COL. BRYAN WAS EXCUSED.

He Told the War Investigating Committee That His Lieutenant Colonel Would Testify—Other Witnesses Examined.

Jacksonville, Fla., Oct. 21.—Gen. J. Wilson and Capt. Howell, constituting the sub-committee appointed to visit and report upon the conditions of the camp at Fernandina, made their report to the full commission yesterday. They declared they found it suitable in every respect for the purpose intended. The war investigation commission heard several of the professional female nurses at the forenoon session, including Miss Copeland, chief nurse at the Third division hospital; Miss Robbins, head nurse at the First division hospital; Miss Hubbard, head nurse at the Second division hospital, and Misses Walker and Waters, ward nurses.

Col. W. J. Bryan was the next witness called. He asked to be excused from testifying, requesting that his lieutenant colonel be examined in his stead.

W. T. Durbin, of the One Hundred and Sixty-first Indiana, said there were few complaints from his men and that they were generally trivial. He spoke especially of the grounds of the third division hospital. Replying to a question he said he thought it had been very difficult to get medical men of sufficient administrative ability to manage such institutions as the division hospitals.

Col. Letcher Hardeman, of the Sixth Missouri, also complained that the grounds of the Third division hospital had not been well kept.

Lieut. Col. Vifquain, a veteran of the civil war and a graduate of the military school of Brussels, of the Third Nebraska, said the regiment was excellently equipped, except that the tentage was poor. He also said the quality of the clothing was bad. The pork had also been wormy at times, and the beef tainted, but these had been exchanged. He thought the clothing better than in the civil war, but the rations were not so good as then. He also thought the camp entirely too much crowded. Other witnesses were examined at the afternoon session among whom were James R. Potts, a company commissary sergeant of the Sixth Missouri, and Private James T. James, of the Sixth Missouri. All expressed themselves as satisfied with their treatment. The commissary officers said the rations were abundant, but that occasionally the fresh meats were tainted owing to the heat. The privates found no fault, all saying they had enough to eat, and that generally the food was good.

OPOSES EXPANSION.

Carnegie, the Great Iron Magnate, Says It Would Retard the Industrial Career of the United States.

New York, Oct. 21.—Andrew Carnegie, just back from Europe, said in an interview yesterday:

If the United States is going to undertake the government of the Philippines and go in for expansion throughout the world, putting her hand in the hornets' nest of European rivalry, there can be no prosperous business. We shall be subject to wars and war's alarms. Business is the child of security and peace. The entrance of the United States as a new power in the far east will set every one of the present powers to a study of the question from a new standpoint. We shall be compelled to increase our navy. We must pay a large standing army, and there is neither rest nor security for us. Before the American people comes now the most serious issue since the issues of independence and secession. A false step now and the future of the republic will, in my opinion, be seriously impaired and its industrial career retarded. The development of one state in the union in peace and security will outweigh all the increase of profit we can get from foreign trade in any of the worthless possessions which we can attempt now to take. The Philippines have a certain trade which cannot be greatly increased. The wants of the people are few; barbarians are not customers; civilized people are consumers of our products.

INDIANS SURRENDER.

Kedskins Concerned in the Battle of Sugar Point Give Themselves Up to Newspaper Correspondents.

Walker, Minn., Oct. 21.—Probably the most unique and dramatic surrender in the history of warfare was that which occurred yesterday morning, just two weeks after the bloody battle of Sugar point, seven of the Indians concerned in that fierce onslaught appearing and giving themselves up to the newspaper correspondents, representing the various newspapers. The surrender was near the Bear island dock, and there was not a United States marshal or soldier within 15 miles. The Indians were brought back here in the evening by the steamer Flora. Two other reds were ready to surrender, but were too ill to be brought; two are already here and four others were to come in to-day. Old Bog-Ah-Ma-Ge-Shig and his son, however, refused to surrender. The Chippewas promise to go after them and bring them in dead or alive.

Fast Time to the Pacific Coast.

Kansas City, Mo., Oct. 21.—The Santa Fe railway will resume its fast passenger service between Chicago, Kansas City and California points on November 2. The trains will leave Kansas City every Tuesday, Thursday and Sunday during the winter season. Passes or second-class tickets will not be honored on the trains.

PITYING THE POOR.

A Tramp Who Would Not Take the Crust from a Needy Woman's Mouth.

Sometimes the tramp gets the better of the thrifty housewife. The mistress of a pretty little cottage at Sausalito—she only inherited about \$80,000, and so is obliged to be frugal—is the object of a little criticism from her friends because of her reputed parsimony. Last Saturday, as she was sitting on her piazza, overlooking the water, and waiting for Ted to come home, a passing knight of the road humbly solicited a bite. The young woman could not withstand the petition, so she went herself to the bread box, which was filled with freshly-baked loaves, and brought out to the waiting vagrant two slices of boardlike consistency which had been baked many days earlier. As she presented her bounty she felt just a trifle ashamed of it. "We are very poor ourselves," she said, in muttered apology.

The outcast received the crust with a courteous "Thank you," and turned away. A moment later he returned and handed the young heiress the crusts and also a nickel.

"I am very sorry for you," he said, in gentle tones of genuine sympathy.—San Francisco News Letter.
