

BOB SIMMONS FAVORS

The "Farm Bloc" and will work with it for the interests of the farmer. The strengthening of Federal agencies that give credit and financial aid to the farmer.

A marketing system that will bring the farmer a larger part of the proceeds paid by the consumer for his products.

Rail extension, the reduction of rail rates, restoring the power of the State Railway Commission, doing away with the minimum rate and requiring the railroads to compete for business and serve the public.

Good roads, the development of our forest possibilities and the establishment and maintenance of experiment farms in the arid and semi-arid portions of the state.

Legislation regarding and limiting child labor and if necessary a constitutional amendment to that end.

The maintenance, strengthening and enforcement of laws rendering effective the 18th amendment.

The collection of the foreign debt and restriction of immigration.

The St. Lawrence Waterway project. Government aid in the reclamation of arid and semi-arid lands, by irrigation or otherwise when feasible and desired by the parties immediately concerned.

Economy in government consistent with progress.

Adjusted compensation and governmental aid to the sick, disabled and unemployed service men of all wars and their widows and orphans.

LOCAL FOOT BALL TEAM LEAVE FOR GAME WITH BAYARD

The members of the local football team accompanied by a few boosters from the school left this morning for Bayard. They will meet the fast Bayard team this afternoon. This game promises to be one of the hardest games of the season. They defeated the Scottsbluff team by a score of 46 to 7. North Platte goes into the game with the determination of winning having defeated them last year by a 42 to 0 score.

J. E. Sebastian transacted business in Sutherland yesterday. Fresh sauerkraut and limberger cheese at Marti's market.

The general singing was led by Miss Jane Pinder of Grand Island who is an accomplished violinist and used her violin to conduct the music.

NO LONGER IMPORT SULPHUR

Entire Supply Needed by the United States is Obtained Within Our Own Borders.

Deep under marsh land and quicksands, in which it is impossible to sink shafts, there have been for ages deposits of almost pure sulphur in Louisiana and Texas. For many years these deposits defied efforts to obtain them.

All the sulphur used in this country formerly came from Sicily, where the sulphur mines on the slopes of Mt. Etna had been worked for more than 2,000 years. It is only since 1896 that sulphur has been obtained in any appreciable quantities from our own sources of supply in Louisiana, and today, thanks to chemical ingenuity and acumen, all the sulphur used in this country is of native origin.

By far the greatest part of the sulphur produced in the world is used in the manufacture of sulphuric acid. Sulphur is a constituent of black powder, which is used largely in mining soft coal. It finds employment in the rubber industry as a vulcanizing agent. It is used in the bleaching of silk and wool.

The straw for use in straw hats is bleached with sulphur dioxide fumes, made by burning sulphur. Large quantities are used in the form of solutions and powders to combat injurious growths on grapevines. Its use as a medicine in the form of ointments is well known.

WHAT HE WANTED TO KNOW

Delinquent Subscriber Evidently Had Menial Use for Great Organ of Public Opinion.

The editor of the Smalltown Bugle, like some others of his brethren, experiences considerable difficulty in persuading his subscribers to come forward, from time to time, with the annual subscription price. "If it is agreeable to you," he finally wrote to one hardened delinquent, "I will accept two bushels of corn in payment of the amount you owe me." "I regret to say," responded Farmer Brown, in due course, "that in feeding my stock I have used all the corn I raised." "Dear Mr. Brown," began the next letter of the series, "inasmuch as you have used all your corn, I presume you have a large supply of corn cobs on hand, and I would be glad to accept a load thereof in payment of the amount due from you, as I can use them in place of kindling wood." "Mr. Editor," replied the farmer by the next mail, "your letter has been received and contents noted. What I want to know is this—what in Sam Hill do you think I'd want with your paper, if I had a supply of cobs to use in kindling fires?"—San Francisco Argonaut.

SUDDEN CHANGE OF OPINION

Or Possibly the Lady Had Really Been Enjoying Herself and Wasn't Aware of It.

At one of those banquets where almost every one is called on to make a short speech or to tell a funny story, a woman who sat near the speaker's table was heard to remark after nearly every story told:

"My goodness, that's another old one. Why don't they tell some new ones?"

Regardless of whether the speaker got a good laugh, she complained to her companion of the antiquity of the stories.

"I've never been to a worse affair. I wish they would cut it short. I'd rather have stayed home than come," she bitterly asserted.

In the midst of her harangue, the toastmaster beamed in her direction, and said:

"Now, there is Mrs. ——. She is one of the most charming workers in our organization, and I know we would all be glad to hear her speak." Dismayed, Mrs. — managed to get on her feet, and addressed the guests thusly:

"I really don't know what to say, only that I am so glad to be here with you. I just said to the lady sitting next to me what a perfectly splendid time I was having. I didn't know we had so many clever people in the organization who could tell such funny stories."—Indianapolis News.

Curiosity Satisfied.

I have been in the habit of patronizing a printing shop near home, and on each occasion I have noticed a man in particular who never spoke to me. He always had a scowl on his face. Recently I went to a nearby town by interurban and sat in the smoker. A man across the aisle spoke to me:

"You patronize the Thomas print shop, don't you?"

I said "Yes."

He said, "I thought I had seen you in there several times."

I said, "Tell me, who is that heavy-set man with the white mustache who is such an infernal grouch?"

"I guess you must mean me. I just had the mustache shaved off this morning," said he.—Chicago Tribune.

NOTICE

I wish to announce through your paper, to the party or parties who have started the rumor that I (the undersigned) have been soliciting subscriptions for V. A. Bradshaw, who is in the Daily News Auto Contest, do emphatically deny the charge and furthermore will pay \$100 to any one who will come forward and prove that I have asked anyone in the state or any other state to subscribe for the Omaha Daily News this year.

Yours Respectfully,
Mrs. Lillian Snyder,
408 West 9th, North Platte, Neb.

Everything first class and prices reasonable. Opposite Union Pacific Station.

Superintendent W. P. Snyder of the Experimental substation has called attention to the remarkable yields of Nebraska wheat at the Kansas Experimental station at Manhattan. The Experimental Substation at Lincoln has developed many new varieties of wheat. It gives these new varieties a number and the wheat is known by the number until it is ready to be named. Nebraska No. 6 and Nebraska No. 60 are the two leading varieties developed in this state. Kanred is the prize wheat of the Kansas Experimental Station and was developed at Manhattan. In a bulletin just issued by the Manhattan station it shows the yields of all the standard varieties of wheat at the Kansas station. Nebraska No. 6 stands second on the list with 38.2 bushels to the acre and Nebraska No. 60 stands third with 38.2 bushels. That was at Manhattan. On the same list appears Kanred wheat, the eighth down in the list with a yield of 37.1 bushels. And yet Kanred is known widely and considered to be the greatest variety for this part of the country just because it has been advertised, while both of the leading varieties of Nebraska developed wheat excel it. Advertising does pay.

Mrs. A. T. Stuart of Bridgeport is the guest at the home of Mrs. L. F. Huddart.

Will he be home To-night?

When the "picket line" must be "run" every night and morning, that is the burning question. Must a man who desires to work and earn a living for himself and family be deprived of the law's protection, and be left in constant fear? Must the wife who awaits his return each day be ever steeled to receive the ambulance or hearse?

It took courage on the part of the many loyal workers who remained at their posts, or took up the forsaken work of strikers, during the recent railroad strike, so that you and the rest of the American people might have transportation service—an essential to the life and comfort of every home, whether in the city or on the farm.

These men had the right to work—liberty means the right to work, and yet, in railroad centers of Nebraska, this right was openly challenged, for with this strike came "picketing" and with picketing—intimidation, threats, personal violence and destruction of property.

The history of all strikes is the same. In Nebraska City during the recent packing house strike, "picketing" became so violent the State was compelled to send troops to preserve order at great expense to the taxpayers of the State.

The horrible massacre of the twenty-six miners at Herrin, Illinois, last June would not have occurred if "picketing" had been stopped in its early stages.

If you want to put a stop to violence, intimidation and terrorism in labor controversies, you will vote "YES" on the "Right to Work" Law (Anti-Picketing Law) which will be submitted to the voters of Nebraska on Election Day, November 7th.

This law aims to remove the CAUSES of violence, BEFORE THE HARM IS DONE.

NEBRASKA MANUFACTURERS ASSOCIATION.

This Law Will Appear On the Ballot Like This:

No. 312 YES
 No. 313 NO

VOTE "YES"

Wheat Is Nature's Best Food

Nature has provided for man a great multitude of nourishing foods. The most perfect of these is wheat—the staff of life. Bread made from good wheat is perfect food. But the wheat must be properly ground or it will lose some of its qualities for health making.

SIoux LOOKOUT FLOUR

Is made right—by the latest designed milling machinery. With it the house wife can make those big crusty brown loaves which appeal to the members of the family.

AT ALL GROCERS.

\$5.50

\$5.50

You have been paying from \$10.50 to \$15.00 to get an inexperienced man to tack what is known as a "Ford Rubber" top on your car. This top re-cover could not be guaranteed and in most cases, you could put it on better yourself.

We are going to sell you a "Genuine Badger" Ford Top and Back Curtain for the above price. These re-covers are extra fine, long grain, motor cloth in leather grain print. If any of these tops go bad, we will give you a new one for it. All we ask you to do is to tack it on, which you can do in less than one half hour. We furnish you tacks and binding needed.

We would put these tops on for you but we haven't the room to work in. These tops are worth \$13.50 (honest value) put on. Here is your chance to get a good top and also save yourself \$8.00 at least.

The Platte Auto Trim.
