A STABILIZED PRICE ON A GOOD CAR.

I want to assure you that there will be no change in the price of the Dodge Brothers Cars, now or in the future and you can write your own guaranty and I will sign it. There will be a constant improvement in the car itself which will more than take up any decrease in the cost of building the car, as these improvements will be added to the car at wholesale cost, as against reductions which figure to you always at retail prices. You can be assured now as in the past that you will get a full measure of value and more value for each dollar than any smaller manufacturer can give you. You can expect much and get much from the world's second largest builder of automobiles—Dodge Brothers.

J. V. ROMIGH, Dealer.

Low Heel in white Buck or white Nile with Patent Leather toes and heels, one or two strap

Priced as low as \$6.00.

One Way to get Big Mileage Regularly

The importance of gasoline with a complete chain of boiling point fractions

You wouldn't expect to light a green stick with a match. Yet some gasolines are like green sticks. They neither ignite quickly nor burn up completely—because they lack sufficient low boiling-point fractions for kindling, and have too great a proportion of slow-burning elements.

Straight distilled gasoline possesses the complete chain of boiling points which assures quick ignition and practically instant, complete combustion. Every bit is converted into heat and power—gives bigger mileage per gallon than slow-burning mixtures, or less carefully refined gasoline.

Red Crown Gasoline has a complete chain of boiling point fractions. Red Crown Gasoline is straight distilled gasoline. It meets all specifications required by the United States Navy for motor gasoline. It has a complete chain of boiling-point fractions—low, medium and higher boiling-point fractions—which, in right proportion, assure big power and big mileage. It is uniform and dependable wherever you buy it.

How to get better results at less cost. The way to get mileage and power economically, to escape carbon troubles, to have a spry, quick-starting engine, is by perfect adjustment of the motor to the fuel used. This can only be secured by using gasoline that is UNIFORM—gasoline you can get wherever you are—gasoline that gives a lean, dry, powerful mixture under all weather conditions. Use Red Crown Gasoline.

Authorized Red Crown Dealers Everywhere. Wherever you go you can always get Red Crown Gasoline from reliable, competent and obliging dealers. The gasoline and motor oils they sell make motor operation more economical and more dependable. They are glad to render the little courtesies which make motor-pleasanter. Drive in where you see the Red Crown Sign.
