A meeting of the special committee appointed by the Chamber of Commerce to consider the matter of the application of the telephone company for an adjustment of rates, was held at the office of the secretary of the Chamber of Commerce Tuesday evening. This committee is composed of E. R. Goodman, chairman; L. B. Dick, Ed. Weston and Mike Hayes. After considering the action of the other cities in the state and the order of the state railway commission for a hearing at Lincoln next Monday, it was decided to employ W. E. Shuman as the attorney for the Chamber of Commerce and ask him to proceed to the hearing and defend the interests of the telephone users of this city. Mr. Shuman has promised to be on hand.

Just Suppose

Not so long ago a book was published in which the author attempted to imagine conditions on our little old world 100 years from now. He saw electricity as the controlling element—everything, so it seemed, was accomplished by the press of a button. That author had imagination—imagination based on sound fundamental reasoning. But we too, have imagination. Just suppose, for instance, there were no electric lights, electric power, or transportation. You can easily imagine how many years backward we'd stand. There'd be no big cities, elevators, comfortable homes or vacuum cleaners—nothing which would go to provide efficiency and comfort. But why suppose the impossible? Electricity, though still an infant of the world, is playing a potent part in your life. Make the most of it. Your local electric company is ever building and planning—adding new conveniences for its customers. By so doing you receive Uninterrupted Service. Suppose we join hands in things electrical—one for all, all for one. Thus we shall make our neighborhood a better, brighter, happier place in which to live and work.

The Birthday Reckoning
Every year he gave Eugenie money, not to spend, but to hoard. Every year she must show it all.

Rex Ingram's
The CONQUERING POWER

is the story of Eugenie Grandet, particularly of the year in her life when she could not show the money. For all the terror in her eyes, she would not tell where it was gone. But Old Grandet would find means to make her tell.

Adapted by June Muhs from Balzac's "Eugenie Grandet"
