ASTHMA IS PROGRESSIVE

in its tendency and forms a habit in the nervous system. In curing Asthma a new habit of health must be taught the nervous system and the old habit will fade away. The

ASTHMA

will go with it. In order to do this a new type of nutrition must be established through bettering the condition of the blood. Under Dr. Hayes' treatment new life comes into the blood. The recruited blood nourishes the very organs which made it, so that they make still better blood, and so the circle goes on until the diseased tissues are replaced by new and healthful ones, and Asthma is gone. Write to Dr. P. Harold Hayes, Buffalo, N. Y., for advice as to your own case.
