

## USE TRACTOR ON TRIP TO CANADA

Party of Settlers From United States on Way to the Land of Big Crops.

Settlers on their way to and through Canada do not always rely on the railroads for transportation. Here, for instance, is a photograph of a

party from one of the northern states on the way to their new home near Lake Winnipegosis, Manitoba. They were a sturdy, self-reliant lot and carried with them a full complement of farm machinery. With the tractor outfit they intended to commence rather extensive operations this spring on the land which their scouts had already inspected and reported on favorably as to its productiveness.

At almost every point on the Canadian border where there are located means for admitting settlers, the reports are that it is almost a daily occurrence to admit settlers from states as far off as Texas who have adopted the automobile as a means to

carry themselves and their families to the country of their choice. Such settlers are bound to succeed. Some of them go two or three hundred miles inland, and select their homes in the park districts of Manitoba, Saskatchewan and Alberta. Others purchase improved and unimproved farms in the more thickly settled districts in the southerly and central parts of these provinces. Wherever they may go, they are certain to secure land of certain possibilities. They will see grain crops of high value, wheat that will produce from 20 to 40 bushels per acre, oats giving high yields, barley a certain producer, and grass and fodder in quantity and quality that

will satisfy them that the cattle and stock raising possibilities are fully as good as they have been told.

The reports from all parts of Western Canada at the present time fully bear out the most optimistic expectations and hopes of the early days of seeding. Evidence of the splendid growth of this year is the fact that alfalfa was cut on the 15th of June and yielded nearly two tons to the acre.

Corn planted on the 23rd of May, on the 5th of June was showing several inches about the ground, and making glad the heart of the farmer who had built his silo, which he hoped to fill in the latter days of August.—Advertisement.

### PAYS TRIBUTE TO THE SOUTH

Capt. George Shuler Passes Command of Marines in Parade to South Carolina Officer.

Proving that the Civil war formed a nation and that the sons of the Confederacy and the Union hold no malice, Capt. George K. Shuler of Lyons, N. Y., whose forebears wore the Union blue, thought that it would be most appropriate that a Southerner should take his place as commander of the marines in the parade at the unveiling of the Grant memorial. Accordingly, he selected Capt. Thomas P. Cheatham of South Carolina, whose folk fought against Grant in the struggle between the states for the honor.

Shuler had a notable record with the marines during the war. He received the Croix de Guerre, Navy medal, Distinguished Service medal and citations from Marshals Foch and Petain, General Pershing and General Lejeune.

### THE SAN JACINTO DAY FLOAT

Legionnaires' Display Proves Prize-winner at the Anson (Tex.) Celebration Held April 21.

Outside of the Lone Star state, people don't do much celebrating on San Jacinto day. Down in Texas, however, the school children and everybody else take a holiday on April 21. It is the anniversary of the battle of San Jacinto, where Col. Sam Houston, with 750 soldiers, put to flight 5,000 Mexicans and took General Santa Anna and other notables of the Mexican army captive.

This year, the American Legion in all parts of Texas took part in the celebration of Colonel Houston's victory. The Legionnaires' float in the parade at Anson took first prize for being the best decorated of the scores that were seen on San Jacinto day.

### FOCH PRAISES AMERICAN WAY

Pride of France Well Pleased With Enthusiastic Welcomes Throughout the Country.

Marshal Foch of France, has given to Commandant de Mierry, formerly of his staff, the task of writing the impressions of the generalissimo on his recent visit to America as the guest of the American Legion. Marshal Foch has made it a life-long rule not to write for publications of any sort.

In speaking of his trip across the American continent, Marshal Foch said: "There was always the same enthusiasm, the same warmth, all through the weeks that I traveled, no matter whether we were in the West, the North, the South or the East. No matter what the weather, thousands of men, women and children were always ready with a cordial greeting."

The Marshal paid an especially high tribute to the "cordiality and friendship of the American Legion," which he said, "rendered easy the journey of more than 26,000 kilometers in forty-five days."

### OBSERVE LEE-GRANT BIRTHS

American Legion Requests Commemoration on Both Sides of Mason-Dixon Line.

Observances by posts of the American Legion on both sides of the Mason-Dixon line of the birthdays of Gen. Robert E. Lee and Gen. U. S. Grant has been requested by the national headquarters of the Legion. Legion posts in Northern states co-operated with the G. A. R. in the celebration of Grant's anniversary on April 27. The birthday of General Lee will be observed January 29, 1923.

The Legion's celebration of the birth of these two men, not as Northerner and Southerner, but as great Americans, will be "an effective argument that all sectionalism is buried and that the glory of the nation is the chief concern of every patriotic citizen." Lemuel Boles, adjutant of the Legion, declares.

### NEGRO'S MEMORY A PUZZLE

Of Limited Educational Attainments, Colored Man Has Wonderful Fund of Useful Information.

Jim Gilmore, a negro aged fifty-six, who lives in the town of Greenville, Texas, is said by scientists who have examined him, to possess one of the most remarkable memories known. With apparently a small amount of educational training Gilmore is able to quote any verse in the Bible suggested to him. He answers any questions pertaining to the Civil war, the Spanish-American war and the late World war, giving dates of all outstanding historical events. He can name every station and water tank from San Francisco to New York on the principal transcontinental railroads.

There seems to be no limit to the amount of poetry Gilmore can quote. "The Sinking of the Titanic," numbering 40 verses, and "The World War From Beginning to End," in 60 verses and three parts, is another literary achievement of which he can boast. He has traveled extensively and possesses an excellent vocabulary for one of limited education.—Exchange.

### Her Achievement.

"My wife got after a blue racer with a hatchet out in the yard yesterday," related Gap Johnson of Rumpus Ridge. "After going twice around the track, as it were, she ketchered her foot in a mess of balling wire and fell and sprained her arm, if she didn't break it outright. But, by cripes, she shore cut off that there snake's head as she went down!"—Kansas City Star.

### FUNERAL BEARERS ON STRIKE

Incident That Enlightened British Public Concerning Profession About Which Little is Known.

The strike of funeral bearers in Hull calls attention to a profession of which comparatively little is known. People are apt to look upon the somber figures who walk beside the hearse and carry the coffin to the graveside as simply a part of the undertaker's outfit, but in reality these men are a profession to themselves. Usually they are small tradesmen, writes a correspondent, or out-of-works ready to earn a few shillings in this way. Every undertaker has his own little band who can be relied upon to come whenever a funeral is on. Generally the undertaker provides the tall hats, a fact which accounts for the grotesque fitting of some of the hats, but the black suit must be provided or borrowed by the man himself. The fee varies from 75 cents to \$1.25, according to the district, and there are men who can make \$5 a week and upwards out of this side line. At Hull the fee has been \$1.25. Now the undertakers wish to drop it to \$1 a funeral, and hence the strike of the bearers.—Manchester Guardian.

### Part of a Collection.

"Just a moment," interrupted the defendant's lawyer. "You say you despise this man you are suing for \$50,000, yet you bring his alleged love letters into court carefully tied up with a pink ribbon." "There is no sentiment in that," replied the fair plaintiff, haughtily. "I merely used a pink ribbon to distinguish his from the others."

### Really Not Her Fault.

A ducky and his sweetheart, followed by three pickaninies, applied to the clerk of a southern courthouse for a license to wed.

The clerk eyed the assemblage doubtfully. "Whose children are these?" he asked. "Dey our'n," was the ready response from the man.

The clerk was scandalized, being new at his post. "You ought to be ashamed of yourselves waiting to get married till you have a family half grown."

"Jedge, you'll have to excuse dat," interrupted the "bride," sweetly. "De roads out our way is so bad!"

### Dye's Peculiar Property.

It seems probable that the discovery of a new dye by a British concern will have an important influence on the dyeing industry, for this dye has the peculiar property of coloring artificial silk fabrics without affecting cotton. Should a mixed fabric of cotton and silk be dipped in this dye, the silk will take the color. The cotton in the fabric may then be colored by washing in a dye that affects only cotton. This combined dyeing makes it possible to produce a party-colored effect in mixed fabrics after they are woven.—Popular Mechanics Magazine.

### Half a Dozen Fines Did It.

"Mr. Grumpson is a changed man since he bought a car." "For the better?" "Yes. There was a time when he wouldn't take anybody's advice, but now he lends an attentive ear to traffic policemen."—Birmingham Age-Herald.

## Health is Wealth Itself

—and depends more upon the selection of proper food than upon anything else.

The reason is simple—the right kind of food digests promptly and is absorbed into the blood for building sound tissue; while food that digests slowly may ferment and lead to serious conditions.

Grape-Nuts—the delicious cereal food made from whole wheat flour and malted barley—

is so easy to digest that even delicate people and young children thrive on it.

This is only natural, because Grape-Nuts is baked for 20 hours, which transforms and partially pre-digests the starch elements, resulting in easy digestion and quick assimilation.

Served with milk or cream Grape-Nuts is a complete food—and along with its nutritive qualities is that wonderful flavor!

## What Is It Worth to Change a Tire?

On the road changing a tire is not an especially pleasant task.

The dust or mud, the grease and grime, the tedious delay—all are things we like to avoid.

But the time to think about these things is when you buy the tire—not after the blow-out occurs.

For some tires blow out much more easily than others. Outward appearance counts for little.

It is the material in the tire and the construction of it that determines its strength.

Goodyear recognizes these facts and all Goodyear Tires are made of long staple cotton.

Take the 30 x 3 1/2 Cross Rib Clincher Tire here illustrated, for example.

It is made of Arizona cotton, the fibres of which average 1 1/2 inches long.

Many 30 x 3 1/2 clincher tires are made of short staple cotton from 1/2 inch to 1 1/4 inches long.

This means less strength and greater danger of blow-outs—more tire troubles.

Yet this high grade guaranteed Goodyear Tire costs only \$10.95.

You can buy some tires for even less than this but none with the fine materials and construction of this one.

Can you afford to take a chance on more frequent tire troubles for the sake of the slightly lower price of cheaper tires?
