

Vaudeville at the Keith Friday

Mad Miller as the crazy man is coming to the Keith Theatre on Friday and is known to the world as the most wonderful escape artist and dare devil exponent of the sensational outdoor exhibitions, presents a most unique novelty that can be said to eclipse all other offerings of its kind.

Edward W. Ames, the man who talks faster than a women, with a good supply of comedy talk and songs.

Burdell & Burdell, that comedy pair in mixology will furnish many laughs and funny situations. They are said to be chic and talented.

Browning and More, this is a singing and dancing act of rare quality. Miss Moore's gowns are all from the shop of Lucello and are creations. Her voice is a rich and clear soprano and she has personality and pep. Mr. Browning is a good looking chap with a fine voice, full of pep and personality and his acrobatic dancing is a real treat. The show in general should be appreciated.

Also a Feature Picture, a Comedy and News Reel.

FRIDAY, DECEMBER 2, 1921.

EDITORIAL

Weatherman Shilling has given us a fine brand of weather during the past few weeks and we hereby take back anything we have ever said about him, either to his face or behind his back. In return for this we expect him to continue to use his best efforts to give this community the kind of weather it wants.

One of the most appropriate things we have seen lately was the conferring of associate membership in the North Platte Rotary club on Rev. Alfred Gilman the night before he left for the east. He was invited to the regular dinner and following the repast he was taken into the club and presented with the button. He was asked to keep the button as a slight mark of appreciation of his life work by the Rotarians of his home town. Rev. Gilman exemplifies in the highest degree the Rotary motto "Service before self."

A farmer over in Weld county Colorado told here this week that he paid \$17,778 irrigation taxes on 636 acres of land there last year. Those who heard his statement were almost

overcome until he relieved them by saying that his land was all under irrigation. He cut an average of 20 tons of alfalfa per acre which brought him 12,720 tons of hay. This he sold for \$7 a ton which brought him \$89,040. From this he deducted the tax and had \$71,262 while without irrigation he would not have raised anything because of the dry season. Pretty good argument in favor of irrigation.

There are a number of people in Lincoln county who do not know that a license is required if a person would trap for any kind of fur bearing animals. This law is effective now and game wardens are securing convictions for its violation. A license can be secured from the county clerk for \$2 and anyone wishing to do a little trapping should attend to this part of it before starting. Those who wish to evade this law may succeed in getting by during the season but it may not be so easy to dispose of the furs as we understand all the dealers are licensed too. The Tribune has no interest in the matter other than letting its readers know about it.

Superintendent Littell has had some very complimentary letters from Lincoln city school officials about the Thanksgiving foot ball game. Supt. H. P. Shepherd writes: "I wish to congratulate you on having the champion foot ball team of the state. Our team and coach came home elated over the splendid treatment accorded them while in your city. The courtesies shown by the Kiwanis club, the Rotary club and the Commercial club were quite unusual and it made the boys feel that if they had to be defeated, they could take defeat from North Platte with a great deal of grace." The Tribune feels that North Platte has a right to congratulate herself on such expressions of approval and we feel that it sets a standard for the future which is bound to bring about a better condition in every way. Courtesies to the visitors are due them and when given bountifully are appreciated.

The Tribune is proud to be the home-town paper to a lot of folks. Some live here and some live away. Those who live here can get around once in a while and tell us what they think of us, what they are doing and what we should do but those who live away do not have this advantage. We would be glad to hear from any of our out of town subscribers at any time. Write a letter to the people here telling them of some good thing which you have found elsewhere and which North Platte should know about. Sometimes a former North Platte resident makes good in another place. Why not let us tell your old friends about it. They will be delighted. Also they will sympathize with you in your sorrows if they know of it. We will be glad to hear from you, old friend.

There is room in our office for a boy who would like to learn the printing business. A printer draws as good wages as the men in the other trades and chance to become a publisher is always before him. The business can only be learned by going into a shop and getting the idea from the other workmen. The beginner must use the tools, material and time of the shop. He will destroy more or less of these and that is a loss to the owner. The beginner does more harm than good so he is not entitled to much pay. Should there be a father or mother in North Platte who has a son who would like to learn the printing business, we would be glad to talk it over with them. We do not have a job open for a boy who needs money but we could probably offer a parent an opportunity for his boy to learn the business and pay him what he is worth to us.

Superintendent Littell and Coach

Neville are right in declaring against a post-season foot ball game to satisfy some championship honor. North Platte has been approached each time it has had a successful season in foot ball, by some other town which wanted to play a post season game. We do not remember that it has ever been done. The climax of the season is the Thanksgiving game. The boys have been in training a long time and they are often weary of the hard work. Often they have work that must be done and they cannot put it off any longer. The school has supported the team to the end of the season and should not be asked to continue it longer. The weather is more uncertain and usually gets worse. Sometimes the gamblers howl for more and the foot ball fans like all they can get but for the good of foot ball and the school it is best to close the season with the regular schedule and settle championships in some other way or leave them undecided.

The Progressive-Independents have called a county convention for Saturday afternoon, here at North Platte. Considerable speculation has been aroused over the call and people are wondering who is expected to attend. As we understand it, everyone is invited to come. The new party is to be composed of those who are dissatisfied with the two major parties and who do not see any hope from the several minor organizations now in the field. The new party is favored by Judge Wray of York who is one of the cleanest and most fearless political leaders in the field today. He is an independent and has been one all of the time since the Roosevelt progressive party disbanded. A year ago his party and platform was endorsed by several labor organizations, some former groups including the Non-partisan league and a large number of independent voters. A number of other men of the same type are behind the new party as are also some of the crooks who have been driven out of the old parties and some professional politicians. We shall see.

Give thought to Christmas, Dixon, the Jeweler.
