

Music's Perfect Mirror

The NEW EDISON "The Phonograph with a Soul"

The New Edison is like the perfect mirror that reflects form and feature, true to every line and subtlety of coloring. It gives you an exact RE-CREATION of the singing or playing of the living artist or artists.

Mr. Edison spent 7 years of his time and 3 millions of his dollars to develop the perfect realism of the New Edison. He has proved this perfect realism by comparing the New Edison with living artists 5,000 times before more than 5 million people. The New Edison is positively the only phonograph which can sustain this test.

We have, for you, a proof on offset paper of the famous Franklin Booth Etching of Mr. Edison, as he looks today. Size 12 x 19 inches. Bears no advertising matter; suitable for framing. Just fill out the ballot,—and bring or mail it to us.

Dixon Music Shop.

BALLOT
(Bring or mail this ballot)

Mr. Edison has just made a list of his 25 favorite tunes. What other well-known American's favorite tunes would you like to know? Write his or her name here

Your name _____

Address _____

- Franklin Booth Portrait of Edison
- What Edison Likes in Music (Booklet)
- Edison and Music (Illustrated Booklet)
- What Did Edison Do During the War? (Bulletin)

FIFTY AUTOS LOADED WITH SCOUTS TO STOP HERE.

Clinton, Iowa, April 19, 1921
Special to the Tribune:

Under the direction of the Clinton, Iowa, Council Boy Scouts of America, and accompanied by some fifty representative business and professional men of this city, two hundred or more first class scouts will leave Clinton, Iowa, on or about June 15th, in fifty-five automobiles and trucks for a three thousand mile trip to Yellowstone National Park, as per the condensed itinerary published herewith.

The party will carry complete camping equipment and will sleep out every night from the time they leave home until they return. The territory to be covered will be divided as nearly equal as possible consistent with conditions, so as to camp every night at the most desirable places and yet cover as much territory each day as possible. The committee in charge requests communities along the line of the itinerary to advise Mr. O. O. Pierce, Scout Executive, or J. C. Vant Hul, Jr., Publicity Director, concerning camping facilities that may be available taking into consideration such essentials as drinking water, fuel, etc.

Necessarily stops in all communities not classed as over night stops will be brief. In as much as the party will carry complete moving picture equipment and desires to film each town through which it passes, it is hoped that the citizens of each community will turn out and participate in this film. Such portions of the film as can be completed will be shown on the street in the over night towns, and the complete films of the entire trip will be routed over the entire territory after completion. Through this medium all the communities to be visited will secure a great deal of excellent advertising.

The committee in charge will be glad to hear from all cities and towns on the itinerary and will especially appreciate it if pilot cars could be provided from town to town to facilitate the progress of the tour. All communications should be addressed to either of the above named parties and the committee would especially appreciate hearing from mayors, newspaper editors, commercial organizations, Rotary Clubs, Kiwanis Clubs and Scout Executives.—Clinton, Iowa, Boy Scout Council.

The following is clipped from the Long Beach (Cal.) Press, dated April 14. (North Platte people notice.) "One of the worst winds ever recorded in Southern California, last night filled streets and homes in Long Beach with sand and dust and blew down trees in Long Beach and Los Angeles, causing the death of Anton Felt, 52, in Los Angeles. Felt's death is the fourth that has been caused by the high winds of the recent weeks" etc.

Mrs. R. B. Freel of Stapleton was a business visitor here Wednesday.
