SULPHUR DUSTED ON CLOTHES PREVENTS CHIGGER AT-TACKS

Rare days in June—and July and August—tempt nature lovers into woods and fields and by the sides of babbling brooks. Frequently they return to undergo several days of acute torment due to attacks by chiggers, the tiny mites whose larvae attach themselves to the skin in any exposed spot.

The Bureau of Entomology of the United States Department of Agriculture has made a careful study of the habits of chiggers and methods of control, and suggests two ways of reducing the discomfort caused by chiggers.

The first step is to clothe the feet and ankles properly before going into the woods where chiggers are likely to occur, by wearing heavy high-topped boots instead of low shoes, thick stockings or even spiral puttees. The second method is to apply repellents either directly on the skin or on the hose and undergarments before starting out for a "hike" or a picnic. Flowers of sulphur is ordinarily used for this purpose. A hot bath with a thick lather of soap taken immediately after returning from an outing often kills chigger larvae on the body.

Pallatives such as sulphur ointment, alcohol, ammonia, cooking soda, dilute solution of iodine, or camphor are of use chiefly because of their acaricidal or mite-killing action, or because of their antiseptic quality, or for both reasons.

Everyone is interested in a new car or a new type of car. The latest bid for our attention is the Dodge Brothers announcement of a business coupe and conservative changes in the body design of all other types. In an announcement made Saturday by J. V. Romigh, the local dealer, he said "The business coupe is the first all-steel closed car ever marketed. In this respect it takes a new and distinct place in automotive history, for it involves an entirely unique principle of coupe body construction. The steel body not only practically eliminates the problem of limited production, due to tedious and costly individual workmanship required on wood bodies, but also enables the manufacturers to give the coup the same lustrous, baked enamel finish which has already contributed so much to the reputation of Dodge Brothers open cars. This process in itself will also facilitate quantity production, as an enormous amount of time was heretofore consumed in applying the numerous coats of paint required on wood."

Mr. and Mrs. John Edwards spent Sunday in Sutherland visiting friends.

Mrs. John Worthley left yesterday for Portland, Oregon to make her future home with her son.

Mrs. John Weinberger returned yesterday from Grand Island where she has been visiting friends.

June For Life Insurance

There must be a time for everyone to check up their life insurance and figure whether you are carrying an adequate amount to protect your family and business responsibility. Ordinarily you wait until an agent calls on you and then realizing you are not carrying an adequate amount buy an extra \$1000 to \$5,000 on whatever plan he suggests, figuring more the premium than the protection and possibly you are not then even adequately protected. Why not figure out for yourself and then buy your insurance like you would buy anything else.
