The Eminent Kidney and Bladder Specialist.

The Discoverer of Swamp-Root at Work in His Laboratory.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Binghamton, N. Y., and mention this paper.

The Nebraska Advertiser
BOYHOOD DAYS OF MOY KEE.

Chinaman Gives a Description of His Childhood in His Home Country.

"When I was a boy," said Moy Kee, tea merchant, laundryman and interpreter, "I went to school in my native village of Shin-King, 87 miles from Peking. I was seven years old when I started to school and, of course, the teacher was a man. We sat on stools with desks before us and studied aloud. At ten years old I could write very well, and had to learn every word of a long lesson by heart. The teacher had a stick, and sometimes, but not often, he would punish a boy, either by striking him on the hand or on the seat of his trousers.

"There are no bad boys in China as there are in this country. The boys are respectful and polite to all who are older than themselves, and while they have their plays and their fun, they do not think it fun to hurt anyone.

"The boys here in America do not know what school hours are. I went to school early in the morning before the birds began to sing. After that we went to breakfast and then to dinner, and in the evening to supper. Those were long, long days, the boys here would say, but the Chinese boys did not say anything about it. We just sat on our stools and sung out our lessons all at the same time as loud as we could.

"Vacation came along in the harvest time when the rice was gathered. Then we played at flying kites. We did not, as boys do here, fly kites any time. No, there was a season for it, and we flew them at no other times. The boys in China walk on stilts just as boys do here, and play at blindfold, hide and seek and leap frog, but all in a different way from here.

"We had great sport fighting beetles. We would find these in the fields and train them, to fight, and we would lay wagers on which would win just as you do here on prize-fighters.

"No neighborhood in China can afford to have a bad boy in it. Suppose at Chinese New Year's, when we are all shooting firecrackers, some one would shoot a revolver. There would be great trouble. Not only would the one who shot the revolver be punished, but his relatives and neighbors and the magistrate of the district would be punished or reprimanded, because in China such things must not happen. A stranger could walk through my village day or night with no one to hurt him. He would be safe all the time. It is not so in this country.

"We had great sport in shooting at sparrows with bows and arrow, and nobody ever shot at persons, as some boys do here with airguns. The boys in China laugh a great deal, and laugh very loud sometimes, but they have plenty of sport without hurting anyone."—Indianapolis News.

HOLINESS CAMP MEETING.
