TUESDAY, SEPTEMBER 19th, 1922.

EDITORIAL

David said—"Commit thy way unto the Lord; trust also in him and He shall bring it to pass."—Psalms 37:5.

Cardinal Mercier said—"Down within us all is something deeper than personal interest, than personal kinships, than party feeling—and this profound will within us is patriotism."

One resident of Lincoln county is credited with having remarked to a fellow citizen that the commissioners have spent twenty thousand dollars on the new court house and now they want another twenty thousand dollars to complete it. "There must be some graft about it," was his further expression. The facts are that \$110,000 has been paid to the contractor to date.

Judging from the response to our offer of a prize to the mother who would write the best article on "How to make North Platte a better place to raise boys", there is nothing which can be done. That means that North Platte is as good a place to raise boys as it could be. That's fine. If there is nothing that can be done we are glad the mothers know it and are so satisfied. The contest closes Saturday.

The Firemen's Carnival which is to be held here next Tuesday evening is attracting more attention than it did. The showing made by North Platte in the matter of fire losses during the past year is so creditable that the citizens are giving the firemen the benefit of being responsible for the good work. Tickets for the carnival are one dollar each and may be secured from any member of the department.

The second boy has come to the office and gone. The boys do not seem to want to learn a trade so they can make money later. The main idea with them seems to be to get all the money they can now so they can have more sweet and good things to eat. This office cannot waste time on such a boy. We will take a good fellow who is going to school and if he will give us his time and attention and if he has ability we can teach him the printing trade. When we need help and he learns to do the work we will pay him full wages, which are pretty good. Any such boy should see the editor and start in now.

In our news columns we print a heading entitled "Son of North Platte Blacksmith is Now a College President." The North Platte blacksmith mentioned is our respected townsman, Fred Elliott. The son is just installed as president of one of the large eastern universities with a wonderful equipment and a great record for past achievement. While the phrase is striking yet if the truth were known it is probable that the father could have been a college president instead of a blacksmith if he had started that way. He was a good blacksmith and the son is a good college president. We wonder how much difference there is after all.

One of the gratifying signs of the times is the great advance in the membership of the Woman's club. The officers speak of a process by which those who in former years joined the club in order to be doing something or for social purposes, have dropped out and the real, progressive women of the city have taken their places. With a membership of 250 or more and pushing of a practical program of social betterment there is no reason why the Woman's club should not exercise as great an influence on the community as the Chamber of Commerce or any of the other clubs which are trying to help North Platte.

The Tribune editor would urge an early response to the suggestion of our city librarian that we give available childrens books to the library rather than give them storage space in our homes after they have served their purpose. The only way to get this done is to do it. If anyone thinks there is no need for these books he or she has but to sit a while by the librarian's desk after school some evening and watch the boys and girls come and go as they bring back the books they have read and select new ones to read. What looks of pleasure as they turn in a book they have enjoyed and what anticipations as they read over the

titles and select a book which they expect to like. It is an opportunity to do something for childhood and we should rise to the occasion.

The Tribune wants a correspondent in every community in Lincoln county. We have an offer to make to reliable men or women who will send us the items from their community. Just write us and ask for particulars as to what you should do.

Lincoln county needs a school nurse. The work done last year by the Red Cross was but a beginning and should be followed up by as vigorous a campaign as possible. The long-awaited report of the survey of Lincoln county schools by the school nurse last year, has not reached us yet. It will be doubly welcome if it comes before it is so old it is more or less out of date. The Red Cross is not in financial shape to employ a nurse and the county commissioners have not seen their way clear to stand the expense. No other organization unless it is the woman's clubs of the county could raise the required amount of money. Someone may have a plan which has not yet been announced. It would indeed be a blessing if the nurse could be secured.

The H. & S. reception held Saturday evening is but another mile stone in the upward progress of this city. While other business men are retrenching and idling away their time and opportunity, this firm is branching out. Their old quarters in the Brodbeck building were better than most similar concerns possess. They might have stayed there until prosperity drove them to action. But that is not their way of doing business. They took the step, leased downstairs quarters, furnished them magnificently and set to work to make their first year in the new location the biggest business year of their career. And watch them do it. They have set the pace for all North Platte business during this summer depression and they deserve leadership.

Those who have investigated the matter are approving the judgement of the county commissioners in the matter of the construction of the new county court house as far as it has qualities which were decided upon and they are the three of which almost every citizen of Lincoln county would approve. The court house must be fireproof; it must be large enough to serve a growing county for many years and it must be handsome enough to represent the real ideals of the people of the county. The walls are up and the beauty of the building as far as it has been built is generally acknowledged. Nothing but fireproof material has been used so far. The measurements of the building show that it is as big as any of the newer county court houses in the state, and some of them are getting pretty crowded even now. So far as they have gone, every one of the major requirements has been met. But they are about to the end of their funds. Not a cent has been wasted but they did not go far enough. The problem now is to complete the building and get the valuable records of the county into the fire proof vaults where they will be safe. That is the job which is taxing all the powers of the commissioners to accomplish.

When in Doubt--

On a financial matter you consult your banker or broker, if it is a legal question or contract, your attorney. In either instance you select men whose experience is broad, judgement sound and in whom you repose every confidence.

In consideration of your insurance affairs why not use similar judgment? I have made a careful study of the lines of insurance which I carry. I have had fifteen years experience, and feel quite confident to advise you on any insurance matter. I am just as glad to advise you with reference to policy you already have, as I am to advise you with reference to an

NOTICE TO WATER CONSUMERS

Water rent in District B is now due and payable at the Water Office and will become delinquent after Sept. 20th. All services where the water rent is not paid by Sept. 20 in District B will be shut off in accordance with the Water Ordinance. This gives about three weeks for payment of water bills and gives railroad men two pay days before Sept. 20. Please see your water bills are paid before Sept. 20th and do not ask for or expect an extension of time.

District B comprises all that part of the city west of Locust street and between the Union Pacific right of way and the Burlington right of way. **HERSHEY S. WELCH** Water Commissioner.

WEATHER CONDITIONS

Saturday was cloudy for this vicinity and it looked much like rain. Sunday was somewhat warmer, clearing up in the evening and ending in a good rain. The precipitation was .51. The highest temperature yesterday was 69 and the lowest last night was 40. Forecast says it will be warmer tonight and Wednesday.

North Platte is a cream center for this part of the state. During the pasture season it is said to ship out more cream than any other city on the Union Pacific railroad and that in addition to supplying the local demands for milk and cream and that of two creameries for butter and ice cream. At present the supply of cream has fallen off possibly 40 per cent below the mid-summer totals. As the supply falls off the price goes up. The falling off is seasonal and expected but came a little earlier this year than usual. At one time the price was as low as 21c but now it is up around 30 cents with prospects of going still higher. The cream check has been the salvation of many a family in Lincoln county and as the pure bred cattle become more common the amount of dairying done here will increase.

NOTICE TO HUNTERS.

I will allow no hunting on my place, known as the McCabe ranch, as I have leased all the lakes. Violators will be prosecuted.

Sam Fackler
