

CHATS WITH YOUR GAS MAN

Do you know that smoke causes property damage estimated at from twelve to twenty dollars for each city dweller in the United States? and that about sixty per cent of all the smoke in the atmosphere is made in the residential sections of our cities, where it does the most harm.

These are government figures—not ours, and they are authoritative. Fortunately, however, they are becoming smaller and smaller each year as gas, the clean, smokeless fuel, reaches out into homes, factories and manufacturing plants and replaces soft coal and the grime, soot, ashes, and fumes that go with it.

Every time gas service takes the place of coal you may be sure that it is saving linens, draperies, rugs, upholstery, wall paper, furniture and clothes; and helping us all to have a pleasanter place in which to live and enjoy the good health and other blessings that go with a pure, wholesome atmosphere.

VOTE FOR

Clarence A. Davis

The Candidate with a Record of Performances—Not Promises

Wm. E. SHUMAN
of North Platte

Candidate for CONGRESSMAN in the 6th District of Nebraska, as a Republican of the Progressive type.

HIS CREED

If elected to Congress he pledges that he will work strenuously

To make our Government more truly of, for and by the people.

To reduce taxes.

To secure proper reduction in freight and passenger rates, by forcing the railroads to accept fair and reasonable profits upon true values only.

To prevent public service corporations from taking from the people exorbitant profits and large earnings on millions of watered stock.

To obtain for the farmer, stock raiser and laborer, fair prices for their products and to prevent the loss of such large amounts between the producer and the consumer.

To develop arid and semi-arid lands of Western Nebraska by government irrigation projects.

To secure a soldier bonus, not by a tax upon the already overtaxed people, but out of the foreign debt, the interest on which will largely pay the same, and also by levying upon the millions collected by war profiteers, if any way can be found to get hold of the same. To raise the bonus by taxation would require the soldier to pay taxes to pay his own bonus.

To stop the increase of power at Washington and restore to the States much of the power that has been taken from them in recent years.

To secure and amendment to the Constitution of the United States, preventing its Supreme Court from declaring a law unconstitutional, except upon a vote of two thirds of its members. At the present time by a 5 to 4 vote this court overturned a law passed by almost 400 congressmen, 90 senators and the President of the United States. By such a method this Court has killed the Child Labor Law and the law preventing gambling on stock exchanges.
