The Christian Endeavor Society met Friday in the basement of the Christian Church and elected the following officers: Ola Pyle, president; Everett Bradley, vice-president; Wm. Mcomber, secretary and treasurer; Florence Powell, chairman of social committee; Frances Dolph, chairman of prayer meeting committee. Following the business meeting games were played after which refreshments were served.

The alley between the Keith Theatre and the Knights of Columbus buildings has been cleaned out and the machine is in place for laying concrete paving. Ed Walker has the job at \$3.20 a square yard which he says is about \$1.30 a square yard cheaper than it could have been done for last year. Nothing further has been done about paving the alley between sixth and front streets and we have been informed that nothing will be done as some of the property owners object to paving the alley unless the poles are removed.

Final Clearance of Ladies Spring Suits and Coats

We have divided all the Ladies Spring Suits and Coats into lots with your choice of garments at one price for each lot. CITY LIBRARY TO GIVE SPECIAL ATTENTION TO BOOK WANTS OF CHILDREN

The Juvenile Branch of the City Library, which has been maintained in the Lincoln School during the past year was closed with the end of the school year. 190 different children took books out of this branch. The books have been taken to the City Library building where they will be used during the summer. Additional books for children have been provided at the library. The librarian proposes to give special attention during the summer to children selecting books from the library—books that are suitable to the age and advancement of the child.

Mrs. Henry Gilfoyl went to Gothenburg yesterday to spend the day.

Marie Guynn left yesterday for Paxton to spend the summer on the Crabb ranch.

President Gray of the Union Pacific passed through the city yesterday for Portland on business.

Miss Merle Hanna returned to her home in Cheyenne after visiting Mrs. E. Callison over the week end.

Mrs. Wm. Lloyd came home from Lincoln the latter part of the week she spent two month visiting.

Weak Eyes Come Back to Health

There are two kinds of eye weakness. One is due to general or constitutional causes, and the other to some weakness that is local to the eyes alone. Weak eyes is quite a common after effect of fevers or other ailments which fill the system with poisons.

When eye troubles are due to defective kidney action, or come as an after effect of measles, scarlet fever, etc., the chiropractic spinal adjustments must correct the constitutional as well as the eye condition. Such cases are apt to be more slow in showing results.

But where the trouble is local to the eye as in strabismus, or cross eyes, the results from chiropractic spinal adjustments are directly effective. This is particularly true in children. In adults, of course, the condition is more stubborn, and may resist correction entirely.

Cross Eyes Corrected.

The above picture is a perspective of the exterior design of a modern Consolidated School Building.

The architect in planning and designing the building has taken all necessary details into consideration in the arrangement of the floor plans together with several new modern improvements, specialties, and features that are necessary in this present day of modern improvements for school buildings. One feature of this plan and design is the lighting arrangement which has been taken care of so as to give the greatest maximum of light possible without casting any more shadows into a class room than is absolutely unavoidable with this modern system of window lighting. In this manner doing away with the previous methods of school building lighting. To school districts that are contemplating consolidation I wish to say that these drawings are on file at my office and I will be pleased to take the project up more in detail with interested school boards.

Advising you that I am not confining my work to consolidated school buildings only, I am in a position to render you the best of service in High School buildings, Grade School buildings, Public buildings or Commercial Buildings. Address all communications to
