## EVERY RAT IS AN ENEMY TO EVERY LINCOLN COUNTY RESIDENT

Department of Agriculture officials are making war on the rats over the whole country. Lincoln County residents are asked to assist. Rats eat and destroy enough food annually to maintain a million people in comfort. They cause disastrous fires, spread infantile paralysis and other deadly diseases which kill more people than are killed by the bullets. One author says: "Waste fire, disease, plague, famine, death, mark the trail of the loathsome rat. When building, use concrete foundations, floors, walls as no rat can gnaw through concrete. We are advised to let not one escape, trap, poison, kill. Write to the Department of Agriculture, Washington, D. C. for Farmers' Bulletin No. 369 'How to Destroy Rats.' It's free."

Robert Day of Oshkosh was a city visitor Wednesday.  
 Mrs. Amy Anderson of Tryon was among the out of town visitors Wednesday.  
 Mrs. Ralph Smith and son went to Kearney Wednesday to spend a few days visiting.  
 Mrs. Mayne McGee returned to her home in Brady Wednesday after shopping in the city.  
 W. J. Roberts returned to Seward Wednesday after transacting business in the city for a week.  
 To whom are you going to sell your Hay and Grain? The Harrington Mercantile Co. will offer the highest prices.  
 Mrs. R. W. Miner returned to Denver Wednesday after visiting her niece Miss Harriet Murrin.  
 The total number of automobile licenses issued by County Treasurer Souder up to October first was 3,977.

## IS YOUR MONEY SAFELY INVESTED?

First mortgage loans for years past have proved to be about the safest investment one could possess, and during the present financial conditions this fact is again evident. The reason for this is due to the fact that loan companies making and disposing of first mortgages, loan a very small per cent of the value of the property, usually one-fourth to one-half of a conservative value, and there must be an extremely large shrinkage in the value of the property before the mortgage is affected.

Many stocks in good companies and various securities are selling today at a greatly reduced price, while a good first mortgage secured by real estate has not depreciated. We can offer such securities for money invested with us to realize you 6 to 7 per cent interest.

Mortgages can be purchased on small payments and your money is earning a good rate of interest as soon as left with us.

Call and let us explain.

## RED CROSS WORKING FOR HEALTHIER U. S.

Thousands Aided by Instruction in Care of the Sick, Food Selection and First Aid.

How the American Red Cross guides thousands of persons to health is shown in a summary of the society's activities in the health field based upon the annual report for the last fiscal year. Through its Nursing Service, its Home Hygiene and Care of the Sick courses, nutrition classes, First Aid classes, Life-Saving classes and Health Centers and in numerous other ways designed to acquaint masses of citizens with proper methods of living, the Red Cross carried its message of health into all parts of the country. The work of the Red Cross during the war in its traditional field of nursing, furnishing the military and naval establishments of the nation with 19,877 nurses, is well known. And there are today 37,757 nurses registered with the American Red Cross and subject to call in emergency. During the fiscal year, 1,551 Red Cross nurses were accepted for assignment to Government service, 388 by the Army and Navy and 1,163 by the United States Public Health Service.

In addition to the nurses enrolled by the Red Cross for Government service, the Red Cross itself employed a total of 1,348 public health nurses in the United States and Europe. By far the greatest number was employed in the United States, 1,257, while 81 were in foreign service. Home Hygiene and Care of the Sick classes, giving thorough instruction in the proper care of the sick in instances where the illness is not so serious as to require professional nursing care, during the fiscal year numbered 5,179. A statistical picture of the Red Cross operations in this field follows:  
 New classes formed during year ..... 5,179  
 Classes completed during year. 6,299  
 New students enrolled ..... 101,068  
 Students completing course.... 73,452  
 What the Red Cross accomplished in giving proper instruction through its Nutrition Service is indicated by the following table:  
 New classes formed during year ..... 142  
 Classes completed during year... 186  
 New students enrolled ..... 2,341  
 Students completing course.... 2,013  
 In addition to the above, a total of 22,008 children were given instruction in the proper selection and preparation of foods.

Through its 260 Health Centers, the Red Cross reached 90,252 persons. In these Health Centers, 4,015 health lectures were given and 780 health exhibits held. In the United States last year, 75,432 persons were killed and 3,500,000 injured in industrial accidents. To prevent this enormous waste the Red Cross held 5,100 first aid classes with a total of 104,000 students enrolled.

**Jones Calls No. 648 Instead of His Home**  
 Bill Jones is a traveling man.  
 In making long distance calls to his home he says to the long distance operator: "I want to talk to Telephone No. 648 at Brownsville." By doing this he takes advantage of what is known as "Station-to-Station" service and thus obtains a lower rate.  
 If he had asked for Mrs. Jones or any other designated person, he would have used what is called "Person-to-Person" service, for which the rate is higher.  
 "Station-to-Station" service is provided at a considerably lower rate than "Person-to-Person" service because we do not have to locate a certain person in order to complete the call.
