

CHATS WITH YOUR GAS MAN

Think of gas at \$6.00, \$7.00, \$8.00, and \$9.00 a thousand cubic feet! That's what the housewives residing in many American cities had to pay a little over fifty years ago. And instead of complaining at the size of their gas bills, they were glad to get gas service so cheap.

Here are the "cheap" rates charged in those days: Memphis, \$5.50; St. Louis, \$4.50; Nashville, \$4.50; Mobile, \$5.00; Atlanta, \$5.50; Savannah, \$6.00; Norfolk, \$6.00; Vicksburg, \$6.00; New Orleans, \$4.00; Charleston, \$7.00; Montgomery, \$8.00; Macon, \$8.00; Galveston, \$8.00; San Francisco, \$6.00; and Sacramento \$9.00.

Compare these rates—the average of which is \$6.20 per thousand cubic feet—with those charged today, keeping in mind the fact that fifty years ago there was only one use for gas lighting—whereas today there are more than a thousand separate uses for it, and your opinion of your gas bill will be greatly modified.
