Iva M. Seaburg died yesterday morning at 11 o'clock. The funerals will be held from the home on West Tenth street at 3 o'clock this afternoon. Rev. Stevens officiating. The remains will be taken to Chilatochoe, Iowa, and interment will be made there.

The Methodist men met at 6:30 last evening in the banquet room of the church and enjoyed a dinner prepared and served by the Methodist Ladies Aid. Following the banquet and some songs with orchestra accompaniment a number of short talks were given and an election of officers resulted as follows: H. A. Brooks, president; E. A. Gamble, vice president; A. H. Ellett, secretary; Charles McNamara, treasurer. John B. Edwards was toastmaster and carried out the plan of the evening in such a manner that everyone was delighted with the entertainment. Regular meetings of the Methodist men will be held on the second Monday of each month. About seventy men attended.

**INCREASED INTEREST IN POTATO MEETING—THURSDAY**

The number of calls for information about the potato growers' meeting to be held here next Thursday indicates a wide spread interest in the proposition. County Agent Kellogg's office reports more interest in this meeting than in most of the meetings which have been called and if Weatherman Shilling does his best the attendance is expected to tax the seating capacity of the hall. H. O. Werner is the principal speaker and he will conduct a round table on potato growing which will be of interest to everyone who attends. The meeting is to be held in the court house on Thursday afternoon.

Dr. J. Ames returned to his home at Potter Monday after spending several days in the city.

Attorneys Halligan, Carr, Beatty, Gibbs and Crosby went to Grant yesterday to attend court.

Agnes Hoagland returned to her home at Hershey Saturday. Miss Hoagland recently underwent an operation at the General hospital.

That testing cattle for tuberculosis and the cleaning up of infected herds are having a permanent effect in reducing the extent of the disease is shown conclusively by figures recently collected by the United States Department of Agriculture from inspectors in charge of the eradication work in various parts of the country. The inspectors were asked to supply figures of badly diseased herds, those that had not more than 10 per cent of reactors on the first test. The first test on more than 58,000 cattle in these bad herds showed that 25 per cent had tuberculosis. Another test six months later on the same herds, from which the reactors had been removed, showed only 6.9 per cent of the disease. By another six months the percentage had gone down to 3.8. A fourth test on more than 25,000 of these cattle showed only 1.8 per cent of tuberculosis.

The reports from which their figures were taken show that under normal conditions herds very badly diseased may be established as relatively free in a short time. They also show that eradication work can be carried on without destroying the cattle industry as is sometimes thought. Erratic results were obtained on a very few of the 1832 herds tested, the list of this class containing less than 100. Out of the 126,648 herds under observation December 1, 1921, there were only a very few that had not shown satisfactory improvement as a result of testing.

Everet Adams who attends Midland College at Fremont arrived yesterday to spend a few days with his parents.

Benjamin Young came from Madrid Monday to attend the funeral of his mother, Mrs. Elizabeth Young.

**CHARLES W. MORTON**

Charles William Morton was born in Wisconsin, May 9, 1859 and passed away at his home in North Platte, February 3, 1922, at the age of 62 years, 8 months, and 27 days.

His early childhood was spent in Minnesota where his aged mother now resides. When a young man he went to Tennessee where later he was united in marriage with Carrie Whitman, who died December 31, 1900. There were two children born to this union, a daughter, Mrs. Alta Johnson of this city, and a son, Almon, who passed away November 2, 1916. Fifteen years ago Mr. Morton came to North Platte where he has since resided. He was married August 16, 1909 to Mrs. Addie Coates, who survives him. Mr. Morton was a carpenter by trade and belonged to the local Union No. 1200 of U. B. of C. and J. of A.

As a workman he proved himself to be honest, painstaking and dependable. His sympathetic nature was shown in his devotion to and loving care of his wife during her many months of suffering and illness.

**BRED SOW SALE**

Duroc Jersey.

The University of Nebraska Experimental Substation will hold its annual bred sow sale at the Experimental Substation farm, three miles south of North Platte at 1:30 p. m. (central time) Tuesday, February 21, 1922. The offering will consist of about 35 pure bred gilts and tried sows, and also a few very choice 1921 fall boars by a son of Great Orion Sensation. The gilts carry a large amount of Great Orion Sensation blood. They are well grown but not fat. Some are bred to a son of Royal Pathfinder, the others to a son of Colonel Sensation. We believe you will like these hogs and we are certain they have the breeding, type and care that should give satisfactory results.

W. P. SNYDER, Supt.

## Without a Telephone!

Can you picture all the trouble, inconvenience, danger and loss of time that would result if all the telephone lines were silent for a single day?

The telephone is so reliable that we fume and fret if it falters or is silent for even a few hours.

Of all inventions, there is none that gives a person as much pleasure, profit and protection for the money he spends, as the telephone.
