**IS YOUR MONEY SAFELY INVESTED?**  
First mortgage loans for years past have proved to be about the safest investment one could possess, and during the present financial conditions this fact is again evident. The reason for this is due to the fact that loan companies making and disposing of first mortgages, loan a very small per cent of the value of the property, usually one-fourth to one-half of a conservative value, and there must be an extremely large shrinkage in the value of the property before the mortgage is affected.  
Many stocks in good companies and various securities are selling today at a greatly reduced price, while a good first mortgage secured by real estate has not depreciated. We can offer such securities for money invested with us to realize you 6 to 7 per cent interest.  
Mortgages can be purchased on small payments and your money is earning a good rate of interest as soon as left with us.  
Call and let us explain.

## Farm Bureau Exchange List.

All paid-up Farm Bureau Members are entitled to a maximum of one column inch of free advertising for seed, feed, livestock and 2nd hand farm machinery. These ads to run for two consecutive issues of the North Platte Semi-Weekly Tribune and discontinued unless notice to continue is received after the second issue. This service is paid for by Farm Bureau Membership money and for that reason is not available for those who are not paid-up members. Send your lists to the County Agent's Office at North Platte, Box 253, where the County list will be compiled for the paper. The greater the number the greater the service to the County.

**Getting Eyesight Back After Measles**

The nature of Measles is such that during and for a short time after the attack, the eyes are extremely sensitive to light. In most cases with a little care, the patient recovers from an attack without any apparent impairment of eyesight. But if the eyes are weak, then the disease may leave serious after effects.

Aside from the spinal nerves that by connective lines, keep the eye organs in healthful condition, the eyes also are sensitive to defective kidney action. Chiropractic spinal adjustments then, which will free the spinal nerves affecting the eyes, and the kidney nerves, will have good effect in restoring normal eyesight.

WHEN HEALTH BEGINS depends on when you telephone No. 70 for an appointment. Consultation is without charge.

# No Other Phonograph Can Do It

No difference!

No other phonograph even dares the test which the New Edison underwent Monday, Oct. 10th, before a large audience at the Lutheran Church. That fact is something for you to think about.

The test of comparison with living artists is the only phonograph test which means anything. It is the only way in which a phonograph can irrefutably prove its realism. It is the most drastic of all phonograph tests. To sustain it, requires absolutely perfect realism,—nothing less.

The New Edison stood by Harvey Hindermeyer's side in the Church. If you were there, you heard the living voice and the RE-CREATED voice brought into direct comparison. You know that there was no difference between the two voices.

A similar test was made by the Dann instrumental trio with the same successful results.

By this wonderful performance, the New Edison has placed itself apart from all other phonographs and talking machines. It alone has sustained this drastic test. It alone has proved concretely and conclusively, that it gives you the living performances of great artists.

further tests of realism. Learn that you can have an Official Laboratory Model of your own, on a very small cash outlay. We will make a gentleman's agreement with any music lover.

**The NEW EDISON**  
"THE PHONOGRAPH WITH A SOUL"

Any Official Laboratory Model you buy in our store will positively sustain the test made at the Lutheran Church. We will give you our guarantee to that effect.
