TOPICS OF THE DAY.

What She Probably Means.

And now Mrs. Corbett says that she will shoot James on sight. What she probably means is that she will shoot a few sight drafts at him.

Maxim's Rare "Philanthropy."

Lord Salisbury recently characterized Hiram Maxim, the gunmaker, as "the man who had prevented more men from dying of old age than any other person that ever lived."

World's Finest Bicycles.

Humbert's widowed queen, Margherita, of Italy, has the most beautiful bicycle in the world. The wheels are of gold and the frame is richly inlaid with jewels and mother of pearl.

Due to Excessive Tea Drinking.

Insanity has for years been on the increase in Ireland, and a medical commission declares that the increase of insanity and melancholia is largely due to excessive tea drinking.

Florida Introduces an Innovation.

At the election in Florida this year the democrats will indicate their preferences for appointments to be made by the governor, the nominee having agreed to respect their choice.

Galveston and Johnstown.

The amount collected for the Johnstown sufferers was \$2,915,346.30. Galveston's death list is four times as large as that of Johnstown and the destruction of property is immensely greater.

The Kaiser's Electric Cars.

The German emperor has commissioned a German manufacturer to make for him three electric cars of different shape and design, in one of which he intends to travel to the summer maneuvers in Saxony.

The Velocity of Light.

The velocity of light is 192,000 miles in a second of time. From the sun light comes to the earth in eight minutes. From some of the fixed stars of the twelfth magnitude it takes 3,000 years for the light to reach us.

Dawes Would Succeed Gage.

The Philadelphia Ledger says it is generally understood in Washington that Mr. Dawes, now controller of the currency, will be secretary of the treasury if Mr. McKinley is re-elected, as Mr. Gage wishes to go into private business.

Banks Her Money in England.

Queen Christina, of Spain, is in the habit of sending a confidential messenger all the way from Madrid to London for the purpose of depositing her wealth, which she keeps in the Bank of England. Although she is entitled to draw from the Spanish treasury \$200,000 a year, she has not, owing to the straitened circumstances of Spain, drawn a cent of the money.

Miss McKinley Is Independent.

President McKinley's niece, Miss Grace McKinley, has arrived at Middletown, Conn., to begin the task of earning her own living. Miss McKinley has determined not to remain any longer a beneficiary of the funds of her father, Abner McKinley, of New York, or her uncle, the president, who has insisted in aiding her to secure an education at Mount Holyoke college.

Protection for Animals.

The present day attitude of man towards the brute creation is something for the pessimist to ponder over. The modern philanthropist not only loves his neighbor as himself, but loves his neighbor's dog, too, and he would be almost as quick to interfere in that animal's behalf as he would in that of a beaten child. The wings of a bird are more to be longed for than ever before, because their possessor is now protected from the man who would eat or cage him and the woman who would wear him.

Frozen Meat from Australia.

To demonstrate that frozen Australian mutton can be shipped in good condition to this country a spring lamb killed and dressed in New Zealand has been sent to an importing firm in New York city. It reached there on the steamer Majestic, after transportation of 17,000 miles. It was good and solid despite its long journey of 70 days. In view of the fine quality and the cheapness and abundance of lambs in Australia the experiment was regarded with much interest by local butchers.

The Growth of Suburbs.

The population of East St. Louis is shown by the census to be 29,653, which places the unobtrusive suburb of St. Louis among the leading cities of Illinois in population. The increase is the greatest of any Illinois city, it being 95:50 per cent. over 1890, when the city had 15,169. The growth of East St. Louis is the result of the growth of St. Louis, and is an illustration of the phase of the recent tendency of population. The concentration in the cities has been the most notable feature of the census.

WILL BENEFIT AMERICA.

Our Attitude Toward the Chinese Will Make the Way Open for Advantageous Treaty Arrangements.

Washington, Sept. 25.—The Chinese minister has not heard from Li Hung Chang or Prince Ching since the purposes of this government were made known to them. Minister Wu continues to express earnest hope that the United States will take the lead in bringing about a settlement. Aside from its benefits to all the powers and to China, the minister says it would establish lasting bonds between this country and China and would pave the way for treaty relations of the most advantageous character for American commercial interests.

It is now understood that Gen. Chaffee's military force will be reduced to about 1,500 men. This contingent, being specially known as a legion guard, will not be subject to the orders of anyone save the United States minister resident, either Gen. Chaffee or Gen. Wilson, probably the latter, and not being a part of the military forces will not be under the command of the German field marshal, Count von Waldersee.

Empress An Still Defiant.

Shanghai, Sept. 25.—It is believed in official circles here that Prince Tuan has been or will be promoted to membership in the grand council, and that the tatal of Shanghai will be appointed provincial judge with the notorious boxer, Kang Yi, as his deputy here. The foreign officials are understood to be protesting to the Yangtze viceroys against these appointments.

London, Sept. 25.—According to the Pekin correspondent of the Daily News, wiring September 16, the Chinese declare most positively that the empress dowager and the emperor will in no case return to the imperial palace in Pekin, as they hold that it has been desecrated by the intrusion of barbarians.

Will Germany Withdraw Demand?

London, Sept. 25.—A semi-official announcement has been issued in St. Petersburg that the European cabinets are engaged in an endeavor to induce Germany to abandon her demand for the surrender of the instigators of the anti-foreign outrages as a preliminary to peace negotiations.

Advices from Canton say that a boat load of native Christian women at Kum Chuk, on West river, was fired upon and that the women were then taken ashore and butchered in cold blood. Native Christians are flocking to Canton from the surrounding country. Canton itself is quiet. The native city is full of bad characters, but they lack leaders.

BARN FELL ON THEM.

Tornado Strikes a Minnesota Town and Eight People in a Saloon Are Killed.

Minneapolis, Minn., Sept. 25.—A special to the Times from Faribault, Minn., says: Meager details have just reached here of a terrible catastrophe which visited the village of Morris-town, ten miles west of Faribault, shortly before six yesterday evening. The village was struck by a tornado and a barn was raised in the air and dropped directly on top of Paul Gatzke's saloon, where 16 people took refuge from the storm. The saloon collapsed and all its occupants were buried in the debris. At present it is said that eight bodies and three injured persons have been taken from the ruins.

Warning Notices Sent Out.

Austin, Tex., Sept. 25.—Gov. Sayers wired last night to all points south of here warning notices that the most terrific flood in the history of the Colorado river, which floats by this city, is now surging down through the mountain gorges to the northwest of here. Great alarm is felt as to the result of the rise.

It was reported at a late hour last night that the town of Marble Falls had been washed away by the Colorado river and that there is a 50-foot rise at Kingsland. San Saba was also reported partly washed away and that all bridges on the river had been destroyed.

A Teacher Kills an Indian Pupil.

St. Paul, Minn., Sept. 25.—A Duluth, Minn., special says: Arthur Cummons, a teacher at the Vermilion reservation Indian school, came down from Tower yesterday and gave himself up to the United States authorities for killing a young Indian boy named Charles Eagle at the school Thursday last.

Hanna Willing to "Take on" Edmiston.

New York, Sept. 25.—Concerning the challenge issued by Chairman Edmiston, of the national populist committee, to discuss points at issue, Senator Hanna said that if Chairman Edmiston wished to take issue with him on any of these matters he would be accommodated.

Civil Revenue for August.

Washington, Sept. 25.—The August statement of the collections of civil revenue shows that during that month the receipts from all sources were \$25,595,716, which is an increase over the month of August last year of \$1,174,751.

BRYAN'S STATEMENT.

He Denies the Report That Positions in His Cabinet, should He Be Elected, Had Been Promised.

Chicago, Sept. 25.—William J. Bryan came to Chicago yesterday morning from his home in Lincoln, held a conference with various members of the democratic national committee and returned to Lincoln in the evening. At the conclusion of his conference with the members of the committee Mr. Bryan gave out the following statement in refutation of a report that positions in his cabinet, should he be elected, had already been promised: "I have not given to anyone, either verbally or in writing, a promise of a cabinet position and I shall not, during the campaign, make any such promise. I have not authorized and shall not authorize anyone, verbally or in writing, to promise any cabinet position to anyone. If I am elected I shall be absolutely free to discharge all the duties of the office according to my platform as far as the platform goes, and according to my own judgment in all matters not covered by the platform.

"So far as I know now I shall follow my original itinerary, notwithstanding all this talk about my changing my dates at the behest of the committee."

LESS BOOK LEARNING.

Miss Reel, Superintendent Indian Schools, Pleads for More Industrial Training for the Red Men's Children.

Washington, Sept. 25.—In her annual report to the Indian bureau, Miss Estelle Reel, general superintendent of Indian schools, advocates more industrial training for the Indian child. Miss Reel believes in giving the Indian child a good thorough training in the fundamental English branches, but says that the theory of cramming the pupil with mere book knowledge for generations to come will be a failure. A course in farming and such useful knowledge as will enable him to shoe his own horse, mend his own wagon, build his house and do the general repair work about a farm is recommended for the boys, as well as the teaching of home-making duties for the girls. The property ownership plan has a prominent place in Miss Reel's system of education. A strong plea is made for compulsory education and the cultivation of better crops and more acres of land is urged.

GATHERING IN LIVE STOCK.

Lord Roberts Reports the Capture of 3,000 More Cattle and 8,000 Sheep—Boers "Out of Hand."

London, Sept. 25.—Lord Roberts reports from Pretoria that the guards under Pole-Carew occupied Komati-poort Monday morning. The bridge was found intact. Much rolling stock, locomotives and truckloads of "long tom" ammunition were captured.

Lord Roberts adds: "Paget has captured Erasmus' camp, 3,000 cattle, 8,000 sheep and 23 prisoners. Methuen has made another big haul of stock." Lord Roberts reports that the few Boer troops remaining in the eastern Transvaal are completely "out of hand" and says they are merely burghers, the foreign mercenaries having gone to Lourenzo Marques, owing to the Portuguese government promising to maintain them while there and give them passage to their respective countries.

FEVER IN HAVANA.

War Department Informed That the Epidemic Exists There to a Considerable Extent—Troops in No Danger.

Washington, Sept. 25.—The surgeon general's office of the war department has no information regarding the epidemic of yellow fever in Havana, although it is known to exist there to a terrible extent. Private advices from Havana indicate that the outbreak is serious. The fever exists in the best parts of the city and among Americans who have gone there. It is said at the war department that no fears are entertained of a serious outbreak among the troops of the United States as they are outside of the city and not in infected districts. The outbreak is not unexpected, as fever usually develops about this time of the year and is even worse during the months of October and November than in the spring.

Small Currency Scarc.

New York, Sept. 24.—Frank A. Vanderlip, assistant secretary of the treasury, conferred with bankers in this city yesterday with reference to supplying the extraordinary demand for small currency. While what is known as "hand-to-hand" money is rather scarce at this season, the supply of \$1, \$2 and \$5 bills is now wholly inadequate.

Labor Scarc in Galveston.

Galveston, Tex., Sept. 25.—The wharf front again shows signs of activity and plenty of freight is arriving. Half a dozen steamships will be loaded this week, though one great trouble is the scarcity of labor. Trains are arriving on time and twice as many people are coming as are leaving.

How Mothers may Help their Daughters into Womanhood

Every mother possesses information of vital value to her young daughter. That daughter is a precious legacy, and the responsibility for her future is largely in the hands of the mother. The mysterious change that develops the thoughtless girl into the thoughtful woman should find the mother on the watch day and night. As she cares for the physical well-being of her daughter, so will the woman be, and her children also.

When the young girl's thoughts become sluggish, when she experiences headaches, dizziness, faintness, and exhibits an abnormal disposition to sleep, pains in the back and lower limbs, eyes dim, desire for solitude, and a dislike for the society of other girls, when she is a mystery to herself and friends, then the mother should go to her aid promptly. At such a time the greatest aid to nature is Lydia E. Pinkham's Vegetable Compound. It prepares the young system for the coming change, and is the surest reliance in this hour of trial.

The following letters from Miss Good are practical proof of Mrs. Pinkham's efficient advice to young women.

Miss Good asks Mrs. Pinkham for Help.

June 12th, 1899.
"DEAR MRS. PINKHAM:—I have been very much bothered for some time with my monthly periods being irregular. I will tell you all about it, and put myself in your care, for I have heard so much of you. Each month menstruation would become less and less, until it entirely stopped for six months, and now it has stopped again. I have become very nervous and of a very bad color. I am a young girl and have always had to work very hard. I would be very much pleased if you would tell me what to do."—MISS PEARL GOOD, Cor. 29th Avenue and Yeslar Way, Seattle, Wash.

The Happy Result.

February 10th, 1900.
"DEAR MRS. PINKHAM:—I cannot praise Lydia E. Pinkham's Vegetable Compound enough. It is just simply wonderful the change your medicine has made in me. I feel like another person. My work is now a pleasure to me, while before using your medicine it was a burden. To-day I am a healthy and happy girl. I think if more women would use your Vegetable Compound there would be less suffering in the world. I cannot express the relief I have experienced by using Lydia E. Pinkham's Vegetable Compound."—MISS PEARL GOOD, Cor. 29th Avenue and Yeslar Way, Seattle, Wash.

\$5000 REWARD Owing to the fact that some skeptical people have from time to time questioned the genuineness of the testimonial letters we are constantly publishing, we have deposited with the National City Bank, of Lynn, Mass., \$5,000, which will be paid to any person who can show that the above testimonial is not genuine, or was published before obtaining the writer's special permission.—LYDIA E. PINKHAM MEDICINE CO.

The MILL that GRINDS

The Perkins' Power Mill pays for itself each year in the cutting and grinding of feed. It is the only mill that does its work satisfactorily. It is constructed of Steel and Iron of the best quality and is almost indestructible.

WRITE FOR FREE BOOK ON MILLS.

We make mills of various sizes and to meet all conditions, but we make only the BEST. Our Direct Motion and Triple Gear Mills are not to be Compared with other Makes either in Steel or Wood for durability or strength.

PERKINS' WIND MILL CO., - MISHAWAKA, IND.

TEETHINA

was first used by Dr. Charles J. Moffett, a graduate of Jefferson Medical College, Philadelphia, Pa., in his extensive and successful treatment of children in Georgia in overcoming the troubles incident to teething and the hot summers. TEETHINA (Teething Powders) counteracts the effect of hot weather and keeps the digestive organs in a healthy condition, and has saved the lives of thousands of children in the doctor's native state, where physicians prescribe and all mothers give it, and it is criminal in mothers of our section to allow their babes and little children to suffer and perhaps die when relief can be so easily obtained by giving **TEETHINA**. Costs only 25 cents at Druggists, or mail 25c to **C. J. MOFFETT, M. D., St. Louis, Mo.**

WONDERFUL EIGHT

STOMACH TROUBLES.

If you have Sour Stomach, Indigestion, Sick Headache, Wind in the Bowels, Diarrhoea, Dysentery or Cramps, **MORLEY'S "WONDERFUL EIGHT"** will relieve you at once. Take it regularly, and the cause of the trouble will be rapidly removed.

Mr. W. A. Rescott, P. M., Elmont, Tex., says he was troubled with **CHAMP COLIC** since childhood, and "**WONDERFUL EIGHT**" is the only remedy that would cure him.

For Sale by Agent in Every Town.
