Lincoln County's "Progressive" Fair

OUR AIM:
"A Greater County"

4 DAYS OF EDUCATION AND RECREATION

OUR MOTTO:
"Service to the Greatest Number"

This year we have something interesting for all. It is your future welfare to observe the progress made from year to year.

The County Fair is the blackboard on which is pictured:

The result of progress.

Improvement in all county activities.

Initiative—which spells success.

The application of better methods and closer study.

The 1922 "Progressive" County Fair will exemplify its name.

We can assure the patrons the finest musical and amusement program ever offered.

Lincoln County exhibits this year will be headliners.

Many improvements have been added for the comfort of our patrons. Arrange to attend your own County Fair; you will find diversion, relaxation and education.

It is your opportunity to hear the greatest festival ever assembled in Lincoln County.

Lincoln County's greatest outdoor exposition each year excels the last.

The only institution in our great county where the year's progress is spread upon the blackboard for your inspection, approval and education.

As our state progresses, so does the "County Fair."

The progress of one means the progress of the other.

Patronizing the County Fair demonstrates that you are alert and desire to keep in touch with the activities of our great county. Progressiveness exemplifies both.

A modern exposition of our commercial and agricultural industries, including the prize winning state exhibit from the county.
