THE SALEM CHAUTAUQUA.

Have you seen the 1897 program? It is the best we have seen this season, and this fifth annual session, to be held August 7-15, will surely be the most successful this popular assembly has ever held, and this means a great deal, as past patrons will testify.

Rev. Sam W. Small, D. D., the noted orator, evangelist and wit, will again have entire charge of the platform, delivering two sermons and four lectures, two of them being brilliantly illustrated by means of the stereopticon. The illustrated ones being "The Foot Prints of Christ," Sunday evening, August 8th, and "Slums of the Great Cities," on the 10th, his other lectures being "His Majesty the Devil" and "The Making of a Man." These lectures are all new, never having been delivered before in this territory.

Dr. T. DeWitt Talmage, the most noted preacher in the world, will arrive in Salem on Saturday, August 7th, and will preach Sunday, the 8th, at 2:30 p. m., and lecture the Monday following at the same hour.

Prof. Chas. Lane, of the Georgia school of technology, one of the funniest and best of southern orators, will give two of his best lectures, and Prof. Arthur Hawks, of Baltimore, Md., who is called "the laughing philosopher," will also lecture twice. Mrs. Helen M. Gougar, of Indiana, will deliver three lectures, Prof. W. H. Dana, of Ohio, gives a lecture, several travel talks and superintends the chautauqua Sunday school; Prof. Saylor, of Lincoln, Neb., lectures on educational day, the 11th; Prof. J. U. Tschudi exhibits the marvelous moving pictures (the magniscope). Usual departments of instruction are in capable hands, the music director again being Prof. Amadoc, of Chicago, the best chorus master in America.

The Slayton Jubilee Singers, of Chicago, give a concert Monday evening, the 9th, and remain till the close of the season. They are composed of nine colored artists, the best colored troupe ever organized. Band concerts will be rendered daily and the session will close with Dr. Jahu DeWitt Miller, of Philadelphia, who gives a lecture 14th and sermon 15th. Season tickets are \$1.50 and tents rent for \$3.00 per season. O. W. Davis, Salem, Neb., will answer all inquiries.

A NATION'S GOOD WISHES.

The St. Louis Globe Democrat's special correspondent at Washington has the following to say of the feeling toward President McKinley: "The good will toward this president is phenomenal. The belief that 'McKinley means to do right' seems to be universal. Whenever there is criticism of the administration it is directed, not against the president personally, but against influences supposed to be surrounding and controlling. Democrats and populists and silverites darken the doors of the White House. Such extremists as Teller and Tillman do not hesitate to call and introduce constituents who want to talk about the patronage. Quite recently, when he was being pressed about a matter which would require the consent of the committee on military affairs, the president told these most interested to go and see Senator Cockrell of Missouri, the dominating spirit on the minority side of the committee. Not until the answer was brought back that the democratic economist would wave opposition did the president consent to do as desired. When he appointed the ex-vice president on the bimetallic commission he pleased the entire following of Mr. Bryan. And when, a few days ago, he named ex-congressman David B. Culbertson to a place on the commission to revise and codify the laws, the selection gave widespread gratification to the democrats. The president started in March with the good will of all, and up to this time he has steadily strengthened it by his words and acts.

TORNADO DRILLS IN KANSAS.

Caves Are Being Built Under School Houses.

We have fire drills in our public schools in the east, and very effective drills they have proved in more than one case of emergency. In Kansas they have no fire drills, or, if they have, we have still to hear of it. Out there tornadoes are more to be dreaded than fires, and the schoolchildren are now being trained in tornado drills, says the New York Sun.

When tornadoes strike a Kansas town everybody makes at once for prairies. It is the only way to escape death from flying doors and chimneys, falling trees and toppling buildings. Schoolchildren are trained to know this from the cradle, and on these occasions rush pell mell for the nearest bit of clear prairie attainable. But many children have been maimed and even killed in these terrible storms.

So they have started a movement throughout the state to have tornado caves built under the schoolhouses large enough to accommodate all the children while the blow lasts. And here comes in the tornado drill, which is already being put into practice.

It is very much like our own fire drill. The teacher sounds the alarm on the piano and the children all stand up. Then the march is played, and out they go in good order, down the stairs and into the cave.

Then let the winds blow! Let the entire building fall in ruins! The children are safe and have only to be dug out.
