EDITORIAL

FOR GOD

Christ said—"Therefore all things whatsoever ye would that men should do to you, do ye even so to them".—Matthew 7:12.

FOR COUNTRY

"I pledge allegiance to my flag and to the Republic for which it stands, one nation indivisible, with liberty and justice for all."

One of the interesting things at the graduation exercises was a small boy who sat in the south balcony near the platform. He was unknown and appeared to be in overalls. His bare feet were frequently seen waving over the edge of the balcony. He amused himself in various ways during the first part of the service but when the Bishop arose he turned his eyes on the speaker and although we looked at him a number of times we did not see him take his eyes off the speaker's face. Many and many a bare foot boy has received his great life inspiration at a chautauqua, lyceum or camp-meeting from the eloquence of a speaker with a soul and a message.

The programs distributed at the graduation exercises brought back to mind a custom which has crept into our idea of the Board of Education. There were their names listed in full on the back page after the graduates and all the faculty had been given. The University and colleges know better and they always give the names of the board the place of honor. It is

the board which serves without pay while the faculty and the students get the rewards. It is the board which is the master while the faculty and students are but to carry out the plans made by the board. When the crisis comes it is the board which shoulders the responsibility for decision. Every graduate is a star but the sovereign represented by the board is the sun which is far greater to us than the star. This is not criticism of the program nor of those who made it a passing remark on a custom which has grown up throughout the public school system.

Want Ads

ATTENTION LEGIONAIRES

You are urged to present yourselves in full uniform Memorial Day at 9:30 a. m. at the Court House Square, to participate in the exercises for that occasion. One of the prime principles of our Great Organization pledges us to ever cherish the memory of those of our numbers who have made the supreme sacrifice, so let each of us as individuals combine our efforts into one that we may better accomplish that our duty, thereby carrying forward the long established work of our noble predecessors. The Grand Army of the Republic, in maintaining the true spirit of Americanism.

C. A. Selby, Commander

Let us stop the traffic in the street
To rescue the rosebuds at our feet.

AND let us bring smiles to wan faces and surcease to hearts that grieve. Flowers pave the way to friendship and to love. They help us to really live.

SHORT STORIES OF PEOPLE AND THINGS

ITEMS OF INTEREST ABOUT RECENT HAPPENINGS IN THIS COMMUNITY

The May number of the Union Pacific magazine has a brief biography of Wm. S. Dolson and of Hugh Bird both of this city. Their pictures are given among those "Whom We Delight to Honor."

Work on the addition to the North Platte post office building has started and things are all torn up around there. The contractor is at work clearing away the landscape gardening which he found in the way. The vestibule on the west has been torn away and laying the foundation will begin soon.

Jack McGraw, district foreman, contributes an illustrated article to the May number of the Union Pacific Magazine on the North Platte Night School. In the article he gives a list of subjects taught, the names of the members of the board of education and of the composite committee and tells something of the general organization of the school.

The War Mothers met at the home of Mrs. Frank Martin Friday evening. A very interesting program was given which consisted of a reading by Mildred Skinner, vocal solo by Madeline Blickensterfer, reading by Margaret Van Cleave, a very interesting feature of the evening was a reading and song by the Welch twins. The committee for the evening consisted of Mrs. J. I. Smith and Mrs. Frank Powers.

Last year the Camp Fire Council asked a fee of \$5.00 from each girl attending the summer camp. Some thought this amount large but the Council agreed that if a surplus remained at the close of the camp a fund would be made. There was such a surplus and a dollar is being returned to each girl who paid the five dollars. This money has been turned over to the Guardians who will give it to the girls.

Contractor McMichael is unloading several car loads of terra cotta on the court house grounds and as it is very expensive and hard to replace he has erected a fence about the part of the grounds which he is using. This is to form a boundary line for his watchmen to cover. The terra cotta would not be of value to anyone because it is in irregular pieces which were cast for particular places on the building. But it would not do to have people walking on the pieces nor to have children playing there.

The removal of Jack McGraw's office building from near the shops to the round house has started considerable speculation as to the object. Some have said it was the beginning of the end of North Platte as a railroad center, others said it is merely a concentration of the local mechanical departments for greater economy and convenience. There is no indication of giving up the terminals at North Platte. Railroad men report the rumor that something will be doing within the next few weeks which will put North Platte in better shape as a railroad terminal than it has ever been.

TORNADOES IN OHIO, INDIANA, ILLINOIS AND MISSOURI

When you read the terrible news of the destruction by storm, were you reminded of the tornado insurance which you intended to buy? It costs but little to protect your property. Destruction by tornado is just as devastating as by fire. Fire insurance and tornado insurance are of equal importance.

Let the disasters of recent weeks be a warning to you. Phone us now and a representative will call and give you full information regarding our special tornado policies.

Second	\$250.00.00.
Third	\$150.00.

Races Start Promptly 1:30 P. M. Authorized American Legion

The following list of books of fiction has been compiled from reports made by two hundred representative libraries in every section of the country and in cities of all sizes down to ten thousand. It is a list of books most in demand. They are the ten most-called-for books at this time. Have you read any of them? If Winter Comes (Hutchinson.) To the Last Man (Zane Grey.) Helen of the Old House (Wright.) Her Father's Daughter (Porter) Brass (Norris), Main Street (Lewis) The Pride of Polmar (Kyne), The Brimming Cup (Canfield), The Head of the House of Come (Burnett), Three Soldiers, (John Don Parsons.)

Here is a sign of prosperity. The Ford Motor company announces that it sold during the month of April just past, 127,249 Ford cars and trucks. This a daily average of 5,210 cars. The Ford company thus sold more cars in April than there are of all makes in Lincoln county. The company announces that the factory at Detroit is now operating at full capacity, having a force of more than 40,000 men on the pay roll. The scheduled output for May will probably reach 135,000 cars and trucks which will be applied against orders approximately 165,000. During the same month the sale of Fordson tractors reached 11,181 in the United States. This shows 100 per cent over the best month in 1921.

The primaries take the place of the party nominating conventions of former years. Therefore they are of interest only to those people who want to take a part in nominating the candidates on the different party tickets. So a man or woman who is independent in politics has no business voting at the primaries. He or she has the right to vote but he or she must vote with some party and then be an independent when the election comes. In other words, only Democrats who know they are Democrats and who say they are Democrats, have the right to help nominate the candidates of the Democratic party. This is as it should be but it seems hard to keep the idea of the secret ballot which is for the election, from being confused with the party ballot which is for the primary.

Acting Judge Tillie Blankenburg says she can tell a catfish from a bull head in three different ways. That is she knows three ways and if she were to catch a six-inch fish she would examine in each of the three different ways and if it was a catfish she would throw it back into the water and if it were a bull head she might not. The last game warden to appear in her court told her that a cat fish is more or less transparent if held up to the light but a bull head is opaque. He said the catfish has a well defined line between the head and body but the bull head has not, and also the head of the cat fish is more or less soft while the head of the bull head is bony and hard. Cat fish under eleven inches in length are protected by law while bull heads are not.

Those who are lambasting the North Platte Chamber of Commerce are usually either thoughtless or ignorant. Why should the professional and business men of this city amassing only a few hundred, put in \$25 of their money to defend the telephone users of North Platte num-

bering over two thousand, from any unjust raise in rates? Had the directors of the Chamber of Commerce said no, they would have saved this \$25 for their own use. But they said yes, and the whole people get the benefit. And this is but one of many occasions when this body has come to the rescue and made something possible which has benefited the whole people. We can appreciate how men out of work or up against the hard financial adjustments at this time, are disgruntled and ill at ease but we do not see why that should make them unfair.

LOOK WHAT'S COMING

CHAPTER
A K P E O will meet with Mrs. F. L. Temple, 310 West 2nd. Reports from the state convention will be given at this meeting.

CHRISTIAN
Ladies Aid Society will meet in the church basement Thursday at 3:30. Those on the entertainment committee are Mesdames Crawford, Fagg, Glaves and Wyman.

Director

A Shoe For Comfort

The feet are one of the important nerve centers of the body. Prominent nerve specialists often start their treatment on the feet of their patients. This shows how important it is to wear comfortable good-fitting shoes.

You take from 3,000 to 8,000 steps a day. Think what that means to your feet! If the shoe is not designed and constructed to harmonize perfectly with your foot, four thousand times a day the nerves must suffer. It's no wonder a bad pair of shoes can tire you out.

"The foot is a cantilever spring so made that when it is allowed to function normally it carries the body with the greatest possible ease and resilience"—Dr. Douglas Stewart, one of New York's leading specialists. "Proper shoes are essential for the proper function of the foot"—Dr. Wilmer Krusen, head of the Department of Public Health of Philadelphia.

The Cantilever Shoe is a "proper" shoe, a wonderfully comfortable shoe, and it is so modish that you are proud to wear it. The arch is flexible, like the arch of your foot. The fit is snug but true. The toes are not crowded. The heels are high enough to be graceful and sensible but not too high. Cantilever comfort is so real that your feet are "off your mind" and you can enjoy life. Come to us and get fitted and begin now to enjoy Cantilever comfort.
