BRYAN'S MANAGER, JONES, **CN "IGNORANT FOREIGNERS"**

He Said that "Ignorant Foreigners" Comprised Fully One Half of the Number of Votes Received by McKinley.

Deliberate Assertion of Democratic National Chairman Jas. K. Jones, that "Belinved Devontly that Bryan Han been Elected and Was Swindled Out of the Presidency."

"He Believed that in 1900 the Bimetallic Forc's Would Win a Great Victory-His Declaration That the Principles of 1896 Are Absolutely Essential to the Welfare of the Country."

He told how the failroads, the banks and the bondholders, arrayed against Bryan with a campaign fund the like of which was never b fore seen in this country, and which was used invishly. Predicting that the Republican party
would drop the idea of the gold standard and endeavor to bring about bimetallism, the Senator said "the McKinleyites saw

the handwriting on the wall." "What has become of the promised prosperity?" the Senator asked.

"Mr. McKinley seems to be advance ing, but the prosperity is not coming with him." Senator Jones said "the gold-ites had been put on notice." He believed "that in 1900 the bimetallic forces would win a great victory. Rising prices always bring prosperity, declining prices adversity. The repeal of the Sherman act had been followed by a decline of 10 per cent in prices. The cause of it was the striking down of one-half of the metallic money of the world." Senator Jones concluded by asserting his belief "that the principles he spoke for were absolutely essential to the welfare of the

> In a published letter issued at Topeka. Kan., ex-U. S. Senator Peffer of that State says one of the principal reasons why he leaves the Demo-Populist party is that it is not fit to govern the country. His exact words are:

"The Democratic party is not fit to govern this country under modern coaditions of universal freedom. Look back upon the second administration of Presi dent Cleveland. Upward of \$250,000,000 in United States bonds were sold without special authority of Congress to procure gold for the redemption reserve, Most of the bonds were sold to or through syndicates of speculators at enormous

The treasury now holds nearly, if not quite, \$450,000,000 in gold coin and bullion, and there is plenty of money in the country for the

transaction of the people's business." On the Philippine question Mr. Peffer says: "The insurrection of Aguinaldo and his followers must be completely and permanently suppressed before civil government can be permanently established. In the meantime the President is exerting every effort to preserve order and protect

all peaceably disposed persons. "As before stated when one sovereign power cedes territory to another, the alto the new sovereign. Bryan's Utterances Wholly Inconsistent with the Practice of Democrats. Who Have Invariably Suppressed the Colored Vote

The verification of theory is practice, the test of sincerity is conduct. When a person or a party preaches one thing and practices another, there is no excuse for being deceived as to his honesty. Four self-government," is obvious hypocrisy. years ago when Mr. Bryan captured the Chicago convention by his eloquent "cross and crown" speech on the free coinage of silver, there was plenty of room for doubting the soundness or even the sanity of his proposition, but it was difficult to question his sincerity or the sincerity of the party which nominated him. However bad their logic, their theory accorded with their practice. The party as then organized, so far as it had the power had practiced what it was then preach-

The Southern States are the backbone and body of the Democratic party in practice. They are the States where the party is most completely devoted to Mr. Bryan and his doctrine, and they are also the States where the party is and has always been in most supreme control. It is in these States, therefore, that we must look for the practice verifying party principles. These States were the home of the greenback movement, of the wildcat banks, and they were and are the hotbed of free silver; therefore in advocating 16 to 1, Government paper money and the overthrow of the national banks, Mr. Bryan is entirely consistent with the practice of his party as at present organized.

In his speech accepting the nomination for President, at Indianapolis, however, he preaches a new gospel for Democracy. It is not money and banking this time, but it is "Liberty," the "consent of the governed," and "equal political rights," regardless of race, etc. Here are a few extracts. How do these professions accord with Democratic practice, where its control is supreme?

A very brief glance at Mr. Bryan's eloent utterances and the thirty years' ctice of his party conclusively demonates one of two things: either that | was only 1/2 cent a bushel below the high | heaped down and running over.

Mr. Bryan is insincere and is merely us-'ing these "liberty phrases" to catch FACTS ABOUT THAT votes where political rights are more advanced than in the Democratic States, or else he does not represent the Demoeratic party at all. The party's practice for a generation speaks infinitely louder than Mr. Bryan's words. What the party has always done and is now doing. Investigation by Father Malone, it may be relied upon to do if elected to power. Until the States where Mr. Bryan's party reigns supreme show some intention of practicing these "golden precepts," their declaration in national platforms and candidates' speeches, may properly be taken as only so much mate-

rial for political deception. It is not a question of whether the enfranchisement of the negro was a wise or unwise policy, but it is a question of common political honesty. If the party believes, as its practice shows, that the negroes are an inferior race and cannot with safety to our institutions be admitted to political rights, to proclaim the doctrine that the "Crentor never denied

Some of the Democrats in the South who are more frank and honest than Mr Bryan, are already repudiating any pre tense of seriously living up to his ethereal political declarations. The Macon, Ga., Telegraph, for instance, frankly de clares its unwillingness to take Mr. Bry an seriously in this "consent of the gov erned" talk and says:

"It is all sweet and nice enough to indulg on Fourth of July occasions in the generalities about the 'consent of the governed, about 'inalienable rights,' about the equality about 'inalienable rights,' about the equality of all men at birth, and so forth, just as our forefathers did who owned staves and who robbed the Indians of their land, but it is another matter when you try to apply it to the Negro, the Indian, the Kannka and the Filipino. We of the South are contending for our own, and we are going to bave it. The Negro has nothing that we want that was not taken from us by force and given to him. He has no land, he has no birth right, no heritage—nothing but a right to help govern which was given wrongfully to him. When we take the ballot from him we leave him in a far better condition than he found himself when he came among us as a result of Yankee thrift and speculation."

The Macon Telegraph, with real South-

The Macon Telegraph, with real South ern frankness, tells the simple truth about the Democratic position on this subject. Its statement is supported by both the theory and practice of the party wherever it is in power. Moreover the Democratic party has never been dishonest enough to pretend to believe in the political enfranchisement of the inferior races, and Mr. Bryan's sudden admiration of Lincoln and advocacy of Garrisonian principles is a personal flight in political oratory, which has no relation to the past practice or future intention of the present Democratic party. If Mr. Bryan should be elected the offices would jeer at these "equality phrases" as empty generalities. They evidently regard these here Mr. Bryan's cunning is not as wise as the Telegraph's frankness. Honesty is always respected and such cheap cunning as Mr. Bryan's Indianapolis speech reveals will fail to deceive. The American citizens are not ignorant Filipinos, name of "Lincoln" and "political liberty" are too sacred to be flippantly used in such a cause. The American people have some sense of the fitness of things.

He is tired of Bryan and Bryanism and here is why he has advantage over the allied powers. left the Popocrat fold:

"Mr. Bryan's unparalleled campaign form and his insistence on the adoption of that platform at Kansas City," said Senator Stewart, "induced the people to suppose the campaign of 1900 would be conducted on the issues of 1896. In this way they were mistaken. An hallucination induced Bryan to make war on an army of ghosts and hobgoblins, which a diseased brain created. His instinct, which has formerly led him to consider realities, departed. He sought his closet in pursuit of phantoms, and strung together ten thousand words, which he gave to the public at Indianapolis. He omitted all mention of the issues of 1896 and summarized the paramount issue of the present campaign in a pledge to the Tagal Guerrillas."

Whatever the direct result of Senator Stewart's secession from the fusion alliance in Nevada, the rapid spread of the Western revolt against Col. Bryan's Indianapolis program introduces an element of doubt into the canvass in Nevada, Colorado, Montana, Idaho and Utah which was wholly lacking four years ago. Put on the defensive in one and all these former strongholds by an attempted change of issues, and gaining no material strength elsewhere by the sudden about face of his acceptance speech, it is easy to see the stamp of genuine inspiration on Mr. Stewart's prophecy that the Nebraska leader's present "anti-imperialistic" canvass is doom-

Nevada silverites, what are left of them, are bothered about the determination of Senator Stewart to support the policy of the administration. Surveyor General Kelly says: "I think Jones will go next," and Sam Davis, the acrobatic humorist who conducts the Carson Appeal, is State controller and engages in various occupations, meanwhile expresses his ideas in the one sentence: "The Appeal will blister Stewart."

Lord Salisbury's Dip'omatic Plans-President + ckinley s Independent Policy-Our Course Regarding China Tells the Story.

Rev. Thomas H. Malone of Denver writes from London his information and opinion on the relations between the United States and Great Britain. The letter is the more significant because four years ago Father Malone's sympathies were strongly with the free silver cause and his influence was cast on the side of Bryan. For some time this widely known priest has been abroad and his facilities for judging of what are the actual relations between the two governments have been exceptionally good. The letter is addressed to Mr. R. C. Kerens, the Missouri member of the Republican national committee. Father Malone writes:

"Mr. McKinley's attitude during the present crisis in China must be sorely disappointing to such men as Hon. Bourke Cockran and others who have a special object in making it appear that the President has really if not nominally entered into an alliance with England. "Mr. Cockran and those who think with him are well aware that if the popular mind can be led to believe Mr. Mc-Kinley's administration is committed to the fortunes of England the Irish and Germans of the country would resent his attitude to the extent of throwing their votes against him at the polls.
