Western Canada Farmers Jubilant Over Prospects.

Harvest in Southwestern Manitoba Expected to Come Close to Bumper Yield of 1915.

Those who have friends in Western Canada will be anxious to learn of the conditions there, and will be interested in knowing that generally the crop prospect is very favorable. Cutting and harvesting have become general, and it is anticipated that the results which will appear when thrashing is completed will be highly satisfactory.

With the widely varying weather conditions that have prevailed in the different sections of the prairie provinces it would be impossible to forecast with any degree of accuracy as to how the crop is made. The Manitoba crop has held its own, and the outlook for the province as a whole is decidedly good.

With the exception of an area south and west of Brandon, grain crops in Manitoba continue to give promises of a good harvest, the best in fact for a number of seasons, reports the Canadian National Railways for the week ended July 22. Recent rains and favorable temperatures have improved conditions wonderfully.

Southwestern Manitoba will reap a harvest which will nearly equal the bumper harvest of 1915. Farmers in the district are very optimistic. The rye crop is exceptionally good; many fields will yield upwards of 30 bushels per acre. The fields are remarkably free of weeds, and the grasshopper menace, which has been evident in the southwestern portion of the province for the past three years, has been almost entirely obliterated. No damge has been done to the wheat crop by rust, and the oats crop will average more than 60 bushels to the acre,

In Saskatchewan there are large areas where the crops are excellent. In places where the prospects some few weeks ago were not encouraging, material change for the better is apparent. In these places unusually dry weather during a portion of the growing season kept the crops back, but what was most remarkable was the effect that the spring moisture had, While light in some places, this moisture kept sufficient strength in the growing crops to ensure a fair yield of a good quality of grain. This condition arises in the mid-central dis-

tricts of the province. The southern portions of the province have been exceptionally favored, reports showing that the yield of all grains will be wonderfully good.

The crops of all Saskatchewan are a week or ten days later than those of Manitoba.

Conditions in Alberta are said to be good, especially in southern Alberta, where copious and plentiful showers came in time to give assurance of good paying yields. This applies to nearly all sections of that district.

Northern Alberta, or at least that portion of it lying within thirty miles of Edmonton, has suffered from lack of WANTS BEST COOKIE RECIPE moisture, a very unusual thing for that district, where there is generally an abundance. As a result, the heavy yields of wheat, oats and barley for which the district is noted will show considerable falling off over past years. The grain, though, is of excellent quality and the yield will be fair.

Pasturage is poor, and the hay crop will fall short of that of any previous year for quite an extended period.

On the whole, the prairie provinces of Western Canada will have a crop that will warrant the statement that it will prove satisfactory and remunerative.

A number of farmers put in corn this year, and from present appearances there is a likelihood of an abundant yield for fodder and ensilage, while a good deal of it will fully mature. A number of silos were erected this season. While grain growing is losing none of its interest, it is highly pleasing to note the number of farmers who are adding dairying to the grain growing industry .- Advertisement.

New Dodge,

Willis-Didn't your wife bawl you out last night when she woke up when you came home?

Gillis-No; I fooled her, I stood in the hall an hour, delivered a lecture on Civic Righteousness, told a bedtime story, and sang three grand opera selections, and she thought she had forgotten to turn off the radio.-Judge.

With bees, the canning season lasts from May to October and the cans never explode.

# CROPS ALL GOOD . THE .

MAKES MOVIE PICTURE NOW

Roger Sullivan, Former Engineer, Disabled in World War, Successful In Camera Work.

The fact that he was an engineer before the war may help him to understand the mechanism of a motion picture camera, but the knowledge of proper lighting effects and other things incident to the successful production of motion pictures had to be learned by Roger Sullivan, after he was seriously disabled in the World

Sullivan was wounded while operating with the United Naval forces in France. After the war, young Sullivan found that his injuries were such that he could not successfully "carry on" as an engineer. Under the supervision of the U. S. Veterans' bureau, he entered a school of photography in New York and has completed a course in motion picture making and "still" photography

Sullivan and His Camera.

Together with James E. Pelkey, another disabled veteran who took the same course, Sullivan is producing a picture entitled "Another Chance." The picture depicts every stage through which a disabled veteran passes from the time he leaves the hospital until he has been completely rehabilitated in some school of vocational training.

The film closes with the picture of President Harding, The photograph of Sullivan "shooting" the President was taken by Pelkey.

Sullivan and Pelkey spend their spare hours in the club rooms of the Washington Heights post of the Amer-Ican Legion in New York City.

American Legion Auxiliary Plans to Have "Cookie Jar" for the Sick Ex-Soldiers.

The best, top-hole, A-1 cookie recipe in America is wanted by the American

with veterans in hospitals. This recipe may be a modern, cooking school's latest piece de resistance, or it may be a family heirloom - but it must be good. The more it re-

welfare work

sembles the cookles that mother used to bake, the happier it is going to make a lot of sick soldiers.

The auxiliary's plan is to establish in each hospital, where there are veterans receiving treatment, a "cookle jar," which will be kept filled with a fresh supply of delectable cakes, made by auxiliary members. The plan is that of Mrs. W. H. Cudworth, of Milwaukee, Wis., chairman of the hospital and welfare committee. The recipe should be sent to the national auxillary headquarters, Indianapolis, Ind. A widely known baker will be asked to judge them and select the best.

#### GERMAN CROOK DUPES YANKS

Unconfirmed Report is That Escaped Prisoner Donned Belgian Uniform and Obtained Money.

The story is carried by a Brussels newspaper of the duping of the American army in the Rhine area by a clever German crook. The story was not confirmed by Americans at Cob-

A German prisoner of war effected his release from a prison camp, donned the uniform of a Belglan army major and the name of Otto Debeny, according to the report. He presented forged credentials at Coblenz where he is said to have been royally received

by the American army. Before the assembled American troops, he pinned the medaille militaire of Belgium on Major General Allen's breast and after getting numerous loans of considerable amounts from Major General Allen's staff, departed for Paris.

GIVES LIFE SAVING OTHERS

infantry, field artillery, motor trans-

port corps and the navy, W. C. Gentry returned from the World war to his home at Fort Worth, Tex., without having been injured During the flood at Fort Worth in April, 1922, the American Legion called upon its members to do rescue

work. Young Gentry was one of the first to present himself at the Legion

During the first few hours he was in the flood district Gentry rescued six persons. While swimming toward the levee, after carrying a woman to safety, he became entangled in a barbed-wire fence which had come to the surface of the water. He called to a companion for help, but the companion was too nearly exhausted to save him. The surging waters from which he had saved others soon engulfed him.

Mayor E. R. Cockrell of Fort Worth urged his fellow citizens to erect a fitting memorial to the young man who had unselfishly given his life for his fellow men.

#### WHEN ONLY FOUR HOURS OLD

Miss Rosalie Carol Larson of Worthington, Minn., Probably Youngest Auxiliary Member.

Fortunately, there are no age requirements for membership in the American Legion

Auxiliary. A number of grandmothers were among the charter members of the organization in Minnesota. On the other hand, there are several young women who may say that hey have beonged to the

Auxiliary all their lives. Little Rosalie Carol Larson of Worthington, Minn., was admitted to membership when she was exactly four hours old. No, she didn't apply for the honor, it was just conferred upon

Rosalle's father, Warner Larson, served with the Twenty-ninth division, and her mother received her diploma as a graduate nurse after volunteering for service with the American Red

#### THE FLOWERS OF THE LEGION

American Daisy and French Poppy Official Posies of Both Branches of the Organization.

There has been some confusion in the minds of Americans in general as to the status of the daisy and the poppy in connection with the American Legion and the American Legion Auxiliary.

The dalsy is the Legion's official flower; the poppy is the Auxiliary's memorial flower. The misunderstanding arose in the first place, because in its early days the Legion did adopt the poppy of France as its flower. But at its Kansas City convention the American Legion adopted the daisy as its official flower on the grounds that the daisy is an American flower and the poppy of Flanders is available for use only in artificial form.

The Legion Auxiliary has taken advantage of the very fact that the poppy is not available as a real flower to buy artificial flowers made by disabled soldiers in hospitals. The Massachusetts Legion and Auxiliary netted something over \$46,000 from the sale of artificial popples, last winter. This money was used to better the condltions of sick and needy veterans of the World war.

The Legion is making every effort to interest the children of America in the cultivation of flowers by appealing to their patriotism and to their natural affection for such a flower as the American Legion's American daisy.

#### Carrying On With the American Legion

Former service men in Pennsylvania received \$40,000 in claims from the government in one month through the efforts of the Pennsylvania American

A giant new bridge will span the historic Charles river at Boston, Mass., serving as a memorial to the Massachusetts dead who lost their lives in the World war.

Australia's heroes of the World war were honored on Anzac day, when religious services, soldiers' reunions and public meetings were held throughout the commonwealth.

A freak pretending to be half baboon and half woman, giving America as her home and declaring that there are many more like her in this country, attracted considerable attention in a Constantinople (Turkey) street carnival, until American Legion members had the act suppressed.

# Children Cry For CASTORIA

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child saything but a medicine especially prepared for Infants and Children ? Don't be deceived.

Make a mental note of this:- It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.
