## SOMETHING TO KNOW.

It may be worth something to know that the very best remedy for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This remedy is purely vegetable, acts by giving tone to the nerve centers in the stomach, gently stimulates the liver and kidneys, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c and \$1 per bottle at Taylor's drug store.

## WILL DEVORSS BADLY HURT.

Wednesday afternoon Will Devorss, of Aspinwall precinct, met with a very severe accident. He was assisting in threshing grain in the field south of Eugene Bonhotel's. It became necessary to transfer the water tank from one wagon to another. Will was one of six men to lift the tank. When the tank was lifted over the wagon to which it was to be transferred the men let loose of it, but the pump handle swung around and caught Will, holding him so his head and neck were caught between the tank and wagon standard. He was held in this position until pries were got and the tank pried up. When released he was apparently lifeless. He was taken home and Dr. Melvin sent for. The doctor found the injuries very severe, the head being badly cut and bruised and the neck twisted, but no bones were broken. It was some time before Will recovered consciousness. He has to be kept under the influence of opiates, as he suffers terribly. Dr. Melvin thinks he will recover, but it was certainly a very close call.

Steve Cooper is having bad luck with his new hack. He drove down to Shubert on the third with a big load of trunks, and in passing over a small culvert or bridge that stood up a few inches above the road level the front axle was badly sprung. Steve left the hack down there for several days, getting it fixed. After he got it home he had the top put on, but about the first time it was used Frank Titus broke the tongue, or rather finished breaking it, as the break showed it was an old one except about an inch square. Steve is wondering what is going to happen next. He keeps his rigs up in good shape, but accidents will happen.

The body of Mrs. Ward, wife of David Ward, who lives in Island precinct, was brought to Nemaha for burial Friday forenoon, the body coming in on the 9:30 passenger train. Mrs. Ward died Wednesday at 4 o'clock p. m. Her death was caused by cancer of the breast, from which she had suffered for a long time. Mr. and Mrs. Ward formerly lived in this vicinity, moving away in 1873.

At a meeting of the board of village trustees held Monday night, July 12th, the following action was taken regarding the old settlers' picnic:

Moved that the officers of the village board and the officers of the old settlers' association co-operate together in the interests of the picnic. Motion carried.

Moved that the chairman of the village board meet with the president of the old settlers' association and appoint committees for the picnic. Motion carried.

Moved that the village board tender the use of the park to the old settlers' association, and that all money collected by the different committees for stand rights, etc., be turned over to old settlers' association, and that the old settlers' associations pay all bills. Motion carried.

As there has been so much said and so many misrepresentations made regarding the finances at the old settlers' picnic last year, we publish a full statement from the finance committee:
