**The Eminent Kidney  
and Bladder Specialist.**

The Discoverer of Swamp-Root at Work in  
His Laboratory.

There is a disease prevailing in this  
country most dangerous because so decep-  
tive. Many sudden deaths are caused by  
it—heart disease, pneumonia, heart failure  
or apoplexy are often the result of kidney  
disease. If kidney trouble is allowed to ad-  
vance the kidney-poisoned blood will attack  
the vital organs, or the kidneys themselves  
break down and waste away cell by cell.  
Then the richness of the blood—the albumen  
—leaks out and the sufferer has Bright's  
Disease, the worst form of kidney trouble.  
Dr. Kilmer's Swamp-Root the new dis-  
covery is the true specific for kidney, bladder  
and urinary troubles. It has cured thousands  
of apparently hopeless cases, after all other  
efforts have failed. At druggists in fifty-cent  
and dollar sizes. A sample bottle sent free  
by mail, also a book telling about Swamp-  
Root and its wonderful cures. Address  
Dr. Kilmer & Co., Binghamton, N. Y. and  
mention this paper.

The colored work in Biggle Berry  
Book is an immense aid to berry  
growers. It shows the leading berries  
true to size, shape and color. They  
were first carefully painted by an ex-  
perienced artist, and then reproduced  
by lithography at a cost of over one  
thousand dollars. Aside from the  
color work there are scores of rep-  
roductions made directly from photo-  
graphs of berries so that the reader  
may have an accurate idea of them.  
The price is 50 cents, free by mail; ad-  
dress the publishers, Wilmer Atkinson  
Co., Philadelphia.

**TORNADO DRILLS IN KANSAS.**  
Caves Are Being Built Under School  
Houses.  
We have fire drills in our public  
schools in the east, and very effective  
drills they have proved in more than one  
case of emergency. In Kansas they  
have no fire drills, or, if they have, we  
have still to hear of it. Out there tor-  
nadoes are more to be dreaded than  
fires, and the schoolchildren are now  
being trained in tornado drills, says the  
New York Sun.

When tornadoes strike a Kansas  
town everybody makes at once for  
prairies. It is the only way to escape  
death from flying doors and chimneys,  
falling trees and toppling buildings.  
Schoolchildren are trained to know this  
from the cradle, and on these occasions  
rush pell mell for the nearest bit of  
clear prairie attainable. But many  
children have been maimed and even  
killed in these terrible storms.

So they have started a movement  
throughout the state to have tornado  
caves built under the schoolhouses large  
enough to accommodate all the children  
while the blow lasts. And here comes  
in the tornado drill, which is already  
being put into practice.

It is very much like our own fire drill.  
The teacher sounds the alarm on the  
piano and the children all stand up.  
Then the march is played, and out they  
go in good order, down the stairs and  
into the cave.  
Then let the winds blow! Let the  
entire building fall in ruins! The chil-  
dren are safe and have only to be dug  
out.
