EDITORIAL

One of the dearest things in North Platte is the High School Alumni Association. It seems to be unfortunate in its officers who are elected from time to time and do nothing to carry on the work of the association.

Neither of the two boys who took highest honors in the graduating class this year were members of the football, basketball or track teams.

The Tribune favors publishing the personal tax list. We might get a little of the publication for which we will be grateful and which will get our best attention.

Railroad Notes

BY ONE OF THEM

Considerable coal is moving east these days and scarcely a train east bound goes through without carrying a number of cars of coal.

Since the acquisition of the L. A. & S. L. by the Union Pacific, some of the local employees who have the California fever are wondering if they cannot transfer to that road.

W. L. Park, recently a member of the Federal Railroad Board has been relieved of that position and is now a private citizen without an office of any kind.

Getting Rid of Scarlet Fever

Scarlet fever is most troublesome, especially in its after effects, which include deafness, weakness of the eyes, bad heart or weakened kidneys. Sometimes all of these after effects are present, sometimes only one or two of them. Deafness is due to a catarrhal condition which can be corrected by ad-

Justments. The heart weakness is directly due in most cases to weakened nerve impulses from the spine, and sometimes it is affected by the failure of the kidneys to properly filter the blood. Chiropractic spinal adjustments will restore normal nerve impulses to all of these organs and the sufferer instead of "nursing" those after effects, gets rid of them. Evidence could be cited to prove the efficacy of chiropractic in all of these after effects, but one statement is sufficient.
