This is the season when our farmer readers select their reading matter for 1898, and it comes to us almost as a duty to advise every farmer in this county to include the Iowa Homestead in the list, without fail. We know of no catalog that has a journal which better represents it than the Homestead represents good farming. Its usefulness is manifest on every page and in every column, and its Special Farmers' Institute editions, published monthly and sometimes twice a month consist wholly of the practical views and experiences of practical farmers who live and work on the farm. There is no editing, no theories, no "sidewalk" farming and no professional farm writing in them. They are just an interesting change of opinions on farm topics among farmers themselves. By all means see a copy of this week's Homestead and the Special Farmers' Institute edition that accompanies it, and then subscribe. Sample copies will be sent free to applicants. Address The Homestead Co., Des Moines, Iowa.

Brownville, Nebraska.

A family Christmas tree was held at the residence of Robert Frost last Friday night, but it came near being a costly tree to them. The tree had been trimmed with cotton and the presents all hung on it, and Bessie started to light a lamp on the organ near the tree, when the cotton on the tree caught fire and in an instant the tree was ablaze. Mr. Frost was out in the yard a short distance from the house, and hearing the alarm he ran in, stooped down and grabbed the block in which the tree stood and ran out doors with it. In a few minutes the cotton had burned off and the fire went out. There were a number of nice handkerchiefs on the tree and these were all burned, but the majority of the other presents were not injured, as the strings by which the presents were hung on the tree burned and let them fall to the floor. The carpet was set on fire in two or three places, and some of the presents that had been on the tree were laid on the bed and after awhile were seen to be on fire. Comparatively little damage was done, however, and later on the tree was brought back in, the presents hung on, and the family had their Christmas tree after all, with thankful hearts that so little damage was done.

**KLONDIKE.**  
What does it cost to get there? When and how should one go? What should one take? Where are the mines? How much have they produced? Is work plentiful? What wages are paid? Is living expensive? What are one's chances of "making a strike"?  
Complete and satisfactory replies to the above questions will be found in the Burlington route's "Klondike Folder," now ready for distribution. Sixteen pages of practical information and an up-to-date map of Alaska and the Klondike. Free at Burlington Route ticket offices, or sent on receipt of four cents in stamps by J. Francis, General Passenger Agent, Burlington Route, Omaha, Neb.

The Methodist Sunday school had a well filled Christmas tree last Friday night. Every child who had attended Sunday school three months or longer during the year was given a present, and every member of the Sunday school got a sack of pop corn and candy. Numerous presents were also put on the tree by those outside the school, although not so many as usual, as several private trees were held. A good entertainment was given and even Santa Claus appeared and assisted in distributing the presents. The church was crowded, a large number being unable to get seats.  
The Christian Sunday school also had a Christmas tree Friday night, which was well laden with presents. A good entertainment was given, in which Santa Claus and Mrs. Santa Claus took leading parts. The Sunday school children were all remembered with presents, as were numerous other persons.

He is in the drug business, and a member of the firm of Johnson Bros. of that place; and they handle a great many patent medicines for throat and lung diseases.
