ECONOMY FOLKS

M. E. Martin and Lloyd R. Wilson of North Platte, have leased the Pizer building and expect to open up a grocery store. They will also serve short orders, soft drinks, etc. They expect to open for business Friday. They formerly conducted the Economy Grocery Store at North Platte.—Hershey Times.

YEOMEN

Next Tuesday evening, October 18, the Yeomen will install officers. All Archers are requested to be present and are privileged to invite friends as guests. District Manager Tiley and State Manager Merrill will be present. A light lunch will be served after installation and those who wish may dance or play games.—Sutherland Courier.

TICKLISH

Parties are out with a petition for signers asking a permit from the county board to operate a pool hall in Arthur. We understand a remonstrance is out against the proposition. This will be one of the ticklish propositions to come before the commissioners at their next regular meeting.—Arthur Enterprise.

NO LICENSES

Constable Elliott reports arresting five men the past week for driving their cars without a license. Four drew fines of five dollars and costs and one ten dollars and costs. Justice of the Peace T. T. Marcott assessed the fines. All plead guilty and paid their fines.—Brady Vindicator.

MORE BONDS

Nearly all the land owners under the North River Ditch were present at a meeting held here last week to discuss ways and means to complete the big canal. Reports show that the ditch was nearly complete but that more money was needed to finish the job. The board of Directors were instructed to get water in the ditch at the earliest possible moment and to issue warrants for its completion, said warrants to be taken up later by another bond issue.—Garden County News.

OH YOU CENTRAL

The fire which started Monday morning 15 minutes till three in Harry Kindie's carpenter shop didn't do as very much damage on account of the good central service. Night man at the depot gave in the alarm, didn't ring 10 minutes before central was on the job. Then central rang the Fire Department but couldn't raise them then rang several different parties to tell them of the fire but there was several he could not raise. The jangling telephone wire didn't keep central from getting a few parties. Oh You Central Service.—Paxton Times.

CAPTAIN BAKER

Captain B. F. Baker, one of the few remaining civil war veterans, and well known to everyone in the community, met with a serious accident on Friday of last week. As Mr. Baker was leaving the house, by a misstep he fell, fracturing his hip. He had planned to go to Kearney on that day to visit his new great grandson, Dr. Kennon was summoned and in his charge Mr. Baker was taken to the General Hospital at North Platte. He is reported to be getting along as nicely as could be expected. The community is in sympathy with Mr. Baker in his misfortune and hopeful of a rapid recovery.—Maxwell Telegraph.

THANKFUL

One of our readers stopped in the office the other day and related an incident of his doing a small favor for a strange automobile driver and was highly rewarded. He was at the Platte river bridge on Sunday afternoon fishing and a stranger who was crossing the bridge run out of gasoline near there and asked him for some. So he crawled under his old Ford to the sandbars and tediously drew some gas in a small can and had to make two trips. When the task was finished the stranger asked what he wanted for the trouble. He replied that whatever it was worth to him would be satisfactory. The stranger said you are getting your gas in town for 21 cents per gallon, aren't you? and was answered in the affirmative. He handed him a dime and a cigar with the wrapper torn off and thanked him.—Overton Herald.

HAD FRIENDS

On Saturday night Sheriff Heiser discovered that three boarders of the county were attempting to break jail, and their plans were near completion when discovered. Joe Ryson and Robt. Atkinson who are being held for stealing tires, tubes, batteries, etc., from the Roscoe garage and Ralph Kepler were the three who had been given two wrenches and a pair of pliers by a friend on the outside. They had succeeded in unjointing one of the corners of the cage which would have enabled them to make their getaway. The penalty for attempted jail breaking is one to ten years in the penitentiary and this fact may be considered by the judge who is expected to sentence them for original crimes within a few days.—Keith County News.

STILL IN USE

A twenty year old Model horseless carriage was one of the wonders of strangest looking automobile, or benzine buggy that ever whizzed up and down the streets of Gothenburg two days. It is a Sears, made by Sears, Roback and Co. of Chicago, twenty years ago. It is being driven across country by Fred Keep, the owner and he is accompanied by Jack Wil-

Ham on the trip to the Pacific coast, where the wonder may be commercialized in the moving picture business. It still runs on its own power and whenever it stops it is sure to draw a crowd. The boys have a sign, "Los Angeles or Bust," and they say they think it will bust. It makes from eight to eighteen miles a hour, and they will not likely be pinched for speeding. All who saw the horseless carriage say that it is still a rattling good rig. It makes about ten miles to the gallon of gas, and is claimed to be the oldest automobile in the United States which is still in service and it may be the oldest thing of its kind in the entire world. The two young men are jolly good fellows and made many friends in the city during their two days stay.—Gothenburg Independent.

SCOUTS ORGANIZE

Wallace has the Boy Scout fever. The results are that a troop is being organized and that already a large number of the young lads of the community have enrolled. The ball was started by G. V. Frey who after finding that there was some sentiment on the part of the boys for such an organization secured the desired literature and information concerning the work by getting in touch with headquarters. Two meetings of the boys, and attended by a number of the business men were held this week. At the one held Wednesday evening when the nucleus of the work was started, Loren Spencer, D. Newman and G. V. Frey were selected as a committee to sponsor the organization, and the boys "signed up." At another meeting a Scout Master will be selected.—Wallace Winner.

How You Should Figure Your Oil Costs

Automotive engineers and garage men agree that improper lubrication causes 90% of all engine troubles. So when you figure oil costs, add practically all repair and overhauling costs to what you pay for oil.

Plenty of oil is important. So is replacing old oil with fresh oil. But no matter how much oil you use or how often you renew it, you can't prevent engine wear and tear unless the oil maintains correct body.

Polarine provides a cushioning film that protects against wear and keeps down friction-load. In the cylinders Polarine forms a gas-tight and fuel-tight seal that insures full compression and maximum power.

Polarine is made in four grades—light, medium heavy, heavy and extra heavy—but only one quality. Get the proper grade for your car next time by referring to Polarine chart at our Service Stations or dealers—and you will start cutting down motoring costs.
