The Ideal Farmers Cow

The undersigned Dawson County Red Polled Breeders will sell at the Sale Pavilion, at Lexington, Nebr., on

Thursday, May 26, Head of Cattle 33

20 cows and heifers, 13 head of young bulls six months to two years old. Some are from cows in the advanced registry, and some from cows that will be, if their present record of an average of two lbs. per day continues and their record completed.

The records of the breed show them easily capable of producing from 400 to 600 lbs. of butter fat. The highest record of any one cow, 31725 Jean Du Luth Beauty, is 891.5 pounds butter fat.

A mere look at most of the offering in this sale will prove their ability in producing a desirable type of feeders. The highest beef test record showed the breed capable of producing well marbled steak, the carcass dressing 73.72 per cent.

This offering will not be loaded with fat, but are handled in a practical farmer's way, making them capable of converting roughage into beef and milk. If agriculture is the foundation of all pursuits, and without fertility the soil will soon become barren, would not a practical farmer's cow that will give a good flow of milk enough to nurse two calves well, while you milk the other and yet produce beef of good quality, be the cheapest way to maintain fertility? Has not the Red Polls been bred along these lines longer and are they not more highly developed in dual purpose than any other bred? Come and see.

Teddy, our foundation herd bull, had for his sire Profector, a Chicago International Champion, and his dam, Nina had a record of 6 gallons of milk per day,

The year we sold Teddy's Best, that won 32 championships, Mr. Anthony bought the Calf Lexington by Teddy and out of Bonnie, a 1650 lb. cow, the greatest producer we ever owned. Lexington was the calf that made Mr. Hansen feel like flopping pennies as to which one to take. Had Lexington been fitted and shown by Anthony like Teddy's Best, Teddy's Best might have had to be renamed. Since then the herd has had at its head Red Knight by Happy Jack, and Chief Charmer 3397, a first prize Senior calf at Nebraska State Fair, 1919, a son of Royal Charmer and a grandson of the 2400 lb. Charmer, the grand champion at the Chicago International 1919.

As for Randal 24811, the present herd bull in the Anderson herd, we quote from Chester Graff, this notes, "As a two year old. Randal was undefeated in his class at the Iowa, Nebraska, and both Kansas State Fairs." His dam. Ruperta, a champion in her time, weighed over 1700 lbs., in how form. and was pronounced by different judges as a most remarkable type of dual purpose cow. She was a great producer at the pail. She was the dam of several champions at the leading shows of America.

His sire, Dandy, was a champion at several state fairs in 1912-13. Also his broth-

er, Dixon, was grand champion bull at 1909 International at Chicago. Several of his calves in this sale are show prospects and will be a pride to any

owner. For further particulars send for catalogue to either

OF THE CLEAN-UP, PAINT-UP CAMPAIGN.

May 25th, the date set to have the clean up work completed, is close at hand. Up to date it is a draw between the First Ward and the Second Ward transacting business in the ctly. Forbes of the Second, some yards. Fourth are urged to use their tele. on duty. phones and automobiles if they expect the secret judges to really give left Saturday for Memphis, Tenn., af- SHAFER ROLLER BEARINGS

them a good looking over. No high water makes it nice to ents Mr and Mrs. C. S. Clinton. clean up. Let's do better. The Boy your own pride, the ward that you live in, and our town in general, let's try to be in keeping with God-like and home loving people.

After considerable study and thought, it has been decided that the 100% cards will be awarded where all yards are clean and where all rubbish has been removed from both the front yards, back yards, gardens and alleys. This means ashes, tin cans weeds and all rubbish, such as surplus dirt, etc.

The Twentieth Century Club has the danielions going good. We are certainly in favor of removing all danifelions, as they will ruin a lawn and aurely look bad, as well as being a pest or nuisance. We therefore ask and trust that the citizens in each ward will remove the dandelions 100% from their yards, and to this end we ask your co-operation, but if you don't do it, you will be given your 100% card, providing you are 100 per cent otherwise. We suggest however, that so long as your neighbor is taking the yellow pest from his yard, that you do likewise, so he will have nothing on you.

We urge and recommend that you raise and have a big garden full of nice things to eat and that you keep the weeds cut in your alleys and your yards throughout the weed growing season. With the co-operation and assistance of every citizen, all of these things can be accomplished. Just think, if every member of the Chamber of Comerce, the Rotary Club, the Kiwanis Club, Twentieth Century Club, Mothers' Club, the Parent-Teachers Organization in fact any and all clubs and societies, will simply help foster and push the above movements just as a matter of civic pride for two days only, what a clean town we will have. Come on now, altogether on the one issue and let's see what can really be done on May 24th and 25th.

We are, yours for a cleaner town CHAMBER OF COMMERCE CLEAN-UP AND PAINT-UP COMMITTEE.

Health for Aching Victims of Veuritis

When you get a feverish, aching soreness of the arm which seems to have deprived the muscles of power, the trouble is neuritis.

Neuritis is an inflammation of the nerve. Its blood vessels expand there s excessive heat, and there is a disharge of serum into the cells

which softens the muscles and degenerates the nerve. The cause is pressure at the spinal nerve opening, and the correction is chiropractic spinal adjustments. If attention is given in time, no serious results follow. The tendency of neuritis, unless the cause is removed, is to paralyze the part af-
