Letters to the Editor

North Platte, Nebr. June 30, 1922

Editor North Platte Tribune. North Platte, Nebr. Dear Sir— This seems to be a time when the different candidates for public office are writing and publishing their platforms. As a candidate for the office of County Superintendent of Schools it may be proper for me to show my colors. During my career as a farmer I have had to employ a good many men. If any of these had come to me after I had engaged him to do a certain kind of work, and handed me a "platform"—a statement of things he would do and would not do, what do you suppose would be the outcome? Now I take it that if the electors of Lincoln county call me into the office of County Superintendent of Schools, I am their servant and it is up to me to do the work to the very best of my ability and that is what I shall always aim to do. Economy and efficiency shall be the motto in that office if I am placed there.

Very Truly
William Ebright

To The Voters---

As a candidate for the legislature from Lincoln county I would like to let the voters know where I stand on a few of the questions in which I believe they are interested. I believe two of the greatest problems we have to deal with now are taxation and transportation. I believe in cutting down public expenditures as far as possible, consistent with good government. I am opposed to a sales tax. I think it is every person's duty to talk and work against the freight rates that burden the country. I object to depriving our State railway commission of all power in the administration of the railroads and the fixing of rates. The interstate commerce commission should not have absolute control over local rates.

I am opposed to the weakening of any of the liquor laws. All of my interests are in Lincoln county and as a taxpayer myself, I am vitally interested in every thing that affects our country.

If nominated and elected, I shall expect taxpayers having suggestions along legislative lines to make them known and I assure you they will receive due consideration.

Very Respectfully,
Scott Reynolds

Dress Up and Go Out on Washing Day!

Don't tire yourself out bending over a washboard on washday. Take advantage of the modern, time, strength and labor-saving **ELECTRIC WASHER**. Finish the washing in the morning. Dress and go out in the afternoon. As little as \$20.00 down and \$10.00 per month brings you this great convenience. A laundress would cost you more.
