PLATTE VALLEY

The next meeting of the Platte Valley Community Club will be held on the first Friday in August. Everyone is invited. Don't think for a moment that this is a little home affair for the few of this community. The radius of this club reaches to your home.

The Community Club gave a moonlight social at the Platte Valley school house last Saturday evening. Wires were strung in the yard and electricity was obtained from the school house which is supplied from the transmission line. The Hershey Band under the leadership of F. A. Rasmussen, furnished the music which was much appreciated by the two hundred or more people present upon this occasion. Rev. Knight of Hershey was called upon to give a short talk on the Relation of the Sunday School to the Community work. He made a good address and told some stories to illustrate the points he wished to make. Rev. Gramley of Hershey was introduced and spoke of the problems of the community, telling some interesting anecdotes in connection with the truths he was presenting. S. J. Koch, commonly known as "Jake" was called upon to tell why he is making the race for state senator from this district. He made a most excellent talk on community work, telling of the changes that have taken place during the thirty-six years he has resided here. He said his friends urged him to run and then got up petitions for him and now that he is in the race he will promise nothing but hard work and a square deal. The meeting was presided over by H. S. Haskins who failed to state in any of his introductions or other remarks that he is a candidate for county clerk. After the speaking, the band played some more and then refreshments were served.

SOUTH LINCOLN COUNTY

Miss Alburta Burton of North Platte is spending some time at the Lakeview ranch near Wolfleat.

The little town of Wolfleat is enjoying a boom in the way of cement walk and crossing building. This with the gravelled street is making the town look better.

Although the rainfall has been a way below normal this season, our crops look very fine. Small grain is a little light but the corn looks very promising.

The County Dads are having some excellent work done on the roads of

this part of the county. This will be a lasting benefit. Chas. Leyboldt of Hershey and Ray Hoatson of Sutherland are running the grading outfit.

The Non-partisan Leaguers are wide awake in this part of the country and are ready to endorse the best men the three parties can put up. It is still to be seen which of the parties will put up candidates which we farmers will see fit to endorse.

Pistons and Pins — McQuay-Norris Wainwright Pistons and Pins — are iron pistons as light in weight as safety permits — specially designed for replacement — available in standard sizes and over-sizes — also in semi-finished form 75 thousandths over-size — pins of special hardened steel, ground to exceptional accuracy.

\$125 — **ACE-ROOF** — an exclusive two-piece design, preventing loss of gas and compression. Gives equal pressure at all points on cylinder walls. For all pistons grooves except top, which should have **super**. Each ring packed in a parchment container.

\$100 — **Superoil** — Keeps lubricating oil out of combustion chamber. Collects excess oil on each down stroke of piston and empties on each up stroke, which ordinary grooved rings cannot do. Each ring packed in a parchment container.

50c — **JEFF-GRIP** — a one-piece ring. Non-per ring butting joint, which can be fitted closer than ordinary step cut — velvet finish — quick securing. Sets in a jiff. To keep them clean and free from rust, each ring is packed in an individual glassine envelope.

Snap Rings — of the highest grade. Raised above the average by McQuay-Norris manufacturing methods. Their use insures all the satisfaction possible for you to get from a plain snap ring. They are packed twelve rings to the carton and rolled in waxed paper.
