**EDITORIAL**

Paul said—"To be carnally minded is death but to be spiritually minded is life and peace."—Romans 8:6

Andrew Jackson said—"Every good citizen makes his country's honor his own, and cherishes it not only as precious but sacred."

In the last issue of the Tribune we repeated a story which was picked up on the street to the effect that the Chamber of Commerce is attempting to buy up the other drivers for the Fourth of July races so that Rhiley will win. The story was so funny and withal so ridiculous that we did not make any comment but passed it on to our readers who had not heard it in the street, thinking they would enjoy it as much as we did. We only heard of one poor fish who believed it. He does not know that the Chamber of Commerce is made up of honorable men and would not stoop to do such a trick. He does not know that every dollar collected by the Chamber of Commerce is accounted for publicly and that there is no slush fund for such a purpose. In fact the Chamber of Commerce hardly has enough funds to carry on the regular work which it plans to do. He does not know that the other drivers besides Rhiley are honorable men who could not be bought for any sum, that their reputations as auto drivers are at stake and they are going to try their best to win. He does not know that Rhiley would spurn the suggestion that the other drivers be bought off as he has shown that quality of sportsmanship on all occasions, which has won the admiration of his fellow drivers and of those who work with him. He does not know that it is his own miserable puny soul which would grasp at the thought of such treachery and deceit and held it for truth. The man who would believe such a story is to be reckoned with and we welcome the chance to tell him just what honest men think of him and his kind.

The American Legion has asked permission to sponsor a Boy Scout troupe in North Platte. To the editor this is one of the very best bits of news which has come to his desk for a long time. It is significant. The American Legion is largely composed of the boys who stood between this land of ours and the horrible Boche. These boys were the ones we worked at home so hard for during those dark days of the war. They are the boys we cheered and praised. They are the boys who went through the horrors of war that we might be spared. When these boys came home they organized the American Legion. They were restless and wanted excitement so they became the chief sponsors of various enterprises largely intended to give them recreation and entertainment.

The Legion was severely criticised in many quarters for this tendency but the more thoughtful people took it as a part of the course through which such an organization must go in finding itself. The editor is one who welcomes the entrance of the American Legion as an organization, into the community life of North Platte in any way it sees best and especially in giving its support to local influences and institutions which mean the upbuilding of our community. We were willing to trust our future in the hands of the boys who compose the American Legion when the war was upon us and we are willing to trust our future to the same boys now and for all time to come. Unselfishness on their part will hasten the day when the confidence of the whole people will be placed in their hands and the sponsoring of a boy scout troop is one step in showing that spirit of unselfishness which is so admirable. It is not in words but in deeds that confidence is won and the American Legion proposes to show us that it means to hold our confidence by such deeds. At least that is the way it looks to us.

**BOARD DECIDES TO MAKE LOCAL CEMETERY MORE BEAUTIFUL**

At a recent meeting of the Cemetery Board it was decided to forbid any planting of trees, shrubs or flowers on any cemetery lot unless under direction of the board. No one will be allowed to fill in graves or lots above the level of the surrounding grounds. The soil must not be disturbed in any way. Only cut flowers may be used in decoration. The rules of the Board are based on the state laws regarding cemeteries and are adopted to conform to these state laws. The Board has adopted a plan for landscape gardening and when it has been carried out, the North Platte cemetery will be a spot of beauty. The title to a lot in the cemetery is said to give the owner only the right to use the same for burial purposes and for the putting of a marker or tombstone thereon.
