UNCERTAINTY ABOUT CHINA

sia's Proposal to Retire to Tien Tsin.

Washington, Sept. 4 .- Following its announced policy, the state department is preserving silence as to the progress of the negotiations now afoot respecting the withdrawal of troops from Pekin. It is gathered, however, that up to date no definite responses have been received to our last communication to the powers on this subject. It is stated that, in all probability, at least a week will be consumed in diplomatic exchange. In that time one or two things may happen. Russia may yield to what

CALIFORN'A'S BIG TREES.

Agricultural Department Says They Are the "Grandest, Largest and Majestically Graceful" and the Sourcest.

Washington, Sept. 4 .- The department of agriculture has issued a report of the big trees in California that brings out some interesting and new conclusions. It shows that the dimensions of the big trees are unequaled; that their age makes them the oldest living things. They are described by the report as "the grandest, largest, oldest and most majestically graceful of trees" and the scarcest of known tree species, with the extreme scientific value of being the best living representatives of a former geologic age.

Special Ambassador from Kwang St Reaches San Francisco and Speaks to His Countrymen.

San Francisco, Sept. 4.-Leong Kai Tinn, who claims to be a special ambassador of the deposed emperor of China, Kwang Su, delivered an impassioned address to a large audience of his countrymen in the Jackson street theater. Senator Clark and Prince Henry.

New Religious Movement.

"Whole World Soul Communion" is the title of a new religious movement whose head in Chicago is Mrs. Mattie Grupp, 46 South Ada street. It is a sect which believes that the world is now on the verge of a new dispensation; that the second coming of Christ is immaterial if, by a system of time tables adjusted to all parts of the earth, the whole world can be brought into soul communion at the same moment of time.

Development of the American Schooner.

A giant schooner, capable of carrying 5,000 tons of coal, has been launched at a Maine port. From a two-master of 350 tons the American schooner has been enlarged to a sixmaster of 2,700 tonnage, in whose double holds can be stowed 20 times the cargo of former days. The crew of the new ship will number only 14. Sails and anchors are handled by steam-hoisting gear, and the vessel is provided with electric bells, telephones and steam heat in the cabins.

Interesting Pension Statistics.

Since the close of the war of the rebellion the United States government has paid in pensions to union soldiers more than \$2,400,000,000. At present the government is paying \$144,000,000 a year for pensions. Of this sum \$140,000,000 goes to the army and \$4,000,000 to the navy. Under the present law a soldier's widow is entitled to a pension of \$8 a month. Names are being taken from the pension rolls faster than they are being added. In 1867 the expenditures for pensions were \$27,000,000.

the powers and refrain from carrying out her purpose to withdraw from Pekin or the United States forces also will be marched out. It is clearly the wish of our government that the first of these lines of action shall be taken.

The quartermaster's department has sent to Taku enough supplies for that department to furnish the 5,000 troops in China with all necessaries from September 1 until May 1. All of these supplies will be in China within the next 30 or 40 days. It is somewhat doubtful whether Taku will be made the site of a large camp. as the reports received by the quartermaster's department indicate that the facilities at this place are not very good, there being an especial lack of buildings for storing and warehousing the supplies. While it is possible that a small detachment will remain at Taku, the belief at the war department is that the main body of troops will be wintered at Tien Tsin.
