

GOEBEL'S END CAME.

After Hanging in the Balance Nearly Five Days He Passed Away.

Lieut. Gov. Beckham Was at Once Sworn in as Governor to Make the Contest Against Taylor—Move to Erect Monument to Goebel.

Frankfort, Ky., Feb. 5.—William Goebel, democratic claimant of the executive chair of this state, died at 7:35 Saturday night. The end had been expected since morning. He continued to sink during the day, the bulletins of the physicians becoming more and more alarming. When announcement was made of his death in the evening many of his supporters wept. It has practically been decided that the remains of Gov. Goebel will be buried at Frankfort, in the cemetery overlooking the Kentucky river, where lie the remains of Daniel Boone, Vice President Richard Johnson and several Kentucky governors, eminent jurists and soldiers.

Beckham Sworn in as Governor.
Frankfort, Ky., Feb. 5.—Exactly one hour after the death of Mr. Goebel, J. C. W. Beckham was sworn in as governor of the state, the oath being administered by S. J. Shackelford, clerk of the court of appeals.

Alonzo Walker Liberated.
Frankfort, Ky., Feb. 5.—Alonzo Walker, the stenographer who was placed under arrest on the charge of inciting soldiers of the state guard to mutiny while pinning a notice of a proposed application for an injunction upon the door of the office of Gov. Taylor, was released yesterday morning. The release was not made in response to the writ of habeas corpus which Sheriff Sutter tried in vain Saturday to serve upon Gov. Taylor. The latter concluded that Walker had remained in custody for sufficient length of time and told him to go home. The charge of inciting to mutiny has not been quashed, but Walker may not be brought before a court-martial as was at one time contemplated by the officers of the state guard.

Taylor Offers \$500 Reward.
Frankfort, Ky., Feb. 4.—Gov. Taylor has personally offered a reward of \$500 for the arrest and conviction of the man who shot Gov. Goebel. Gov. Taylor said the authorities of Franklin county, in which the crime was committed, have not requested him to offer a reward officially, and he therefore offers \$500 as an individual.

Taylor Has His Own Operators.
Frankfort, Ky., Feb. 4.—Gov. Taylor has proved against the delay and inconvenience of receiving and sending telegrams in his present exclusion quarters, by means of messengers. He has had two wires run into his office and has his own operators within the office.

Judge Cantrell Issues a Writ.
Frankfort, Ky., Feb. 4.—Judge Cantrell has issued a temporary injunction restraining Gov. Taylor from interfering with the legislature and from removing the seat of that body to London, Ky.

FOR PENSION LAW REVISION.

Commissioner Evans Says the Two General Laws Are Burdened with Too Many Complicated Decisions.

Washington, Feb. 4.—Commissioner of Pensions Evans was heard by the house committee on invalid pensions relative to pension legislation. Mr. Evans expressed the belief that the time had come for a revision of the pension laws. The two general laws had become complicated by so many decisions and constructions that he believed it to be essential to have a general revision in order to get at the real meaning of the law and the desires of congress toward the pensioners. He had therefore recommended a commission to revise the pension laws and he believed such a body could do its work and report to congress by next December. Mr. Evans was asked as to charges that had been made that some special commissioners who investigated widows claims asked insulting questions of these widows. The commissioner vigorously denied these charges.

HIS SALARY TO CHARITY.

New Mayor of San Juan Sets an Example That Might Be Followed on This of the Water.

San Juan, P. R., Feb. 4.—The installation into office of the newly-elected city officials took place Friday. Mayor Egoeque, who was the republican candidate, refuses to accept the salary of his office and announces that he will devote it to charity. The republicans carried San Juan by a majority of 1,080, the total number of votes cast being 1,837. The city council now stands ten republicans and five federals. The election laws entitle the minority party to one-third representation in the council. The federals, it is alleged, shrewdly tricked the republicans in the election by voting on the republican ticket, for light weight, inexperienced men and freezing out of the council five of the best republican candidates.

THE BABY'S CRY.

It Has a Language Which Conveys a Knowledge of Physical Ailments.

The notion that a crying baby is a healthy one, like many popular beliefs, is true in a measure, but may be dangerously misleading. A baby that never cries would probably not live, or would be a puny and ill-developed specimen. A lusty bawl now and then is necessary as a species of lung gymnastics—the only one possible to the infant. So a little wind in the stomach, or a little discomfort from the clothes, or even a little bad temper, may be useful, if it provokes crying.

But we should learn the language of the cry, since crying is the chief method the baby has of communicating with its elders and telling them what is wrong. While we learn not to be unduly solicitous when the lungs are merely being exercised, we must learn not to neglect an appeal for relief.

When the cry is constant, and is not to be stopped by any of the ordinary distractions, it often means earache. Hunger also announces itself by persistent crying, but this appeal ceases the moment food is given. The cry that comes after eating, and that is excited by indigestion, is more or less intermittent or paroxysmal, and when there is colic the baby moves his body about, instinctively seeking to shift the pain, which such wriggling will often do.

Pain in the head is expressed by a series of sudden shrieks, loud and sharp, in the intervals of which the child is quiet and often somnolent, or whimpers a little.

A loud, sudden cry, occurring during sleep, and possibly not even waking the child, is often a sign of beginning joint disease. This disease is rare, however, in young babies.

A fretful baby, crying at the slightest provocation or without apparent cause, is ill at ease and may be sickening for some definite illness.

When a child invariably follows a cough with crying there may be pneumonia or pleurisy, the movement produced by the cough causing pain in the chest. When, however, there is fluid or other effusion in the chest or lungs, interfering with respiration, the baby cries but little, seeming to know that it has no breath to waste. A hoarse cry is indicative of laryngitis, and this, when more pronounced, is the croupy cough that mothers dread so much to hear. A nasal tone in the cry, like that in the voice of older children, is a sign of some obstruction in the nostrils.—Youth's Companion.

A War Speech That Failed.

John Augustus O'Shea used to be in considerable request as a lecturer on his military experiences. Once at Dumfries he came upon the platform wearing in his buttonhole a daisy, which he quietly removed and held up. "Ladies and gentlemen," he began, "I hold in my hand a 'wee modest flower' I plucked this evening from the grave of Robert Burns." The audience was interested and became enthralled as the lecturer went on to speak of the national poet. Then, suddenly recollecting that Burns had nothing to do with his subject, he stopped abruptly. "And now," said Mr. O'Shea, "I will proceed to relate my experiences in the war." But by this time he had thoroughly engaged the sympathies of his listeners, who would not hear of another subject. "Never min' the war, sir," they vociferated; "gie us Robbie Burns!" And he did. This extempore oration afterward became one of the most popular of Mr. O'Shea's lectures.—London Chronicle.

THE OLDEST MAN IN AMERICA

Tells How He Escaped the Terrors of Many Winters by Using Peruna.

Mr. Isaac Brock, Born in Buncombe Co., North Carolina, March 1, 1788, Says: "I attribute my extreme old age to the use of Peruna."

Born before United States was formed.
Saw 22 Presidents elected.
Pe-ru-na has protected him from all sudden changes.
Veteran of four wars.
Shod a horse when 99 years old.

Always conquered the grippe with Pe-ru-na.
Witness in a land suit at age of 110 years.
Believes Pe-ru-na the greatest remedy of the age for Catarrhal Diseases.

Isaac Brock, a citizen of McLennan County, Texas, has lived 111 years. He now lives with his son-in-law at Valley Mills, Texas.

In speaking of his good health and extreme old age, Mr. Brock says:

"After a man has lived in the world as long as I have, he ought to have found out a great many things by experience.

"One of the things I have found out to my entire satisfaction is the proper remedy for ailments that are due directly to the effects of the climate.

"During my long life I have known a great many remedies for coughs, colds, catarrh and diarrhoea. I had always supposed these affections to be different diseases, but in reading Dr. Hartman's books I have found out that these affections are the same and that they are properly called catarrh.

"I had several long sieges with the grip. At first I did not know that Peruna was a remedy for this disease. When I heard that la grippe was epidemic catarrh, I tried Peruna for la grippe and found it to be just the thing.

"As for Dr. Hartman's remedy, Peruna, I have found it to be the best, if not the only, reliable remedy for these affections. It has been my standby for many years, and I attribute my good health and extreme old age to this remedy.

Isaac Brock,

Messrs. Swanson Rheumatic Cure Company, Chicago, Ill., U. S. A.: Gentlemen—Your last shipment and communication received. I am very much pleased with the information that you have so kindly given me.

Please find enclosed bank draft to the amount of £412 10s, for which send me twenty-five (25) gross of Swanson's "5-DROPS." Ship same as before in order that there may be no delay, as this medicine will be greatly needed before it reaches us. The last shipment is almost disposed of, as the medical department of our army uses large quantities. This order is entirely for use in the army.

I have been told that our success on the battlefield is due to a certain extent to the use of "5-DROPS" Rheumatic Cure, which has relieved and prevented a great deal of suffering among our men from Rheumatism, Neuralgia and other acute pains caused by exposure. Your "5-DROPS" is as good as a Transvaal soldier! In one of the battles, a small quantity of "5-DROPS," together with other medicines, was captured by the English, which was a great loss to our men. The Boer's won't do it again. I am, respectfully yours,

PETER HAAS.

"5-DROPS" is the most powerful specific known. Free from opiates and perfectly harmless.
