

**CATARRHAL DEAFNESS**

is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions.

**WOMAN AVOIDS AN OPERATION**

**Hope Nearly Gone, but Lydia E. Pinkham's Vegetable Compound Saved Her**

Star, N. C.—"My monthly spells gave me so much trouble, sometimes they would last two weeks. I was treated by two doctors without relief and they both said I would have to have an operation. I had my trouble four years and was unfit to do anything, and had given up all hope of ever getting any better. I read about your medicine in the 'Primitive Baptist' paper and decided to try it. I have used Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Liver Pills for about seven months and now I am able to do my work. I shall never forget your medicine and you may publish this if you want to as it is true."—Mrs. J. F. HURSEY, Star, N. C.

Here is another woman who adds her testimony to the many whose letters we have already published, proving that Lydia E. Pinkham's Vegetable Compound often restores health to suffering women even after they have gone so far that an operation is deemed advisable. Therefore it will surely pay any woman who suffers from ailments peculiar to her sex to give this good old fashioned remedy a fair trial.

**GERMANY SIGNS PEACE TREATY**

**America Is To Retain All The Rights Stipulated In The Versailles Pact**

**FOLLOWS KNOX PEACE PLAN**

The Text of the Treaty Has Been Made Public—To Re-establish Diplomatic Relations Broken Off in 1917.

Washington, D. C.—The treaty with Germany, which was signed in Berlin, has been made public by the state department. It puts into force the economic, reparations, military and various other provisions of the unratified treaty of Versailles, but provides specifically that the United States shall not be bound by the covenant of the league of nations or by other enumerated parts of the Versailles settlement.

The declarations of the peace resolution are reaffirmed in the treaty, and it contains, in addition, a blanket provision that any benefit which might accrue to this country under the Versailles pact is to be regarded as of full force. German's renunciation of her overseas possessions jointly to the big five powers is reaffirmed, as are the military clauses of the Versailles treaty, the sections relating to prisoners, reparations, finance, economic settlements, commerce and abrogation of all other existing treaties between the two countries.

In disassociating the United States from the league of nations, the document will not be bound by the covenant, but that no action of the league shall be considered as placing an obligation upon America. The United States also stipulates that it will not be bound by the sections of the Versailles treaty relating to the boundaries of Germany, to political readjustments in Europe, to the settlements affecting China, Siam, Liberia, Morocco, Egypt, Turkey, Bulgaria, or Shantung, or to the establishment of an international labor organization.

**Roads Opposed to Reduction.**

Washington, D. C.—Reductions in freight rates on grain and hay asked by the western states, would result in an annual loss to the western roads of \$33,700,000 and would reduce their return on capital invested to 1.67 per cent. L. E. Wetling, manager of the bureau of statistics for western carriers, testified before the Interstate Commerce commission.

**Street Cars During Fair.**

Des Moines, Ia.—Judge Martin J. Wade signed an order for resumption of street car service in Des Moines for the period of the state fair, which is now going on. National Commander Emery was one of the speakers at the laying of the cornerstone.

**Russia's "Wild East"**

A Citizen of Siberia.

(Prepared by the National Geographic Society, Washington, D. C.)  
A sled drawn over the deep snow by terrified horses, a driver wildly beating them, and a pack of ferocious wolves breaking in pursuit from a dark pine forest—this is a picture that has given many a person a faulty idea of the Siberia of today.

An American woman who had laughed at an Englishman when he complained that during his ten days in New York city he had not seen a single Indian asked upon her arrival in Vladivostok if there was any danger from wolves in the city. As a matter of fact, one may spend a considerable time in Siberia and cover large areas without seeing a wolf, or a pine tree, and what little snow he will see will probably not be more than a few inches deep, though there are sections where it is quite deep. And one may meet thousands of people without seeing either exile or criminal.

One is not likely to be disillusioned about the climate. The American soldier said, "Siberia has two seasons—July and winter." This is nearly true, for there is practically no spring; the foliage does not appear until June, July is as warm as the winter is cold. The brief fall is beautiful indeed, and there is something very thrilling about the intense cold of the winter, when the temperature goes to 60 and 70 degrees below zero in some sections.

Everybody dresses and prepares for the cold, and on the whole it is possible to be more comfortable in the steady winter of Siberia than in the changeable American winter.

**Beautiful Wild Flowers.**

Siberia's wild flowers—a feature which does not fit into the picture of a frozen waste—are worthy a volume in themselves. There is a wild rose that blooms hugely on big, sturdy bushes. Then there is the mauve and gold of the "Mary and John," that is loved most by the Siberians. This lovely flower is named after the Virgin Mary and the loved disciple.

Siberia is, above all, an oriental country. Out there the traveler sees every phantasmagoria associated with the East. Oriental sunsets, equal to any and inferior to none, thrill the senses with splendors of color ranging from volcanoes of rubies to the myriad mysteries of the kaleidoscope. Then one sees all the peoples of the Orient—Chinese, Japanese, Tartars, Manchus, Koreans—men and women of every color and condition.

For the most part the Russians have Russianized the country. Even so, one could easily believe the Tower of Babel incident to have occurred in Siberia, for one hears so many languages and sees so many different national customs. Chinese "sampan" and Japanese "dambies" ride the roadstead of Vladivostok along with Russian craft and American motorboats, and on the highways and caravan routes camels and oxen are passed by modern automobiles, mostly of American make.

**Native Life Fascinating.**

One gets wonderfully attached to Siberian life. There is something charming and fascinating about it. The natives, in spite of the scourges of typhus and cholera, in spite of the hunger and cold which they have experienced so frequently during the last six years, are devoted to their homeland; yet apparently they are indifferent to the rich opportunities of their country.

Siberia is a land of rich agricultural potentialities, in spite of the shortness of the summer season, and even American tables have been served with Siberian cheese and butter. But the most alluring opportunities of the country are presented in its mineral

**Thousands Have Kidney Trouble and Never Suspect It**  
Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

Dr. Kilmer's Swamp Root is on sale at all drug stores in bottles of two sizes, medium and large. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper. Advertisement.
