A POWERFUL SEARCHLIGHT.

One to Be Sent Immediately to Manila and Used to Light the Surrounding Country.

Washington, Aug. 26. - Modern inventions will be brought to play to insure communication between American troops operating in Luzon and to prevent night attacks on the American intrenchments. Brig. Gen. Greely, chief signal officer, sent Capt. Grant Squires, of the signal corps, to Manila for the purpose of making experiments with wireless telegraphy. With the Marconi device accompanying a column of troops, communication could be maintained with the military base, it is thought, at a distance of 40 miles.

The war department has contracted for a powerful movable searchlight, which, upon delivery next week, will be immediately sent to Manila. The searchlight will be mounted on intrenchments and used at night to light the surrounding country. The use of the light will, army officers say, prevent any surprise.

PORTO RICAN AFFAIRS.

nest Attention and Have a Plan Ready for Congress.

Washington, Aug. 26.—The president and Secretary Root are now giving consideration to the pleas of the Porto Ricans for certain reliefs from the hardships of the military administration. The recent disastrous harricane in the islands has accentuated the necessity of more liberal commercial intercourse between Porto Rico and the United States, if the Porto Ricans are to be elevated from the sad condition in which they find themselves through Spain's protracted misgovernment and misfortune.

The insular commission, which was charged with drawing up recommendations for the civil government of Porto Rico, has been at work for several months on a code of laws. Some 5,000 sections comprise the code, governing every possible contingency which might come under the jurisdiction of a alw court. The code was made up from the laws of the states and territories which were found most applicable to conditions in Porto Rico. One important feature of the code is a section which prohibits the formation of trusts or combinations and forbids the operation in Porto Rico of such combination formed elsewhere. This section has been drawn with great care and is supposed to be perfect in its design to accomplish the desired purpose.

Secretary Root will give Porto Rican affairs his earnest attention in the next few months, and when congress assembles will have a comprehensive scheme for the president to submit to the legislative branch.

ADDRESS BY M'KINLEY.

The President Makes a Short Speech at Ocean Grove, N. J.-The Philippine Policy.

Ocean Grove, N. J., Aug. 26.-President McKinley in an address here yesterday afternoon said: "I believe there is more love for our country and that more people love the flag than ever before. Wherever that flag is raised it stands, not for despotism and oppression, but for liberty, opportunity and humanity, and what that flag has done for us we want it to do for all lands which by the fortunes of war have come within its jurisdiction. That flag does not mean one thing in the United States and another in Porto Rico and the Philippines. There has been some doubt in some quarters respecting the policy of the government in the Philippines. I see no harm in stating it in this presence: Peace first, then with charity to all, establish a government of law and order protecting life and property and occupation for the well being of the people who will participate in it under the stars and stripes.

It will be the grandest day that Methodism ever experienced in America."

TOO ZEALOUS.

Secretary Root Will Give Them His Ear. Whippleton Was Getting Too Attentive to Business to Please the Boss.

"I wish," said the senior partner to the manager of the executive department, "that you would discharge Whippleton, that new man we put on a couple of months ago.

The manager was surprised. He showed it in his countenance. He was about to say something, when the head of the firm

I have made it a rule, as you have doubtless noticed, never to permit any of the men who work in this establishment to beat me here in the morning. For 20 years I have sat here at my desk, and watched the employes report for duty."
"Yes," the manager said, "it has become

always the first one here in the morning and the last one to leave at night."

"Exactly, That's why I want you to discharge Whippleton."
