Following the protest of H. D. Lute, secretary of the Nebraska Farm Bureau Federation, the railroads have withdrawn their application so far as Nebraska is concerned, before the interstate commerce commission for a restriction of the period of furnishing heated cars for the shipment of fruit and vegetables. This matter was of particular interest to Nebraska potato growers. The railroads in the past have been required to furnish heaters for cars from October 15 to April 15. They sought to reduce the period from December 1 to March 1. The shorter period was favored by the large commission firms who have large storage facilities. It would tend to aid them in a speculative way by allowing them to hold up prices during periods when it would be unsafe to ship on account of freezing weather. On the other hand it would work an untold hardship on the small shipper and the grower who desires to ship his own produce by increasing his shipping hazard and at times causing him heavy losses.

NOTICE TO PUBLIC

By virtue of a resolution duly enacted by the Board of County Commissioners of Lincoln County, State of Nebraska on the 25th day of June, 1921, notice is hereby given that said Board of County Commissioners of Lincoln County, State of Nebraska, passed the following resolution, declaring an emergency exists and authorizing the immediate repairs and restitution of certain bridges and approaches:

RESOLUTION

WHEREAS, the extreme high water, caused by floods, in the North and South Platte and Platte Rivers, during the month of June, 1921, in the County of Lincoln, State of Nebraska, has damaged and destroyed all or a part of the bridges over said Rivers in said County, to such an extent that they are made impassable and seriously inconvenience the public;

AND WHEREAS said bridges have been condemned for passage, by the Board of County Commissioners of Lincoln County;

AND WHEREAS it is necessary for said County to repair said bridges immediately, so that that portion of the bridges now standing, can be protected, and all of the bridges be made passable;

AND WHEREAS said repairs are required for the public good, and in the opinion of the County Commissioners an emergency exists;

NOW THEREFORE BE IT RESOLVED that since the high flood waters have damaged and destroyed all or a part of all the bridges over the North Platte, the South Platte and Platte Rivers in the County of Lincoln, State of Nebraska, and since it is for the public good that said bridges be repaired and replaced immediately so as not to seriously inconvenience the public.

WE, THE BOARD OF COUNTY COMMISSIONERS, hereby declare that an emergency exists, and be it further resolved that a contract be entered into immediately for the repair and restitution of said bridges, approach or approaches.

Passed and approved this 25th day of June, 1921.
