

DEMAND FOR TANLAC BREAKS ALL RECORDS

Amazing Success Achieved by Celebrated Medicine Not Only Phenomenal, But Unprecedented—Over 20,000,000 Bottles Sold in Six Years—Foreign Countries Clamor for It.

Never before, perhaps, in the history of the drug trade has the demand for a proprietary medicine ever approached the wonderful record that is now being made by Tanlac, the celebrated medicine which has been accomplishing such remarkable results throughout this country and Canada. As a matter of fact, the marvelous success achieved by this medicine is not only phenomenal, but unprecedented.

The first bottle of Tanlac to reach the public was sold just a little over six years ago. Its success was immediate and people everywhere were quick to recognize it as a medicine of extraordinary merit. Since that time there have been sold throughout this country and Canada something over Twenty Million (20,000,000) bottles, establishing a record which has probably never been equaled in the history of the drug trade in America.

Fame Is International.

The instant and phenomenal success which Tanlac won when it was first introduced has been extended to practically every large city, small town, village and hamlet in North America. Its fame has become international in its scope and England, Japan, Mexico, Cuba, Hawaii, Alaska, Porto Rico and many European countries are clamoring for it.

From coast to coast and from Great Lakes to the Gulf, Tanlac is known and honored. Millions have taken it with the most gratifying and astonish-

ing results and have pronounced it the greatest medicine of all time.

Tens of thousands of men and women of all ages in all walks of life, afflicted with stomach, liver and kidney disorders, some of them of long standing, as well as thousands of weak, thin, nervous men and women apparently on the verge of collapse, have testified that they have been fully restored to their normal weight, health and strength by its use.

Restored to Health.

Still others, who seemed fairly well, yet who suffered with indigestion, headaches, shortness of breath, dizzy spells, sour, gassy stomachs, coated tongues, foulness of breath, constipation, bad complexion, loss of appetite, sleeplessness at night and of terribly dejected, depressed feelings, state that they have been entirely relieved of these distressing symptoms and restored to health and happiness by the use of Tanlac.

Tanlac is sold by leading druggists everywhere.

THE "DOUGHBOY OF IDAHO"

Striking Statue Recently Selected by State's War Memorial Commission, Is Lifelike Study.

It's a far cry indeed from the stiff-necked, primly dressed recruit which flooded America after the armistice as the sculptured representation of the American fighter to the shirt-sleeved, delightfully informal "Doughboy of Idaho," recently selected by the state's war memorial commission to symbolize Idaho's contribution to the World war. The statue, work of Avard Fairbanks, Portland, Ore., and Salt Lake City, Utah, artist, is the most lifelike study of the A. E. F. infantryman as the Boche saw him that Amer-

ican artists have produced, according to both the ex-infantryman and those who have sought to immortalize him in bronze and stone.

The Idaho commission has ordered that all counties of the state have memorials alike in character with the addition that Mr. Fairbanks' "Doughboy" be the main feature of each county's memorial. The American Legion of Idaho has been warm in its commendation of the statue and Mr. Fairbanks has returned the compliment by informing the service men that: "I am convinced that the American Legion can be a tremendous power in education and in honor and in the glory of our great government. I am indeed enthused with the loyal stand on Americanism which the Legion is holding out for."

LEGION MAN UNION OFFICER

California Organization Adjutant Well Known for Activities With Fellow Laborers.

Fred F. Bebergall of San Francisco, who is now serving his second term as department adjutant of the American Legion in California, is one of the most active Legion officers in his state. Bebergall also is well-known for his activities in labor union circles.

Bebergall's life history is the same in some details as that of many successful men. His father died when he was nine years old and he went to work. He obtained his education at night schools and as he expresses it—the "good old college of hard knocks."

As a union official Bebergall has served in nearly every office of the San Francisco Typographical Union No. 21, and as assistant secretary of the California State Federation of Labor.

He was twice rejected for military service on account of impaired vision, but finally obtained a waiver from the secretary of war and was enrolled in the medical department of the United States army. He served as a member of Base Hospital Company No. 87 in France and was discharged June 30, 1919, at San Francisco as a sergeant, first class. He immediately became interested in the American Legion and as one of the organizers of the California department.

It is scientifically compounded from vegetable herbs.

It is not a stimulant and is taken in teaspoonful doses. It is not recommended for everything. It is nature's best helper in relieving and overcoming kidney, liver and bladder troubles.

A sworn statement of purity is with every bottle of Dr. Kilmer's Swamp-Root. If you need medicine, you should have the best. In sale at all drug stores in bottles of twelves, medium and large. Shame on Them.

PERHAPS there are a few mothers who do not know the virtues of Fletcher's Castoria. Perhaps there are a few who know that there are imitations on the market, and knowing this demand Fletcher's. It is to ALL motherhood, then, that we call attention to the numerous imitations and counterfeits that may be set before them.

It is to all motherhood everywhere that we ring out the warning to beware of the "Just-as-good". For over thirty years Fletcher's Castoria has been an aid in the upbuilding of our population; an aid in the saving of babies.

And yet there are those who would ask you to try something new. Try this. Try that. Even try the same remedy for the tiny, scarcely breathing, babe that you in all your robust womanhood would use for yourself. Shame on them.

Your Friend, the Physician.

The history of all medicines carries with it the story of battles against popular beliefs; fights against prejudice; even differences of opinion among scientists and men devoting their lives to research work; laboring always for the betterment of mankind. This information is at the hand of all physicians. He is with you at a moment's call be the trouble trifling or great. He is your friend, your household counselor. He is the one to whom you can always look for advice even though it might not be a case of sickness. He is not just a doctor. He is a student to his last and final call. His patients are his family and to lose one is little less than losing one of his own flesh and blood.

Believe him when he tells you—he will—that Fletcher's Castoria has never harmed the slightest babe, and that it is a good thing to keep in the house. He knows.

DESERT ISLE IN BIG CITY

Woman Writer Satisfied With Her Residence in "Hell's Half Acre" in Philadelphia.

Katharine Haviland Taylor, the novelist, says she's found a desert island and peace right in the middle of Philadelphia. It happened quite accidentally. Recently she went apartment hunting with very little knowledge of the residential districts of Philadelphia. She found an apartment and rented it because there were two limousines out in front, and so she judged that the street was all right. One of those limousines belongs to a broker of rags and paper, she learned later, and the other to an Italian peanut vender. She had moved into the historic district called "Hell's Half Acre."

"But I'm glad I was misled," says Miss Taylor. "I am not bothered by social obligations and I have lots of time for work. We're never bored. Shooting privileges go with every lease, and my vocabulary is enlarging all the time."

Miss Taylor cannot be persuaded to move, for she is convinced that in this retreat she will be able to do more and better work than if she were living in a neighborhood socially "correct."

WOULD BE REASONABLY BUSY

Small Girl About Right, if Bad Man Did His Full Duty Without Fear or Favor.

As Anson Mount, superintendent of the Howe button factory, of Petersburg, was reading his evening paper, his little daughter, Mary, age six, was playing on the floor. Tiring of play, she crawled to her father's knee and asked him:

"Does the bad man get all the people who are bad?"

The father, not looking up from his paper and a little provoked by the interference replied, "I suppose."

The child studied for a minute, and then said:

"Does he burn them all up? Some little boys told me he did."

Again the father replied that he supposed he did.

Again the child, not satisfied, asked the father where they went after he burned them all up.

The father, irritated, replied that he supposed they all went to ashes.

The child studied for a few minutes, and then said: "Gee, he must have an awful job carrying out ashes."
