

The fact that a man stands well in the community where he lives is a good recommendation. J. M. Anderson is highly esteemed by the citizens of Johnson, and will draw many votes from other parties. He is well qualified for the position of county judge. The voters will make no mistake by electing him to that position.

W. H. Hill has been the most efficient deputy sheriff Nemaha county ever had. He attends strictly to business, and captures a larger proportion of the criminals he goes after than any other official Nemaha county ever had. He is deserving of election to the office of sheriff, because he has shown by his actions in the past that he is all right for that position.

Everybody has a good word to say for R. M. Gillan. A man that can be in business as many years as Mr. Gillan has in Auburn and make as many friends and as few enemies must be an honest, straightforward, reliable man. Such a man will make a good treasurer. We do not believe any man will regret voting for Bob Gillan for county treasurer.

M. H. Carman has made the best county superintendent Nemaha county ever had. He is raising the grade necessary for teachers to get a certificate, consequently we are getting a better class of teachers. He is doing a great deal of hard work to advance the interests of the schools of the county. He allows no threats to swerve him from doing his whole duty. He understands the needs of the schools better than any one possibly could who has not been in the office. He should receive the votes of all who favor good schools, regardless of party. He should be elected. Vote for him.

ONE DOLLAR TO 1899.

For a dollar bill The Semi-Weekly State Journal will be sent from now until Jan. 1, 1899. A good long time to get two big papers every week with all the news of the whole world; all the state news and in fact more news and general reading matter than you get in any other state paper. The Journal is spending money and effort in writing up the interests of Nebraska and setting our state's advantages before the people of the whole country. Nebraska's prosperity will bring thousands of farm buyers to our state. You should read the Journal which is not an Omaha paper nor a Lincoln paper, but a state paper in its truest sense. "What will be for the best interests of Nebraska?" is the first question asked by the Journal when called upon to decide. Every Nebraskan should do his best to keep the State Journal before the people and that best means by sending in One Dollar which will pay for the paper to January, 1899. After you read it send it to your friends in the east and let them see what great things we are doing in Nebraska. Send in your dollar to the State Journal Lincoln, Neb. The sooner you send the more papers you will get for your money.

A CURE FOR BILIOUS COLIC.

RESORCE, Severe Co., Ga.—I have been subject to attacks of bilious colic for several years. Chamberlain's Colic Cholera and Diarrhoea Remedy is the only sure relief. It acts like a charm. One dose of it gives relief when all other remedies fail.—G. D. SHARP, For sale by M. H. Taylor.

THE THREE EUROPEAN RACES.

Indubitable Evidence That There Are That Many.

Instead of a single European type there is indubitable evidence of at least three distinct races, each possessed of a history of its own, and each contributing something to the common product, population, as we see it today. If this be established it does away at one fell swoop with most of the current mouthings about Aryans and pre-Aryans; and especially with such appellations as the "Caucasians" or the "Indo-Germanic" race. Supposing for present peace that it be allowed that the ancestors of some peoples of Europe may once have been within sight of either the Caspian sea or the Himalayas, we have still left two-thirds of our European races and population out of account. And yet it is too early to discuss these events in the history of these races; that will claim our attention at a later time. The present task before us is to establish first of all that three such racial types exist in Europe.—Prof. W. Z. Ripley, in Appleton's Popular Science Monthly.

Match and Cigar.

There are several devices for combining match and cigar. One of these is a sort of peg, made of niter, sulphur, charcoal, flour and gum arabic, which is stuck on the end of the cigar. When you want a light, it is necessary merely to rub the tip of the cigar upon a rough surface. A perfumed match has been patented, the stick being dipped in oil of cassia. Of course, there are ever so many odd sorts of matches actually in use to-day, as, for example, the wax matches, which are employed in Europe to an extent vastly greater than in this country. Most of the wax matches are manufactured in Italy and Great Britain. They are made by drawing strands of fine cotton thread, 20 or 30 at a time, through melted stearine. This hardens quickly, and the tapers are rounded by pulling them through perforated iron plates. It then remains only to cut them into proper lengths and dip them into an igniting composition.—Philadelphia Press.

—A man who can't smoke or chew usually goes around with a toothpick in his mouth.—Washington Democrat.

The Smiths' Rotation in Office.

The post office situation at Adams, Mass., is an interesting one. Peter Smith, republican, has been nominated as postmaster to succeed his brother, Fred Smith, democrat. During the past four years Peter has been Fred's assistant, and Peter now very probably appoints Fred as his chief clerk for the next four years. It is a fair arrangement, and the patrons of the office are satisfied.—Manchester Union.

Towne—Consult a dancing master.—N. Y. Journal.

Spring Repartee.

"You," said the man, "are not so hot." The cucumber, thus rudely addressed, managed to remain cool and replied: "And you are not so many as you might be."

Advice from the Heart.

Barrow—That's a dainty wheel you have there, old man. I'll take a spin on it some day. By the way, what kind of a wheel do you think I ought to ride?
