Youngstown, Ohio.—"Last fall I began to feel mean and my back hurt me and I could hardly do my little bit of housework. I was played out when I would just sweep one room and would have to rest. I would have to put a cushion behind me when I would sit down and at night I could not sleep unless I had something under my back. I had awful cramps every month and was just nearly all in. Finally my husband said to me one day, 'Why don't you try Lydia E. Pinkham's medicine?' and I said, 'I am willing to take anything if I could get well again.' So I took one bottle and a second one and felt better and the neighbors asked me what I was doing and said, 'Surely it must be doing you good all right.' I have just finished my eighth bottle and I cannot express to you how I feel, the way I would like to. If you can use this letter you are welcome to it and if any woman does not believe what I have written to be true, she can write to me and I will describe my condition to her as I have to you."—Mrs. ELMER HEASLEY, 141 S. Jackson St., Youngstown, Ohio.

I have improved ever since taking the third bottle and find it is the best medicine I have ever taken."

Pinkham's Vegetable Compound in our paper 'The Indiana Daily Times,' and learned all about it. I received results from the very first bottle and now I am doing all my own work, even washing and ironing, and I never felt better in my life. I tell all my friends it is due to you."—Mrs. ELIZABETH REINHOLD, 403 N. Pine St., Indianapolis, Indiana.  
You should pay heed to the experiences of these women. They know how they felt before taking the Vegetable Compound, and afterwards, too. Their words are true.

Lack of appetite, or distress from indulging the appetite, are both due to the same cause—failure of the digestive system to properly do its important work. The undigested food remaining in the alimentary canal may merely cause a distaste for more food when it cannot take care of what it has, or it may undergo chemical and purification changes that cause acute disease.

Besides, these chemical changes produce poisonous substances that are carried to every cell and organ of the body and that cause all sorts of distressing symptoms.

Tanlac, the famous digestive tonic and body builder, has achieved its wide success because it is able to invigorate the entire digestive tract.

It acts to cause vigorous stomach preparation of the food, both through the muscular churning action of that

in your condition as it has in so many thousands of other cases. If you are despondent, gloomy, with little taste for and enjoyment of life, try Tanlac and no doubt you will see the clouds of gloom roll away under the sunshine of health. You are entitled to be healthy, vigorous, efficient and happy. Give yourself the chance to become so as thousands of others have, by taking Tanlac. Get Tanlac from your druggist this very day.
