

EASTER

The Sabbath night had passed, and in the east
The first pale streaks of rose fore-
told the day,
When from the city, Mary Magdalene
And others, bearing spices, came to lay
Them in the Master's tomb.
They marvel'd that the stone which
had been sealed
Was rolled away, and stooping down
they saw
Inside the tomb two angels robed in
white,
Whose radiance made them bow
their heads in awe—
"He is not here," they heard.
"Did He not say that He would rise
again?
Seek ye the living, then, among the
dead?"
And, trembling, Mary and the others
went
To His disciples, telling what was
said.
Yet one would not believe.
For Thomas told his brethren, "Till
I've thrust
My hand into the Master's wounded
side,
And felt the prints of nails inside His
hands,
I'll not believe He lives again who
died."
And later Christ appeared.

He bade the doubting Thomas make
his tests,
Who did and said, "My Lord," and
Christ replied,
"Because you have beheld me, you
believe,
But those who have not seen my
hands and side
And yet believe, are blessed."

GROWING LILIES FROM SEEDS

Federal Department of Agriculture
Tells of Results of Experiments
It Has Been Making.

In growing Easter lilies from seeds the time of planting depends upon how the florist intends to handle his stocks and possibly upon which his seed becomes available, says the Bureau of Plant Industry, United States Department of Agriculture, in discussing the results of experiments with growing the flowers from seed instead of from bulbs. Sowing they say, can be done

Type of Perfect Lily.

at any season if suitable moisture conditions for germination are maintained. In northern climates, if seed is planted out of doors, it should be sown in the autumn for spring germination. Until the trade produces seed of the lily and offers it for sale, it is pointed out, it will be necessary for the grower to raise his own seed. The best way to do this now is to procure imported bulbs either in the early winter, when they are generally offered for sale, or at Easter time, when most of the plants are in blossom, and grow seed for planting the following January.

EASTER MORNING

Just an early investigation. Evidently the Easter rabbit had been "on the job" early, greatly to the satisfaction of this small boy.

Mexico's Holy Week.

Mexico has her holy week, celebrated with pomp and splendor, sad devotions and odd customs that still linger in the land of Montezuma. The people go from all points of the compass far and near, on their annual pilgrimage to Guadalupe, the holiest shrine of all Mexico, where they congregate in immense crowds. There the descendants of a nation sunk in paganism for centuries after the Crucifixion meet to celebrate the divine tragedy that was enacted in Syria 1900 years ago.

The most solemn week of all the weeks of the year is Passion week in Mexico City. Images, icons and crucifixes are to be found everywhere. The most remarkable of the ceremonies is the blowing up of Judas. The betrayer is represented as a misshapen monster. Hundreds of his images are sold on Good Friday. They are filled with explosives which blow the doomed figures to atoms when let off on Saturday morning.

Spiritual Influences of Calvary.
Let the world on this Easter, with all its materialism and all its bloodstains, be compared with the world of the first Easter, and it must be recognized that from Calvary radiated spiritual influences whose very incomplete results so far encourage the most splendid visions of what humanity will become.

"Radio service," said Mr. Davis, manager of the local Exide Service Station, "requires a battery with a dependable voltage; that is, a battery whose voltage, after a few minutes use, will not drop to a point where it becomes necessary to make frequent adjustments of the apparatus.

"There is only one way to be assured of this, and that is, to buy only new batteries and only those made by a firm with a reputation for making dependable batteries.

"Also, it is very desirable and really important to buy a battery that has behind it a service organization which will help the radio fan prolong the life of his battery.

"Much depends on the proper care of a storage battery, as many motorists who use them in their cars will testify. This doesn't mean that storage batteries are hard to care for, but on the contrary, the rules are so few and simple, that many people fail to be impressed by the importance of rigidly following them. In this, the proper service organization can help by teaching the radio fan how to take care of his battery.

"Then a lot of radio fans don't know what kind of a battery to buy, as such terms as 'voltage' and 'ampere hours' are bewildering. We are answering questions every day at our service station and we are glad to tell any radio enthusiast or prospective owner of a set, all we know about batteries and we issue a broad invitation to the good folks of North Platte, to use this service to the limit."
