when the campaign is over.

One of the reasons why so many of our leading bankers, editors, professional and business men and statesmen are assisting the American Farm Bureau Federation and all the State and County Farm Bureaus is because of the sanity of the movement. Unless the farmers prosper these others cannot hope to prosper. The wise leaders know this and have been on the lookout for anything that would promote agricultural prosperity. The farmers form a great body of customers and clients to the business and professional people. So

it is to the interest of the professional and business men to favor any movement that in his judgment will help the farmer. The Farm Bureau appeals to this sense of sanity and most of them favor it. It is also making a strong appeal to the farmers as soon as they understand it.

AUTO SHOW.

The Auto Dealers are all getting ready to display to the people of Western Nebraska an Auto Show of which to be proud. Many special jobs will be displayed that are seldom seen here, while all realize that many more standard equipped cars are sold, yet all admire these special jobs. This will be a rare treat.

FROCK OF DARK SATIN

Dark blue satin, a little fancy braid and accordion plaiting join forces to make the new and smart one-piece frock illustrated. It is graceful and youthful, with a skirt that is plaited across the back and plain across the front.

FREED FROM TURKISH YOKE

Chaldeans Promised a Measure of Independence Under the Guiding Hand of France.

The American army officer, chosen by the Chaldeans to present their appeal for independence to the council of allied premiers, reports that he has been unable to get a hearing for that ancient people. They made some attempt during the peace conference to obtain consideration, having heard that "self determination" was to be a guiding principle in the settlement of the world's affairs. Those at Versailles who had some familiarity with Biblical history may have recalled the Chaldeans, of course, but they failed to make an impression on minds surcharged with acute problems of twentieth-century statesmanship.

The Chaldeans, or Babylonians, however, may count on being better off than has been their lot for many centuries. They will get some benefit from the new era. Residing in northern Mesopotamia, which France now will control—the southern region being confided to Great Britain—they will be freed from their old oppressors, the Turks, and the French government has indicated a purpose to give them a measure of autonomy. The Chaldeans were once a warlike people, capable of demanding what they desired. More than 1,000,000 of them are now said to be dwelling in the region that will be redeemed from Turkey.
