

WHAT OTHER PAPERS SAY

INTERESTING ITEMS FROM EXCHANGES WHICH REACH OUR DESK.

POSTPONED

The annual school meeting was held at the school house Monday afternoon. A larger attendance is expected Friday afternoon at 2 p. m., when the budget for the coming year will be voted on. We were surprised at the few ladies present at Monday's meeting. Surely the women of our community have an interest in our schools.—Hershey Times.

TELESCOPE

L. R. Prior returned home Wednesday from his vacation trip in a badly battered condition. While at the White Cliff, one of the Denver amusement parks, he took a ride in a whirling tub. In some way he slipped and the tub in its whirl struck him, dislocating his shoulder and fracturing his collar bone. Better stay home Les, and tackle Telescope the next time you want some excitement.—Maxwell Telepost.

WONDERS

All the wonders have not come to pass yet. The latest is W. H. Moffitt who is cutting his third set of teeth. Mr. Moffitt is eighty years of age and a few years ago received his second eyesight and is now able to read without glasses and sees just as well as ever. Mr and Mrs. Moffitt came to this country thirty-three years ago being in poor health. Today he is hale and hearty, has second sight and third teeth. Will wonders never cease?—Arnold Sentinel.

SERVICE

The Union Pacific not only does things up brown between Gering and valley points to Omaha, but she also slips in on records to and from Denver when the occasion requires. A full train of live stock landed here from the Colorado city Wednesday which had made the trip in just ten minutes less than nineteen hours. There were four cars for Wright and Pickett, three cars for Skinner and Schumaker and nineteen cars went to the Alredale ranch just across the hills into Banner county.—Gering Courier.

MORE WATER

Alfred Slack and S. L. Burson have installed an individual irrigation system on the latter's farm southwest of town. They have sixty acres of potatoes which they intend to irrigate if the weather man doesn't recover from his grouch. At present they have two wells running, one of which throws a stream about the size of a man's hat. It is run by a tractor. They are expecting two large engines to

arrive from Chicago next week. These engines are built on the plan of the engine used in the German submarine, and have no spark plugs or magnets. They will be used to pump the water.—Gothenburg Independent.

CELEBRATION

Everything is shaping up in ship-shape for a grand celebration in Sutherland. The committees are doing good work and everyone else is enthusiastic over the good time which is coming. The chautauqua will close the Saturday before the fourth and the seats and platform will be left for the accommodation of those who celebrate with us. There will be all kinds of amusements during the day. The eagle will scream, there will be plenty of music, good speaking, sports of all kinds and a spectacular and stupendous display of fire works in the evening. Celebrate in Sutherland and if you don't have a good time it will be your own fault.—Sutherland Courier.

NEW BAND

L. L. Hines of Red Cloud, Nebr., arrived in Lexington Monday evening and has taken charge of the Lexington Band. Mr. Hines is a native-born Nebraskan, studied at the Boston conservatory of Music and has been a member of most of the famous bands and orchestras in the country. For the past seven years he has been the assistant conductor of the Royal Scotch Highlander band, a concert organization of forty pieces.

On Tuesday evening he held the first rehearsal of the Lexington Band in Aubel's Hall and expects to build up a first class organization. Band concerts will be given every Saturday evening during the summer on the streets of this city. Mr. Hines will open a studio and teach all wind instruments.—Lexington Pioneer.

MORE BOOZE

Sheriff Smith and Marshal Albee captured a good supply of illegal stimulant at the G. Parachino home last week and G. and A. Parachino were taken into custody. At their hearing they were both found guilty of having the liquid in their possession and were each assessed a hundred dollar fine and some decorations which amounted to several dollars. The officers were in Lisco a day or two before the raid and had confirmed their suspicions as to where the supply that was being taken into that town was located. They waited a day in order that they might capture the car that has been bringing the hooch here from Denver but they failed to get the boat. It will be carefully watched for and will be taken in if it should be brought to this country again. It seems that these things can get by for a time but the officers are usually pretty well informed on the doings of those inclined to ignore the Volstead act. The chances are that there are some more in this part of the country who feel secure in their own minds, who are not very many jumps ahead of officials.—Garden Co.

News.

MRS. ANNA H. SEYFERTH

Mrs. Anna Herten Seyferth was born in Cologne, Germany in 1852 and departed this life June 11 1922 at the age of 70 years, 5 months and 14 days, death being due to a paralytic stroke. She was married to Edward Seyferth at Omaha, Nebraska in 1872 and came to North Platte as a bride fifty years ago. Her husband died Feb. 17, 1907. Mrs. Seyferth has been a resident of North Platte fifty years and took a great interest in the growth and progress of her city. Her aim in life was her family. She was survived by five children, Charles Seyferth of this city who made his home with his mother, Mrs. W. F. McGlone of Denver, Frank Seyferth of San Francisco, Mrs. D. T. Quigley of Omaha and Miss Katherine Seyferth of Omaha, also one sister Mrs. John Kaach of Schuyler, Nebraska and two brothers, Frank Herten of San Francisco and William Herten of Walthill, Nebraska. The funeral took place Wednesday, June 14 from the Catholic church and was conducted by Father McDaid. The remains were laid to rest in the local cemetery.

MOths FLYING ABOUT LIGHTS IN HOUSES, BREED CUT-WORMS

The moths or millers which are found in such abundance at this time of the year and which fly about the lights in our homes when they can get into the houses, are the parents of the terribly destructive cutworms which destroy so many garden and field crops. County Agent Kellogg has issued a statement which says that the best way to destroy them is to fill a tub half full of water and put one-eighth of an inch of any kind of oil on the water. Hang a lantern or any kind of light a few inches above the oil. It will capture and kill the moths and for every female thus destroyed, about 200 eggs will go to the same way. The brown moths are not doing any harm when they are flying against the glass or screen or when they are flying about the lights but they lay eggs which hatch into worms which do the damage.

WHAT'S IN YOUR PAY ENVELOPE?

Surely not as much as you would like to see there. Remember, better eyesight is a first aid to increased earnings. Without realizing it, most people have defective vision. Know that your eyes are as efficient as they should be—and can be—see an optical specialist. He will know—you ought to.

LINCOLN COUNTY PEOPLE INVITED TO ATTEND YODER ROUND-UP

Yoder is the present terminus of the North Platte branch of the Union Pacific. It is a new town but an old community. The people there are holding their first Annual Rodeo and Shot-Gun Round-Up on June 23-4-5 and are asking Lincoln County people to come up and see them. The entertainment is to consist of riding by Phil Yoder, World's champion broncho buster; Cowboy riding a bucking airplane; Chas. B. Irwin and his entire show direct from Cheyenne; base ball game every morning; bucking, roping, riding and bull-dogging. The Union Pacific is making special announcements as to service and rates. Autoists are told to take the Cheyenne-Torrington State Highway.

Potted tomatoes planed now will bear in July. C. J. Pass, Florist.

We are always in the market for good milling wheat. Also other grains at highest market prices.

Both Must Be Paid

It is just as essential to the public that we pay fair wages for the use of the dollars invested in our property as it is to pay fair wages to our employees.

We cannot keep capable employees if we do not pay fair wages. And we cannot get the new money we need each year from investors to make improvements and extensions if we do not pay all expenses and earn a fair return.

In order to extend and develop our system to meet the demands of the public for service, this company must obtain millions of dollars from investors each year.

It is to the public's interest, as well as to the interest of the employee and the investor, that the telephone company be prosperous.
