71 MAIN STREET.

Wednesday evening between ninety and one hundred members and friends of the Church of Christ met at the parsonage and tendered their pastor a reception. A bountiful feast was spread, consisting of many delicious viands which the ladies of Nemaha know how to make especially appetizing, as the rapidly emptying plates testified. An easy chair, a valuable Moquet rug, and knowing we have light rather than darkness, a beautiful lamp, and a bountiful contribution to the culinary department were some of the substantial gifts well calculated to make our hearts glad. We solicit space in the columns of THE ADVERTISER to express our thanks to the many friends who added so much to our happiness. We trust our walk among them may be such that never a regret will be awakened in the minds of any that they took part in the festivities.

Respectfully,  
J. P. WALDRON AND WIFE.

We understand that Marshall Webb, who is an ardent pop, found quite a different state of affairs existing in the factory districts of the states he visited recently than he had been led to expect by the pop papers. He found factories running with full forces, operatives earning from \$2.50 to \$5.00 per day, and all apparently prosperous and happy. One tin plate factory employed 100 men. And yet it was but a few years ago that Bryan was running all over the country declaring that it was impossible to manufacture tin plate in this country.

W. W. Sanders, Notary Public. Penions papers of all kinds made out accurately. Legal documents drawn up. All business given prompt and careful attention.

We are anxious to do a little good in this world and can think of no pleasanter or better way to do it than by recommending One Minute Cough Cure as a preventive of pneumonitis, consumption and other serious lung troubles that follow neglected colds. M. H. Taylor.
