**BREAK UP MOBS WITH TEARS NOW**

Rough-neck mobs and criminals beware! Clubs and guns may go into the discard, for the police have a new weapon in the form of gas bombs. It resembles very much the small hand-grenade used in the world war, but the gas contained, though not deadly, packs a knock-out for the strongest man. It is tear-producing, choking and nauseating, but does not leave any ill after-effects. In a trial test the other day on five strong policemen—they fled "weeping" from the scene.
