

HOME SWEET HOME
GRANDPA ARRIVES FOR A VISIT
BY TOMMY SMITH
ILLUSTRATED BY ALPHEUS

POLITICAL ANNOUNCEMENTS

SHERIFF
I hereby announce myself a candidate for the Republican nomination for Sheriff of Lincoln county, subject to the decision of the voters at the primaries on July 18.
GEORGE W. RHUDUS.

LINCOLN COUNTY NOTES AND PERSONAL MENTION
(Condensed from County Exchanges)

Lot owners of Maxwell and Cottonwood cemetery will meet May 18 for the annual clean up of the premises.

F. F. Dolan has accepted the position of editor of the Maxwell Telegraph and takes up the work with enthusiasm.

Plans are being made to observe Memorial Day at Hershey. The American Legion, Civic Societies and Band will participate.

Work was started last week on the new Swedish Lutheran church at Hershey. The building will be 36x60 with a 75 foot spire.

About fifty Mexicans, housed in bunk cars, are located at Maxwell in placing new ties on the Union Pacific west of that village.

The main streets of Brady which were very sandy have been improved by depositing thereon cinders from an

abandoned switch track.

The auto in which Leslie Coker and R. A. Baright were riding turned turtle Wednesday, both landing uninjured in a muddy ditch.

Poultry specialist Olds will give a demonstration and deliver an address at the Fred Peckham farm south of Brady at 2 o'clock p. m., June 27.

Miss Bess Miller of Sutherland is now a graduate nurse having passed the final examinations at the General Hospital in Grand Island last week.

Lars Hansen of Maxwell purchased a carload of hogs from the Pawnee Springs ranch last week and later sold them to Ed Todenhoff of North Platte.

Word has been received in Sutherland that the Boy Scouts of Liberal, Kan., sixty strong, will camp in that village July 27th while enroute west on an extended tour.

The farm residence of George Shank in the valley northwest of Sutherland was burned to the ground Sunday morning of last week. Part of the household goods were saved.

Rev. E. Knight delivered the baccalaureate sermon Sunday evening to the graduating class of the Hershey high school. A combined choir from the two churches furnished the music.

The Junior-Senior class play of the Hershey schools was presented to an audience that packed the Hershey Opera House. The play was entitled "Saftey First" with ten young men and ladies in the cast.

J. R. White and son Jim purchased two Short Horn heifers at the Farnum sale, both of which brought top prices. This makes a herd of partly registered short horns on the splendid White farm at O'Fallons.

The band at Sutherland has grown to such a size that a single street lamp does not furnish sufficient light and the Courier with its accustomed

enterprise, suggests the erection of a real band stand where weekly concerts can be given.

The Fairview schools, south of Sutherland, will hold a picnic next Friday at the last Fairview school house. There will be an excellent entertainment, at ten o'clock and following a basket dinner, races of different kinds will be held.

The village board of Sutherland organized last week by electing J. R. White mayor and C. R. White clerk and treasurer. Hans Jorgenson was appointed street commissioner and Alvin White police judge. The marshal has not yet been appointed.

Commencement week exercises are now in progress at Brady. Friday evening the class flag was given. Rev. Hunter delivered the baccalaureate sermon Sunday, the senior class night program will be given tomorrow evening and Thursday evening the graduation exercises will be held.

The Hershey Community Club held a meeting last week and decided to call off the Fourth of July celebration which had been proposed. This action was due to North Platte providing auto races on July 4th after having previously announced that no program would be given on the nation's day.

Good bargains in lunch cloths, buffet sets and scarfs. Stamped for applique embroidery. V. Warrington Art Store.

NOTICE OF TAKING UP ESTRAY

Taken up by the undersigned on the old Edis place, 2 1/2 miles south of Ntown, County of Lincoln, State of Nebraska; on the 10th day of May, 1922: One black mule, about 3 years old, weighing \$1100 pounds.
Dated this 15th day of May, 1922.
Signed: W. H. Leonard.

THE SURVIVAL OF THE FITTEST!

Present-day business is a battle of brains. The keen mind is the gold winner. Poor vision dulls the mind. Most of us—unknowingly—have poor vision in some degree. Know the condition of your eyes! See an optical specialist. He will know. You ought

Not Only Your Poor Feet

The insidious evil of high heels and narrow pinched toes is greater than most women believe. Ill-balanced shoes do more than discomfort the feet; they cause fallen arches, backaches, nervous strain, displacement of the internal organs, weariness, depression, ill health.

Without sacrifice of good looks, the Cantilever Shoe for women gives perfect comfort and perfect carriage. The last conforms to the mould of the foot, with room for the toes, and with trim fit and support about the instep and heel. The outline of the sole and the set of the heel are designed to preserve the balance and the beauty of a NATURAL walk.

The flexible shank yields with every movement of the muscles. Instead of being bound to a rigid sole which retards the circulation and makes the foot weak, in Cantilevers the foot has liberty to exercise and bend freely and gracefully. This freedom of movement strengthens the muscles and prevents and corrects flat foot. Your health will improve in Cantilever Shoes.

SPECIALLY WRITTEN FOR RURAL READERS

INFORMATION ABOUT AGRICULTURAL SUBJECTS FROM RELIABLE SOURCES

Currants and gooseberries have suffered severely from the depredation of the imported currant worm in the last few years and this year we may look for even greater infestation, says the University of Nebraska Agricultural college. These worms can in a few days strip the bushes of leaves. This naturally reduces the yield of fruit and if repeated for several consecutive years, may kill the bushes. Now is the time to put a stop to the ravages of this insect. The most effective treatment is spraying with lead arsenate at the rate of 2 or 3 tablespoonsful to a gallon of water. Lead arsenate has the desirable quality of adhering to the leaves for a long time and retaining its strength throughout that time. For these reasons it is much preferred to white hellebore, the old fashioned currant worm remedy.

Spraying with Lead Arsenate will control the worms which enter the apple but it will also kill the bees if the trees are sprayed when in full bloom. The University of Nebraska Agricultural college suggests that the proper time to apply the spray for the control of worms is immediately after the petals have fallen. At that time there is no danger of killing the bees as they do not look for nectar in dried

up flowers. On the other hand this is the best time to apply the spray because there are no petals to interfere with the spray material reaching the calyx cups of the flowers. Later on when the worms try to enter the blossom end of the apple, about 85 per cent of the worms enter the apples in this way, a dose of poison is there to prevent it.

From six to ten days after the petals have fallen the calyx lobes close, making it impossible for them on to force spray materials effectively into the calyx cups. It is desirable to apply lime sulphur together with lead arsenate at this time. The lime sulphur greatly reduces the amount of scab which attacks both the apples and the leaves.

Lead arsenate is used at the rate of one one-fourth pounds to fifty gallons of water or three tablespoons to a gallon of water. In this same water lime sulphur is used at the rate of

one and one-half gallons to fifty of water if liquid lime sulphur is used or if the dry form is used 4-5 pounds. Cherries and plums are sprayed with the same materials immediately after the husks have fallen from the young fruits. Extension circular 1221, 'Spraying Apples, Cherries and Plums' may be secured free from county agricultural extension agents or from the college.

We carry in stock in North Platte a full stock of Dodge motor car repairs, for your quick service. There is no other such service available in North Platte. J. V. Romigh, Dealer.

NOTICE
The next Lincoln county teachers' examination will be held in North Platte, only, on Saturday, May 27th.

Polarine MOTOR OILS
STANDARD OIL COMPANY OF NEBRASKA

PIERCE ARROW **CHEVROLET**

How To Be Sure You Are Getting The Best Lubricant

There is one way to make certain that your motor, with its individual lubricating requirements, will get exactly the motor oil it needs. It's simple, too. Glance at the Polarine Chart. Wherever Polarine and Red Crown Gasoline are sold, this useful chart, containing lubrication specifications for all seasons and all makes of motors, is available for your use.

Continued operation with inferior oils, or oil of the wrong body, might shorten the life of your motor by years—or cost a substantial sum in repairs. Why risk it? The Polarine Chart places the services of highly-trained lubrication engineers at your disposal. While they were studying your motor they were studying our lubricants. The Polarine Chart is the result.

Polarine Oil is made in four grades—medium light, medium heavy, heavy and extra heavy. But there is only one quality. Get the proper grade for your car—at the same place you buy clean-burning, scientifically balanced Red Crown Gasoline. You will begin cutting down motoring costs immediately.

The Red Crown Road Map contains the Polarine Chart and a copy has been mailed to you. Write for your copy if you have not received it.
