The next time the musicians of Nemaha serenade us we want them to ring the door bell or pound on the door until we wake up. Monday night a number of the young folks gave us a serenade but as we sleeping soundly, the result of a clear conscience and good digestion, we knew nothing of it until the next day, and the neighbors got all the benefit of the music.  
A number of worthless dogs in Nemaha and vicinity have made themselves particularly obnoxious recently by chasing cattle. They got after some calves on the bottom east of town Monday, got one of the calves down and would have killed it if Newt Jarvis and another man had not run and drove the dogs off. The calf was badly chewed up about the head. We would not mourn if an epidemic or shot gun or something else would kill off about nine-tenths of the dogs around here.

For some time past there has been a one-armed fisherman by the name of Fritz Drischer, who lived on a boat on the east side of the river and Saturday he was found unconscious lying on the floor of his boat by passers by. They notified Chief of Police Faunce, who went over, as it was reported that there were signs of foul play. He found the man unconscious and put him to bed. Dr. S. S. Wilson was called and pronounced it a case of kidney disease and said the man had been suffering from the disease for some time. He did what he could for the man, but he died yesterday morning without having regained consciousness. The man had been here for a year or more and made his living by fishing. He has a mother at St. Deroin, Neb., but as she is not in very affluent circumstances the county will bury the body.—Nebraska City News.
