

The Ideal Farmers Cow

The undersigned Dawson County Red Polled Breeders will sell at the Sale Pavilion, at Lexington, Nebr., on

Thursday, May 26, 33 Head of Cattle 33

20 cows and heifers, 13 head of young bulls six months to two years old. Some are from cows in the advanced registry, and some from cows that will be, if their present record of an average of two lbs. per day continues and their record completed.

The records of the breed show them easily capable of producing from 400 to 600 lbs. of butter fat. The highest record of any one cow, 31725 Jean Du Luth Beauty, is 891.5 pounds butter fat.

A mere look at most of the offering in this sale will prove their ability in producing a desirable type of feeders. The highest beef test record showed the breed capable of producing well marbled steak, the carcass dressing 73.72 per cent.

This offering will not be loaded with fat, but are handled in a practical farmer's way, making them capable of converting roughage into beef and milk. If agriculture is the foundation of all pursuits, and without fertility the soil will soon become barren, would not a practical farmer's cow that will give a good flow of milk enough to nurse two calves well, while you milk the other and yet produce beef of good quality, be the cheapest way to maintain fertility? Has not the Red Polled been bred along these lines longer and are they not more highly developed in dual purpose than any other breed? Come and see.

Teddy, our foundation herd bull, had for his sire Profector, a Chicago International Champion, and his dam, Nina, had a record of 6 gallons of milk per day.

The year we sold Teddy's Best, that won 32 championships, Mr. Anthony bought the calf Lexington by Teddy and out of Bonnie, a 1650 lb. cow, the greatest producer we ever owned. Lexington was the calf that made Mr. Hansen feel like flopping pennies as to which one to take. Had Lexington been fitted and shown by Anthony like Teddy's Best, Teddy's Best might have had to be renamed. Since then the herd has had at its head Red Knight by Happy Jack, and Chief Charmer 3397, a first prize Senior calf at Nebraska State Fair, 1919, a son of Royal Charmer and a grandson of the 2400 lb. Charmer, the grand champion at the Chicago International 1919.

As for Randal 24811, the present herd bull in the Anderson herd, we quote from Chester Graff, this notes, "As a two year old, Randal was undefeated in his class at the Iowa, Nebraska, and both Kansas State Fairs." His dam, Ruperta, a champion in her time, weighed over 1700 lbs., in how form, and was pronounced by different judges as a most remarkable type of dual purpose cow. She was a great producer at the pail. She was the dam of several champions at the leading shows of America.

His sire, Dandy, was a champion at several state fairs in 1912-13. Also his brother, Dixon, was grand champion bull at 1909 International at Chicago.

Several of his calves in this sale are show prospects and will be a pride to any owner. For further particulars send for catalogue to either

J. O. ANDERSON & Son or C. R. ANTHONY & Son

CRUSADE FOR BETTER LIVE STOCK IS BEING PUT ON IN LINCOLN COUNTY

The State Agricultural College and the U. S. Department of Agriculture are jointly putting on campaigns in different parts of the country for higher grade live stock on the farms. This campaign is known under the name of the "Better Sires—Better Stock" Crusade. The matter is being taken up in Lincoln County under the auspices of County Agent Kellogg, and he is pushing it as fast as possible. He is asking the farmers to enroll in the campaign. There is no charge. Each farmer who enrolls makes out a list of all animals on his farm which are used for breeding purposes. He then signs the declaration which reads as follows: "I have listed in the foregoing statement the number of animals kept for breeding and in the future I will keep and use only purebred sires of good quality." As a reward for this promise the County Agent will furnish each farmer with a gate sign which reads something like this, "Only Purebred Sires Used on this Farm" and will enroll him in the list which will be printed and sent out all over the country. Membership in this list and displaying the gate sign will mean increased demands for live stock produced on that farm. It will also mean a gradual improvement in the grading of the live stock in Lincoln County and in that way much better prices and larger profits to the stockmen. It is predicted that if Lincoln County farmers will enroll in this campaign in large numbers, this County will become a center for those from other counties who wish to purchase high grade cattle, hogs, poultry and other farm animals. County Agent Kellogg will give full particulars to those who write him.

CONSTANT FIRING NORTH OF TOWN NEXT SUNDAY NOT A HOSTILE ATTACK.

The Buffalo Bill Gun Club will hold a registered shoot on the Fair Grounds next Sunday beginning at 9:30 in the morning and lasting during the day. Tents will be erected for rest and shelter and lunch will be served on the grounds. This is a registered tournament authorized by the American Trapshooting Association and the scores will be included in the official records. A large number of professional shooters will be present as well as a number of amateurs.

HUMAN NATURE STORY.

Rev. J. B. Payne, in charge of the free lunch at the People's Mission tells of a big negro who came to dinner there the other day. He was so hungry and everytime Mr. Payne would say "Have another dish of stew" he would tell how hungry he was. After he had eaten all he could hold he asked if there was anything he could do. He offered to wash dishes or help clean up but Mr. Payne told him that some of the other fellows had already been promised that job. So he went off towards town after thanking them over and over for his dinner. Pretty soon they saw him coming back with the remains of a broken wooden crate which he had found down by the tracks. He took it around to the back of the building and put in the kindling pile and then turned around and went on down town without saying a word.

In protection and coverage—in prompt payment of claims—fair spirit of adjustment and service The Travelers policies are the standard of what accident and health policies should be. Why not have the best, when it costs no more?

The L. F. F. Club held a very interesting meeting last Thursday at the home of Mrs. F. E. Kronquest. The afternoon was spent in conversation and a Mother's Day program after which light refreshments were served. Two new members were enrolled and a picture taken of the Club. The next program for May 26th will be Memorial program and each member is asked to contribute something.

NORTH PLATTE HOME GARDENS SHOULD CONTAIN PLENTY OF BEETS

Everyone knows what beets are but not everyone knows how easy it is to raise them.

Garden beets can be planted almost as soon as the soil can be worked in the spring. Rich soil that is well prepared is essential. Commercial fertilizers and well-rotted manures are best to supply the plant food, but should be very thoroughly mixed with the soil. Egyptian and Detroit Dark Red are among the leading varieties. Sow the seed in a shallow drill, 1 ounce to 50 feet of drill, and cover about 1 inch deep. When the plants have become well established thin so they do not crowd. A little later thin a second time, leaving the plants standing 4 to 5 inches in the row. Use the thinnings as greens. The round or turnip type of beets mature in 60 to 70 days, while the longer ones require 100 to 120 days to complete their growth.

FOR THE CONSIDERATION OF THE LINCOLN COUNTY FAIR MANAGEMENT.

It has been proposed that the management of the County Fair set aside a small portion of the Fair Grounds for a Boy Scout camp during the Fair. Let the boys put up tents and eat and sleep there. Let them put on demonstrations of signalling, first aid, and other activities for the entertainment and instruction of Fair visitors. Give them places or responsibility in keeping the crowds back and in directing crowds. Make them the special information guides and watch them make good at every point. It is suggested that the Scout executive meet with the proper officers and work out the details of such a camp, provided it has not already been considered and disposed of.

IF YOU OWNED THE GOOSE THAT LAID THE GOLDEN EGGS WOULD YOU INSURE IT?

Of course you would. Well, you are producing the golden nuggets for yourself and family! I will insure your producing ability which is more important than the "Golden Goose" problem. C. P. Temple, The Travelers Man.

Mr. and Mrs. Fairbush of Hershey were city visitors Tuesday.
